SENATE JOINT RESOLUTIONS.

Senator Langford offered the following Senate Joint Resolution No. 1:

JOINT RESOLUTION ON NICARAGUA CANAL.

WHEREAS, There is now pending in Congress a bill for the construction of the Nicaragua Maritime Canal, under the control of the United States Government, with such conservative provision as will secure low tolls, and prevent discrimination therein; and whereas, the prompt construction of this beneficent work will be of great political and commercial advantage to the Republic and a boon to the citizens of California.

Resolved, That the Legislature of the State of California respectfully urges upon the Congress of the United States immediate and favorable action on the bill for the prompt construction of the Nicaragua Maritime Canal, under the control of our Government, and with such conservative conditions as will secure low tolls without discrimination.

Resolved, That attested copies of these joint resolutions be forwarded to the President of the Senate, the Speaker of the House of Representatives, and a copy thereof filed with the honorable Secretary of State of the United States at the National Capitol.

Senator Langford asked immediate action on the above joint resolution.

Senator Ostrom offered the following Joint Resolution No. 2:

WHEREAS, All Governments are instituted and maintained for the safety and material prosperity of its citizens; and whereas, a large area of these United States is situated contiguous to or bordering on the Pacific Ocean, such territory being of immense fertility, capability, and importance; and whereas, such portion of the Union being, under present conditions, practically without the possibility of cheap transportation and quick commercial intercourse with our sister States of the East and the markets of Europe, to which our vast cereal and other products can only find a profitable market; and whereas, in the unfortunate event of possible war with some strong maritime nation, our seaports and Government works would be in immediate and great danger of destruction, thereby entailing the loss of untold millions of wealth, and the possible invasion of our territory by a foreign foe; therefore, be it

Resolved by the Senate of the State of California, the Assembly concurring, That we would respectfully represent to the President and Congress, that the construction of the Nicaragua Canal is an immediate and pressing necessity to the entire Pacific Slope and to the country at large; and we would further represent that the construction of said Nicaragua Canal, ownership, equipage, and control, should be wholly within the Government of the United States, believing such to be necessary to best subserve the interest of the whole people.

Resolved, That upon the adoption of the foregoing preamble and resolutions, it shall be the immediate duty of the Governor to forward copies of the same to each of our Representatives in Congress and to the presiding officer of each house of Congress, and to the President at Washington.

Senator Ostrom moved that Senate Joint Resolutions Nos. 1 and 2 be referred to the Committee on Federal Relations, when appointed.

GENERAL FILE.

Consideration of Committee Substitute for Senate Joint Resolutions Nos. 1 and 2—Relative to the construction of the Nicaragua Canal:

WHEREAS, The construction of the Nicaragua Canal would be of great and infinite value to the people of the Pacific Coast, and especially to the people of the State of California, as it would afford greater protection to this coast in time of war, open new lines of trade and commerce in time of peace, tend to cheapen transportation to foreign and Atlantic seaboard markets, build up new enterprises everywhere within our State, and largely tend to maintain old ones, greatly increase our population, and thus enhance our wealth and multiply our resources; and whereas, there is now pending in the Congress of the United States a bill providing for the use of the credit of the United States in the construction of the Nicaragua Canal, and which bill prescribes, among other things, that the United States shall own absolutely more than eighty per cent of all of the stock of the Nicaragua Maritime Canal Company, previously organized under an Act of Congress of the United States, and that the President of the United States shall appoint not less than ten of the fifteen Directors of said company, and that the United

States engineers shall direct or control the work of construction of said canal, and after it is constructed, that the United States, by reason of its ownership thereof, shall fix the tolls thereon; now therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That our Senators in Congress be instructed and our members of the House of Representatives of the United States be requested to earnestly support the passage of this measure.

Resolved, That his Excellency the Governor is hereby requested to forward to each of our Senators and Representatives in Congress a copy of these resolutions.

Resolved, That upon the adoption of the foregoing preamble and resolutions, it shall be the immediate duty of the Governor to forward copies of the same to each of our Representatives in Congress, and to the presiding officer of each house of Congress, and to the President at Washington.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

The members of said Board shall be appointed by the Governor, and shall hold office for the term of four years from and after their appointment.

Said Board shall organize within thirty days after its appointment, and thereafter shall meet at least three times in each year, the stated meetings to be as follows: The second Monday in January at Los Angeles, the second Monday in May at San Francisco, and the second Monday in September at Sacramento, and shall remain in session at least two days at each meeting, and may meet as many times during each year, and at such other times and places, as it may deem necessary. Said Board shall elect a President and a Treasurer from among its members, and shall also elect a Secretary, who need not be a member of said Board.

SEC. 3. Every firm, corporation, or person who, at the time of the passage and approval of this Act, is engaged in any city, or town, or city and county, having a population of five thousand or over, in the business or practice of undertaking or funeral directing, or of caring for, preparing for burial, or disposing of the dead bodies of human

He shall have the general supervision of all city officers elected or appointed; he shall have power to suspend any city officer (except a member of the Board of Trustees) for a dereliction, neglect, or non-performance of duty, and shall report the same to the Board of Trustees. If the Board, after a hearing, by affirmative vote of at least five members, approve of the suspension, they shall declare the office vacant, or continue the suspension for such time as they may deem proper, and such vacancy shall be filled by the Mayor, subject to the approval of the Board of Trustees. It shall be the duty of every officer and person in the employ or service of the city, when it shall come to his knowledge that any contract or agreement with the city, or with any officer or department thereof, or relating to the business of any office, has been, or is about to be, violated, by the other contracting party, forthwith to report to the Mayor all facts and information within his possession concerning such matter; and a willful failure so to do shall be cause for the removal of such officer or employé, as in case of malfeasance in office.

SEC. 31. When, and so long as the Mayor is temporarily unable to perform his official duties, the President of the Board of Trustees shall act as Mayor *pro tempore*. When a vacancy occurs in the office of Mayor, it shall be filled for the unexpired term by the Board of Trustees, assembled for the purpose. A member of the Board of Trustees, during the term for which he shall have been elected or appointed, shall be ineligible to fill such vacancy.

SEC. 32. The Mayor, by and with the consent of the Board of Trustees, shall appoint all officers of the city whose election or appointment is not otherwise provided for in this charter or by law. When a nomination is made to the Board, action shall be taken thereon by the Board in not less than five nor more than fifteen days thereafter; and in case the officer nominated is not confirmed, the Mayor shall, within ten days thereafter, nominate another, and may continue doing so until the place is filled. No member of the Board of Trustees shall ever suggest, request the appointment of, appoint, or nominate, any officer, clerk, or employé, to any place in the city government, except to fill a vacancy in the office of Mayor, elect the President of the Board of Trustees, City Clerk, and necessary election officers.

SEC. 33. The Mayor shall not, during the term for which he shall have been elected, hold any other office, or be a member of any Board or commission connected with the Federal, State, or City Government, except as in this charter otherwise provided. Nor shall he ever receive from the city, for any cause or reason, any other or greater compensation than the salary allowed him by this charter as Mayor.

Sec. 34. The Mayor may, when necessary, appoint a clerk to be known as Mayor's Clerk. The Mayor shall perform all such other duties as may be prescribed by law or ordinance.

CITY CLERK.

Sec. 35. There shall be a City Clerk, who shall be a qualified elector of the city, and shall be elected by the Board of Trustees. He shall have the custody of, and be responsible for, the corporate seal, and all books, papers, records, and archives belonging to the city not in actual use by other officers or elsewhere by special provision committed to their custody; he shall be present at each meeting of the Board of Trustees, and keep a record of its proceedings; he shall keep separate books in which, respectively, he shall record all ordinances, contracts, and official bonds; he shall keep all of his books properly indexed, and open to public inspection when not in actual use; he shall make out, sign, and deliver to the City Auditor all licenses and receipts for water rates, and perform such other duties as are, or shall be, imposed upon him by this charter, or by ordinance; he shall devote his entire time to the duties of his office; he shall have power to take affidavits and administer oaths in all matters relating to the business of the city, and shall make no charge therefor.

Sec. 36. The term of office of the City Clerk shall be two years.

CITY AUDITOR AND ASSESSOR.

Sec. 37. There shall be a City Auditor, who shall be ex officio City Assessor, and who shall be elected by the qualified voters of the city at each general municipal election. He shall have been a citizen of the State and a resident and qualified elector of the city for at least two years next before his election. As Assessor he shall perform all the duties prescribed by this charter, or by law, for assessing property in the city for purposes of taxation. As Auditor he shall number and keep a record of all demands approved by him, showing the date of approval, amount, and name of original holder, the number, on what account, and out of what fund payable. It shall be his duty to be constantly acquainted with the exact condition of the treasury. He shall, on application of any person indebted to the city holding money payable into the City Treasury, or desiring to pay money therein, certify to the City Treasurer the amount thereof, to what fund applicable, and by whom to be paid. He shall, upon the written order of the City Treasurer directing him to issue a receipt for money paid into the City Treasury, charge the City Treasurer with the amount received by him, and give the person paying the same a receipt therefor. It shall be his duty to apportion among the several funds all public money at any time in the City Treasury not by law or ordinance specifically apportioned and appropriated, and forthwith notify the City Treasurer of such apportionment or appropriation. He shall countersign and deliver to the proper officer, all licenses and receipts for water rates. He shall, on the first Monday of each month, or oftener if required, report in writing to the Mayor and likewise to the Board of Trustees, the condition of each fund in the treasury. He shall keep a complete set of books for the city, in which shall be set forth in a plain and business-like manner every money transaction of the city, so that he can at any time tell the exact condition of the city's finances.

He shall make an annual report, showing the sources from which the city's revenues were derived and how expended. He shall draw and sign all warrants upon the treasury, except as otherwise in this charter provided. Every demand must, before it can be paid, be verified by the oath of the claimant or some one in his behalf, and be presented to the Auditor to be approved, who shall satisfy himself whether the money is legally due and remains unpaid, and whether the payment thereof from the treasury of the city is authorized by law; and if so, out of what fund, and that there is sufficient money in such fund with which to pay the same. After such examination he shall approve or reject the claim in whole or in part, and indorse on such demand his approval or rejection over his signature, together with the date thereof. If it is approved, the fund out of which it is to be paid shall be designated. If the claim is rejected, or any part of it, unless the party presenting it is willing to take in full of the entire demand the sum offered, the Auditor shall return it, with his reasons for rejecting it, to the Board or other body which originally authorized it; then if it is allowed by a majority vote of all the members of the Board or other body authorizing it, and approved by the Mayor, it shall be audited in the same manner as if it had not been rejected; *provided*, the said Board or other body had the authority to make the expenditure out of which the claim arose. No demand upon the City Treasury shall be considered, presented for action, or acted upon, allowed, or approved, unless it specifies on its face each several item composing it, and the amount and date thereof. Every demand shall be numbered and acted upon by the Auditor in the order of its presentation to him; and when allowed, either in whole or in part, the warrant therefor shall be numbered and entitled to payment out of the fund on which it is drawn in the same order as allowed. No demand upon the treasury shall be allowed by the Auditor in favor of any officer or other person, or any of his assigns, who is in any manner indebted to the city, without first deducting therefrom the amount of such indebtedness; nor in favor of any officer or other person, or his assigns, having the collection, care, custody, or control of public funds, unless the accounts of such officer or other person have been presented, passed, approved, and allowed, as is or may be required by law; nor in favor of any officer or other person, or his assigns, who has neglected to make any oath required by law or ordinance, or other regulation of the Board of Trustees; nor in favor of any officer, or his assigns, who has failed, to the knowl-

edge of the Auditor, to do any duty imposed upon him by law or ordinance, or other regulation of the Board of Trustees. The Auditor shall have authority to take affidavits and administer oaths necessary in the transaction of all city business, without charge, and shall perform such other duties as are imposed upon him by law or this charter.

SEC. 38. He shall keep publicly posted in his office a list of all persons receiving salaries or wages from the city, with the amount of monthly salary or wages received by each opposite his name, which list shall be revised and corrected by him monthly, and be at all times open to public inspection.

SEC. 39. The City Auditor and Assessor may appoint a deputy, who shall be a qualified elector of the city, and who shall possess the powers and may perform the duties pertaining to the offices of his principal.

SEC. 40. The City Assessor shall be allowed during the months of March, April, May, and June of each year such number of additional deputies, to be paid by the city, not exceeding one for every ten thousand inhabitants or fraction thereof, as may be necessary to carry the work of assessment forward promptly to completion. The salaries of such deputies shall not exceed three hundred dollars each for the entire time employed.

SEC. 41. The term of office of the Auditor shall be two years.

CITY TREASURER.

SEC. 42. There shall be a City Treasurer, who shall be elected by the qualified voters of the city at each general municipal election. He shall have been a citizen of the State and a resident and qualified elector of the city for at least five years next before his election. It shall be the duty of the City Treasurer to receive and keep all moneys that shall come to the city by taxation or otherwise, and to pay the same out on demands legally audited in the manner hereinafter provided; and without such auditing he shall disburse no public moneys whatever, except the principal and interest of the municipal debt, when payable. He shall receive no money into the City Treasury unless accompanied by the certificate of the City Auditor, provided for in section thirty-seven hereof. He shall issue to any person paying money into the City Treasury an order to the City Auditor directing the City Auditor to issue a receipt to such person, which order shall contain a statement of the amount paid into the City Treasury, the name of the person paying the same, and the fund to which the same is applied. He shall make a report at the close of business each Saturday to the Auditor, showing all moneys received during the week, together with the number of each order for a receipt given by him therefor, and from whom received, and to what fund applied. Whenever the city shall provide a proper vault and safes for the keeping of the city money, the Treasurer shall keep said moneys in said vault, and he shall not thereafter, under any circumstances, deposit with any person, corporation, or bank, any of the moneys of the city, or allow the same (except in payment of demands against the city) to pass out of his custody. If he shall violate any of the provisions of this section he shall forfeit his office and be forever disqualified from holding any position in the service of the city. As soon as possible after the adoption of this charter the Board of Trustees shall provide suitable vaults and safes for the use of the Treasurer. It shall be in the power of the Board of Trustees, by ordinance, at any time, to require the City Treasurer to devote his entire time to the duties of his office.

SEC. 43. The term of office of City Treasurer shall be two years.

CITY COLLECTOR.

SEC. 44. There shall be a City Collector, who shall be elected by the qualified voters of the city at each general municipal election. He shall have been a citizen of the State and a resident and qualified elector of the city for at least five years next before his election. It shall be the duty of the City Collector to receive and collect all city taxes, general and special; he shall also collect all city licenses, water rates, harbor dues, cemetery receipts, and such other branches of the city revenue, not otherwise herein provided for, as the Board of Trustees may by ordinance direct, and pay the same over to the City Treasurer weekly. The time and manner of collection of licenses shall be provided by the Board of Trustees.

SEC. 45. Whenever any person required by any city ordinance to take out a license shall fail, neglect, or refuse to take out such license and pay therefor in the manner and at the time in such ordinance provided; or, if any person so required to take out any license shall transact, do, or carry on any business, trade, or occupation, without having first procured the requisite license for such trading or carrying on, the City Collector shall report such delinquent to the City Attorney, who shall at once bring suit, in the name of the city, against the delinquent; and in such case the City Collector or City Attorney may make the necessary affidavit as in other cases, for an attachment, and a writ of attachment shall issue upon the filing of the affidavit, against the property of such delinquent, without an undertaking being filed by or on behalf of the city; and in such action the sum of fifteen dollars shall be included in the judgment as liquidated damages, together with the original debt and costs of the action; *provided, however*, nothing in this section shall authorize the Court, officer, or any other person whomsoever to make any claim or charge against the city for any services rendered in or about any such action; and *provided further*, that in any such suit no witness for the plaintiff shall be entitled to demand or receive any witness fees or mileage in advance, nor shall any witness be entitled to charge or receive any fees or mileage whatever, unless the same are made as costs out of the defendant; and *provided further*, that if judgment is rendered

for the defendant, it shall be general, and without costs; *and provided further*, that any person who shall commence or continue to do, transact, or carry on any business, trade, profession, or calling, for which a license may by any ordinance be required to be taken out, without first procuring such license, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than ten dollars nor more than one hundred dollars, or be imprisoned for not less than five nor more than fifty days. Upon the trial of any criminal action provided for by this section, the defendant shall be deemed not to have procured the proper license, unless he either produces it or proves that he did procure it; but he may plead in bar of the criminal action a recovery against him and the payment by him, in a civil action, of the proper license money, damages, and costs.

SEC. 46. All billiard tables, bar fixtures, tenpin alleys, pins, and balls, furniture, crockery, glassware, liquors and chattels of every kind used in transacting or carrying on or doing the business of a drinking saloon, bar, restaurant, billiard saloon, tenpin alley, tavern, eating house, ball-room, dance house, theater, or circus, where by ordinance such business is required to be licensed, shall, without reference to the actual ownership of such property, be liable for and may be taken in attachment or on execution for the license money due on the business in which they are allowed to be used; and every dray, cart, wagon, carriage, hack, omnibus, or other vehicle required by ordinance to be licensed, together with the horse or horses commonly used thereon, shall, without reference to the actual ownership of such property, be liable for and may be taken in attachment or on execution for the license money due on such dray, cart, wagon, carriage, hack, omnibus, or other vehicle. There shall be added to every license not obtained within five days after the same becomes due and payable, the sum of one dollar, which shall become a part of the license, and be paid into the treasury in the same manner as other revenues.

SEC. 47. The City Collector shall be allowed one deputy and one or more clerks, not to exceed three in number, as the Board of Trustees may determine, except as herein otherwise provided. Such deputy and all such clerks shall be appointed by the City Collector, and shall retain their positions during the term of office of the City Collector appointing them, unless sooner removed by the City Collector or the Board of Trustees; as in this charter provided for the removal of any appointee, when in the judgment of said Board the public service will be improved thereby. If at any time, by reason of the growth of the city and a large increase of population, the duties of the City Collector's office become too arduous to be performed in a thorough manner with the maximum force herein provided for, then the Board of Trustees may allow one or more additional clerks, as in the judgment of said Board the increased duties of the Collector's office demand. Such additional clerks shall not receive a greater compensation for service than twelve hundred dollars per annum.

SEC. 48. The term of office of the City Collector shall be two years.

CITY ATTORNEY.

SEC. 49. There shall be a City Attorney, who shall be elected by the qualified voters of the city at each general municipal election, and who shall have been an elector of the city for at least two years next before his election, and shall be an attorney and counselor at law, duly admitted to practice by the Supreme Court of this State, and whose term of office shall be two years, and until his successor is elected and qualified. It shall be his duty to prosecute, on behalf of the people, all criminal cases before the Police Court, and the City Justices of the Peace, and all violations of this charter, and of city ordinances and resolutions. It shall be his duty to attend to all suits and other matters to which the city is a party, or in which the city may be legally interested; *provided*, the Board of Trustees shall have control of all litigation of the city, and may direct an attorney, selected by the Mayor, to take charge thereof, or to assist the City Attorney therein. The City Attorney shall give his advice, or opinion, to the Mayor, Board of Trustees, Board of Education, or other city officers, whenever required to do so, and do such other things appertaining to his office as by the Board of Trustees, or Mayor, may be required of him. He shall approve the form of all bonds given to, and all contracts made with, the city. He shall, when required by the Board of Trustees, or any member thereof, draft any and all proposed ordinances for the city.

ARTICLE IV.

JUDICIAL DEPARTMENT.

SEC. 50. All the powers, jurisdiction, and authority which, prior to the adoption of this charter, have been exercised by the Police Judge and the Police Court of the City of Sacramento, or either of them, shall hereafter be vested in and exercised by the City Justice of the Peace; or if there be more than one such City Justice, then by the one to be designated by the Mayor; and it is hereby made the duty of said City Justice, in addition to the duties otherwise required of him by law, to hold a Police Court in said city. Said City Justice and the Court so held by him shall have, in addition to the civil jurisdiction conferred by law upon Justices' Courts, jurisdiction of the following public offenses committed within the city, and which shall be prosecuted in the name of the people of the State of California:

First—Petit larceny.

Second -Assault or battery not charged to have been committed upon a public officer in the discharge of his duties, or to have been committed with such intent as to render the same a felony.

Third -Breaches of the peace, riots, routs, affrays, committing a wrongful injury to property, and all misdemeanors punishable by fine not exceeding five hundred dollars, or imprisonment not exceeding six months, or by both such fine and imprisonment.

Fourth -Of all proceedings for the violation of any ordinance of the city, or of any provision of this charter.

Fifth -The examination of persons charged with the committing of any offense to be prosecuted by indictment or information.

Sixth -Such other criminal jurisdiction as is, or may hereafter be, conferred by law upon Police Courts, Justices' Courts, or Justices of the Peace; and in the exercise of his jurisdiction he may punish persons guilty of contempt of Court, and may issue warrants of arrest, subpoenas, venire, writs, executions, attachments, and all other processes necessary and proper.

SEC. 51. In all cases in which the Justice is a party, or in which he is interested, or related to either party by consanguinity or affinity within the third degree, and in case of his sickness, absence, or inability to act, any Justice of the Peace of the County of Sacramento may, at the request of the Mayor, act in the place and stead of said City Justice.

SEC. 52. Said City Justice holding the Police Court shall have a clerk, to be designated the Clerk of the Police Court, who shall be appointed by the Mayor, by and with the consent of the Board of Trustees, and his term of office shall be two years. The Clerk shall keep a record of the proceedings of, and issue all process ordered by, the City Justice, or by said Police Court, and receive and pay weekly into the City Treasury all fines imposed by said Court. He shall each month render to the Auditor, and also to the Board of Trustees, an exact and detailed account in writing, upon oath, of all fines imposed and collected, and of all fines imposed and uncollected, and of all other moneys collected on behalf of the city since his last report, which said report shall be certified to by the City Justice. He shall prepare bonds and justify bail, when the amount has been fixed by the Justice, in cases where the bail does not exceed \$200, and he may administer oaths. The Clerk shall remain at the court-room of said Court during business hours, and during such reasonable time thereafter as may be necessary for discharging his duty.

SEC. 53. The city shall furnish a suitable court-room for said City Justice, at which he shall remain from 9 a. m. to 12 m., and from 1 p. m. to 5 p. m.; and shall also furnish the necessary dockets and blanks for the use of said Court. Said Court shall always be open, except upon non-judicial days, and also on such days for such purposes as are by law required of other Courts of the State on such days.

SEC. 54. Said Court shall be considered a Court of record, and shall have a seal, to be furnished by the city. Certified transcripts of the dockets, files, records, or any papers, process, or proceedings of said Court made by the Clerk thereof under seal of said Court, shall be received in evidence in any Court of this State; and all warrants and process of said Court, and all acts done by said Court and certified under its seal, shall have the same force and validity in any part of this State as though issued or done by any other Court of record in the State.

SEC. 55. In all cases where said Court is authorized to impose a fine, or imprisonment, or both, upon persons convicted in said Court of any offense triable therein, the Court may sentence the offender to be imprisoned in the city jail, if there be one, or in the county jail, and in addition to imprisonment may sentence offenders to labor in the chain-gang, or at other labor for the benefit of the city.

SEC. 56. The said Court and the Justice thereof shall have power to commit any offender under eighteen years of age, duly convicted, to the Preston School of Industry, or to the Whittier Reform School, or to any other reformatory institution for juvenile offenders that may at any time be provided by law.

SEC. 57. The Police Court and the City Justice shall be governed in their proceedings by the provisions of law regulating proceedings before Justices' Courts, Justices of the Peace, and Police Courts, except so far as the same are added to or modified by this charter; and such Police Court may be treated and considered as a Justices' Court whenever necessary to sustain and uphold the jurisdiction thereof, or of any proceedings had therein; and all provisions of law relating to Justices of the Peace and to Justices' Courts are hereby made applicable to said Police Court, and nothing in the title of the Court, or of any papers, or proceedings therein, shall affect the question of jurisdiction; and said Court and the said Justice shall have all the powers and jurisdiction now or hereafter conferred by law upon Justices' Courts, Police Courts, or Justices of the Peace, and shall charge and receive, for the benefit of the city, like fees for services.

SEC. 58. All actions and proceedings pending and undetermined, either in the City Justices' Court or in the Police Court of the City of Sacramento, as said Court existed prior to the taking effect of this charter, shall be proceeded with, heard, tried, and determined in the Police Court herein provided for, before said City Justice of the Peace, the same as if such actions and proceedings had been originally commenced therein.

SEC. 59. The City Justice of the Peace who shall hold the Police Court shall not be entitled by reason thereof to any new or additional salary or compensation, but the salary allowed him by law as City Justice of the Peace shall be in full for all services performed by him in holding such Police Court, and he shall account for and pay to the city all costs and fees by him collected; *provided, however*, that if, at any time, the law providing for payment of a salary to said City Justice is repealed, the Board of Trustees

may by ordinance provide for the payment by the city of a salary to said Justice, not exceeding two thousand dollars a year.

SEC. 60. Any and all Acts by which a Clerk of the Police Court of this city is provided, shall not be considered as applicable to the City of Sacramento after this charter takes effect.

ARTICLE V.

DEPARTMENT OF PUBLIC WORKS.

SEC. 61. The Board of Trustees shall, immediately after its organization, take possession and have the custody and control of all maps, surveys, field notes, records, plans, specifications, contracts, models, machinery, tools, appliances, contract rights, privileges, books, documents, papers, archives, and property belonging to said city heretofore kept by or in the offices of the City Surveyor, Superintendent of Streets, and Superintendent of Waterworks, or kept by or in the possession of any other officer and pertaining to any public buildings or public works of the city.

SEC. 62. The Board shall have charge and superintendence of all public work of every kind not otherwise controlled by general law to be done for the city, and also of furnishing all material and supplies for public use, except as otherwise provided in this charter. It shall be the duty of the Board to vigilantly inspect all parts of the city, and cause to be done from time to time such work as it shall deem necessary or proper.

SEC. 63. There shall be a City Surveyor, who shall be a qualified elector, and shall be appointed by the Mayor, by and with the consent of the Board of Trustees, and whose term of office shall be two years, and who shall perform all civil engineering and surveying required in the prosecution of the public works and improvements done under the direction of the Board, and shall certify to the progress and completion of the same, and do such other work pertaining to his profession as he may be directed to do by the Board or by any general law of the State of California. He shall keep a public office within the city, as provided by the Board of Trustees, and shall keep therein the records of his office and all maps, plats, surveys, and certificates pertaining thereto, with an index for easy reference. All such records, maps, plats, surveys, and certificates, including monuments, shall be considered the property of the city, and shall be turned over to his successor in office.

SEC. 64. There shall be a Superintendent of Streets, who shall be a qualified elector, and shall be appointed by the Mayor, by and with the consent of the Board of Trustees, and whose term of office shall be two years, and whose duty shall be to see that the laws, ordinances, orders, and regulations relating to sewers, drains, levees, streets, alleys, and highways are fully carried into execution, and that the penalties thereof are rigidly enforced. He shall superintend and direct the cleaning of all sewers and drains, and keep himself informed of the condition of all the public streets and highways, and also of all public buildings, parks, lots, sewers, levees, and grounds of the city, and report the same to the Board, and shall perform such other duties as are hereinafter specified, or as the Board may require of him, and he shall have the power and shall perform the duties required of the Superintendent of Streets by the Act of the Legislature of the State of California entitled "An Act to provide for work upon streets, lanes, alleys, courts, places, and sidewalks, and for the construction of sewers within municipalities," approved March 18, 1885, or by any Acts amendatory thereof, supplementary thereto, or substituted therefor. He shall keep a public office in the city, as provided by the Board, and shall keep therein the records of his office and a register of all streets, alleys, sewers, and drains, and all improvements and repairs made thereon, with an index for easy reference. Should he fail to see the laws, ordinances, and regulations relating to the public streets and highways carried into execution, he and his sureties shall be liable upon his official bond to any person injured in person or property in consequence of said official neglect. All registers, records, books, contracts, plats, diagrams, and all papers and documents belonging to his office shall be delivered to his successor in office.

SEC. 65. All public work authorized by the Board to be done, and not within the provisions of the general law of the State of California operating thereon, shall be done under written contract, except as hereinafter provided. Before awarding any such contract for doing any work for the city, the Board shall cause notice to be posted conspicuously in its office and published not less than ten days, in a daily newspaper published in the city, inviting sealed proposals for the contemplated work; and in case the estimated cost of the work exceeds five thousand dollars, to be so posted and published for not less than twenty days, except that any repair or improvement not exceeding an estimated cost of one hundred dollars may be made by the Board under written contract, or otherwise, without advertising for sealed proposals; *provided, however*, that should there be imminent danger to the city from inundation the Board may, in its discretion, contract for the immediate repair of its levees without such notice, posting, or publication.

SEC. 66. All proposals shall be made upon printed forms to be prepared by the Board, and furnished gratuitously upon application. All proposals offered shall be accompanied by a check, certified by a responsible bank, payable to the order of the Clerk of the Board, for an amount not less than ten per cent of the aggregate of the proposal, and no proposal shall be considered unless accompanied by such check. No person, corporation, or firm shall be allowed to make, file, or be interested in more than one bid for the same work. If on the opening of said bids more than one bid appear in which the same person, corporation, or firm is interested, such bids shall be rejected.

SEC. 67. On the day and at the hour specified in said notice inviting sealed proposals the Board shall assemble and remain in session for at least one hour thereafter, and all bids shall be delivered to the Board by the bidder or his agent before the expiration of the hour named in the advertisement. No bid not so delivered to the Board shall be considered. Each bid as it shall be received shall be numbered and marked "Filed" by the City Clerk, and authenticated by his signature. At the expiration of the hour stated in the advertisement within which the bids will be received, the Board shall, in open session, open, examine, and publicly declare the same, and an abstract of each bid shall be recorded in the minutes of the Board by the Clerk. Before adjourning the Board shall compare the bids with the record made by the City Clerk, and shall, thereupon, at said time, or at such other time, not exceeding twenty days thereafter, as the Board may adjourn to, award the contract to the lowest bidder, except as otherwise herein provided. Notice of such award shall forthwith be posted for five days by the Clerk of the Board in some conspicuous place in the office of the Board. The Board may reject any and all bids, and must reject the bid of any party who has been delinquent or unfaithful in any former contract with the city, and all bids other than the lowest regular bid; and on accepting said lowest bid, shall thereupon return to the proper parties the checks corresponding to the bids rejected. If all the bids are rejected, the Board shall return all the checks to the proper parties, and again invite sealed proposals, as in the first instance. The check accompanying the accepted bid shall be held by the Clerk of the Board until the contract for doing said work, as hereinafter provided, has been entered into, whereupon said certified check shall be returned to said bidder. If said bidder fails or refuses to enter into the contract to do said work, as hereinafter provided, then the certified check accompanying his bid, and the amount therein mentioned, shall be forfeited to the city, and shall be collected and paid into the Street Fund. The Board shall have no power to relieve from or remit such forfeiture.

SEC. 68. If at any time it shall be found that the person to whom a contract has been awarded has, in presenting any bid or bids, colluded with any other party or parties, for the purpose of preventing any other bid being made, then the contract so awarded shall be null and void, and no recovery shall be had thereon, and the Board shall advertise for a new contract for said work.

SEC. 69. All contracts shall be drawn under the supervision of the City Attorney, and shall contain detailed specifications of the work to be done, the manner in which it shall be executed, and the quality of the materials to be used. No change or modifications in the plans or specifications shall be made after proposals for doing the work have been called for. Every contract entered into by the Board shall be signed by the President thereof, and by the other contracting party. All contracts shall be signed in duplicate, one of which, with specifications and drawings, if any, of the work to be done, and the materials to be furnished, shall be filed with the Board, and the other, with said specifications and drawings, shall be delivered to the contractor. At the same time with the execution of said contract, said contractor shall execute to said city, and deliver to the Clerk of the Board, a bond in the sum named in the notice for proposals, with two or more sufficient sureties, to be approved by the Board, or shall deposit with the City Clerk a certified check upon some solvent bank for said amount for the faithful performance of said contract. No surety on any bond shall be taken unless he be a resident and householder or freeholder within the State, and worth the sum specified in the bond over and above all his just debts and liabilities, exclusive of property exempt from execution; and each surety shall justify and make and sign an affidavit to that effect, of which affidavit a form shall be printed upon the bond. But when the amount specified in the bond exceeds three thousand dollars, and there are more than two sureties thereon, they may state in their affidavit that they are severally worth amounts less than that expressed in the bond if the whole amount be the equivalent of two sufficient sureties. The contract shall specify the time within which the work shall be commenced, and when to be completed, as was specified in the notice inviting proposals therefor. The Board may extend said time, but in no event for more than ninety days beyond the time originally fixed for its completion. In case of failure on the part of the contractor to complete his contract within the time fixed in the contract, or within such extension of said time as is herein provided, his contract shall be void, and the Board shall not pay or allow to him any compensation for any work done by him under said contract beyond such sum as, in the judgment of the Board, the work done is actually worth to the city, less the detriment suffered by the city by such loss of time in the completion of the work.

SEC. 70. The Board of Trustees is hereby authorized to adopt, establish, and maintain a system of levees, canals, and drainage, and to construct and maintain the works necessary thereto; and to repair, maintain, construct, and control all levees, canals, and other works necessary to the protection of the city. The Board of Trustees is hereby declared to be the legal representatives and successors of the Board of Supervisors of the County of Sacramento, and of the Board of Levee Commissioners of the City of Sacramento in all matters pertaining to the Sacramento Drainage Canal, and in all matters pertaining to any canal or drains for the drainage of the city, and in all matters pertaining to the levees in the city, and in all matters pertaining to all the levees, canals, and other works which said city has adopted or constructed, or shall hereafter adopt or construct, as part of its system of levees or drainage; and the Board of Trustees shall, in addition to the other powers granted to them, also have power to dredge, or in any other manner deemed expedient to keep clear the channels of the Sacramento and American Rivers adjacent

to the city, and to build any dam, boom, weir, wharf, jetty, or other works either in the county of Yolo or in the county of Sacramento, or in part in either of said counties, as in the opinion of said Board may be necessary to keep the channel of the Sacramento River, in front of the city, free and open for the navigation of first-class steamboats; and said Board may cut or dig any canal, ditch, slough, or outlet in either of said counties, and may use all other means and appliances whatever that may be necessary to keep the Sacramento River navigable in front of the city, to provide proper drainage for the city, and to guard any and all lands within said city from inundation. The purposes for which any and all the works in this section mentioned are, or are to be constructed, are hereby declared public uses, and the City of Sacramento is hereby authorized to proceed, at any time under the provisions of the statutes for that purpose, to condemn for such use any and all property necessary to the construction and maintenance of such works; *provided, however*, no system or plan for any of the work in this section authorized to be performed shall be adopted by said Board which will cost over twenty thousand dollars, unless such plan shall be first submitted to and ratified by a vote of the electors of said city; *and provided further*, that if any plan is adopted involving the expenditure of more than twenty thousand dollars, the money required to carry out such plan shall be raised either by the issuance of bonds or by direct taxation, as the electors at such election may determine.

SEC. 71. The City of Sacramento may make such contracts with any swamp land, levee, or reclamation district now in existence or hereafter to be formed, or with any person or body, politic or corporate, whereby each may be compelled to contribute its proper quota towards any works necessary to be constructed outside of said city. If any levee, or any system of drainage projected, constructed, maintained, or kept in repair by said city, shall be beneficial to any levee, swamp land, or reclamation district, such district shall contribute its just quota to the payment of the expense of such construction, maintenance, and repair. The amounts to be paid, respectively, by said city and said districts, shall be fixed by the agreement of the respective Boards of Trustees of said city and districts. In case the Boards of Trustees cannot agree, the Superior Court of said county must, on the petition of said city, appoint a commission of not more than three persons, who shall have power to determine: First—Whether the levee or drain is beneficial to such swamp land, reclamation, or levee district; and if so, then, Second—The proportion of the cost of constructing and maintaining such levee or drain which such district ought to pay. The proportion so fixed shall be conclusive on said city and district, and each must thereafter contribute to the construction, maintenance, and repair of such levee or drain in the proportion fixed by such commission.

ARTICLE VI.

REVENUE AND TAXATION.

SEC. 72. All property in the city, not exempt under the laws of the State or of the United States, except the property used exclusively for public schools, and such as may belong to the United States, the State, to Sacramento County, or to the city, is subject to taxation for municipal purposes. All taxable property must be assessed at its full cash value. Land and improvements thereon must be separately assessed. A mortgage, deed of trust, contract, or other obligation by which a debt is secured, shall, for the purposes of assessment and taxation, be deemed an interest in the property affected thereby. In case of debts so secured, the value of the property, less the value of the security, shall be assessed and taxed to the owner of the property, and the value of the security shall be assessed and taxed to the owner thereof, and the taxes so levied shall be a lien upon the property and security.

SEC. 73. The City Assessor must, between the first Mondays of March and July in each year, ascertain the names of all persons taxable, and of all property in the city subject to taxation, and must assess such property to the persons by whom it was owned or claimed, or in whose possession or control it was, at noon on the first Monday of March next preceding; but no mistake in the name of the owner or supposed owner shall render the assessment invalid. In assessing solvent credits not secured by mortgage or trust deed, a reduction therefrom shall be made of debts due to *bona fide* residents of the State. The Assessor shall have power to, and he must exact from, each person a statement in writing, under oath, setting forth specifically all the real and personal property owned by such person, or in his possession, or under his control, at noon on the first Monday in March. If any person, after demand made by the Assessor, neglects or refuses to give under oath the statement herein provided for, or to comply with the other requirements of this charter relating to assessments and taxation, the Assessor must make an estimate of the value of the property of such person, and the value so fixed by the Assessor shall not be reduced by the Board of Trustees.

SEC. 74. If the owner or claimant of any property, not listed by another person, is absent or unknown, the Assessor must make an estimate of the value of such property. If the name of the absent owner is known to the Assessor, the property must be assessed in his name; if unknown, the property must be assessed to "unknown owners."

SEC. 75. Any property willfully concealed, removed, transferred, or misrepresented by the owner thereof, to evade taxation, must, upon discovery, be assessed at not exceeding ten times its value, and the assessment so made must not be reduced by the Board of Trustees. Any property discovered by the Assessor to have escaped assessment for the last preceding year, if such property is owned or controlled by the same person who owned or controlled it for such preceding year, may be assessed at double its value.

SEC. 76. The City Assessor must prepare an assessment book, with appropriate headings, alphabetically arranged, in which must be listed all property within the city subject to taxation, which assessment book must be completed by the Assessor on or before the first Monday of July of each year. The Assessor shall also make a map book, showing a plan of the various blocks of the city, and mark thereon in each subdivision thereof the name of the person to whom it is assessed. As soon as completed, the assessment book, together with the map book and statements, must be delivered to the City Clerk, who must immediately give notice thereof, and of the time the Board of Trustees will meet to equalize assessments, by publication in a daily newspaper published in the city, and in the meantime the assessment book must remain in his office for the inspection of all persons interested.

SEC. 77. The Board of Trustees must meet on the first Monday in July of each year to examine the assessment book and equalize the assessments. It must continue in session for that purpose, from time to time, until the business of equalization is disposed of, but not later than the third Monday in July. The Board has power, after giving notice in such manner as it may by rule prescribe, to increase or lower the entire assessment roll, or any assessment contained therein, so as to equalize the assessment of property and make it conform to the true value of such property in money. No reduction must be made in the valuation of any property unless the party affected thereby, or his agent, files with the Board a written application therefor, verified by his oath, and showing the facts upon which such reduction is claimed. No reduction must be made unless such person, or his agent, attends and answers, under oath, all questions relating to the value of the property. The Board may subpoena such witnesses and hear such other evidence in relation to the matter as it may deem proper.

SEC. 78. During the session of the Board it may direct the Assessor to assess any taxable property that has escaped assessment, or to add to the amount, number, or quantity of property, when a false or incomplete list has been rendered, and to make and enter new assessments (at the same time canceling previous entries) when any assessment made by him is deemed by the Board so incomplete as to render doubtful the collection of the tax. The Clerk of the Board must record in a book kept for that purpose all changes, corrections, and orders made by the Board, and must enter upon the assessment book all changes and corrections so made, and must, on or before the first Monday in August, deliver the assessment book, so corrected, to the City Auditor.

SEC. 79. The City Auditor, as soon as the assessment book is delivered to him by the Clerk, must proceed to add up the valuations and enter the total valuation of each kind of property, and the total valuation of all property on the assessment book, and must, before the third Monday in August, report a statement thereof, in writing, to the Board of Trustees.

SEC. 80. The Mayor, City Collector, and City Auditor shall constitute a Board of Estimate, of which Board the Mayor shall be Chairman, and the Auditor shall be Secretary. It shall be the duty of said Board of Estimate, on or before the second Monday in August of each year, to prepare and transmit to the Board of Trustees, accompanied by estimates and reports from the various departments of the city government, an estimate of the probable necessities of the city government for the next ensuing fiscal year, giving the amount required to meet the sinking and interest funds for any and all valid outstanding debts, together with the amount needed for salaries and the probable wants of all the departments of the city government in detail, and showing specifically the necessities of each of the several specific funds to be provided for in the treasury. The estimate shall also show, as nearly as may be, what amount of income and revenue is likely to accrue to the treasury, and be collected, from fines, licenses, water rates, harbor dues, and all other sources of revenue, exclusive of taxes upon property, and shall give an estimate of what amount will be required to be levied and collected by tax upon all property in the city subject to taxation, in order to meet the necessities of such fiscal year. If such estimate shall show that an increased amount will be required in any specific fund over the amount required for such fund for the pending fiscal year, such estimate shall also state the reasons why such increase will be required. The salaries pertaining to the respective offices held by them shall be in full compensation for all services performed by the members of said Board of Estimate.

SEC. 81. The Board of Trustees shall establish a general fund, and may, also, before fixing the rate of the annual city tax by ordinance, establish such special and separate funds, representing the several funded obligations of the city, if any, and the several departments requiring municipal expenditure as may be necessary, which special funds shall not be diverted to any other purposes than that for which they have been specifically created, except of balances in excess at the end of the fiscal year.

SEC. 82. The Board of Trustees must, on or before the first Monday in September in each year, by ordinance, fix the rate of taxes to be levied, and levy the taxes for general municipal purposes upon all property subject to taxation in the city, and shall also, at the time of making such levy, levy such direct special taxes for the special and separate funds created or provided for as shall be necessary to raise sufficient revenue to carry on the various departments of the municipal government for the current fiscal year; *provided*, that the levy for the General Fund shall not exceed one dollar for each one hundred dollars upon the assessment book. Every tax has the effect of a judgment against the person, and every lien created by this charter has the effect of an execution levied against all property of the delinquent, and the judgment is not satisfied nor the lien removed until the taxes are paid or the property sold therefor. Every tax due upon personal property is a lien upon the real property of the owner thereof, from and after

twelve o'clock noon of the first Monday in March in each year. Every tax due upon real property is a lien against the property assessed; and every tax due upon improvements on real property assessed to others than the owner of the real property, is a lien upon the land and improvements, which several liens attach at twelve o'clock noon of the first Monday in March in each year.

SEC. 83. As soon as the Board of Trustees has fixed the rates of taxes for the year, the Auditor must compute and enter in a separate column in the assessment book the respective sums, in dollars and cents, rejecting the fractions of a cent, to be paid on the property therein enumerated, and foot up the columns showing the total amount of such taxes, and on or before the fourth Monday in September he must deliver said corrected and completed assessment book to the City Collector, and charge the Collector with the full amount of the taxes levied.

SEC. 84. Upon the receipt by him of the assessment book the Collector must publish, for at least five days, a notice in some daily newspaper published in the city, specifying:

First—That the taxes on all personal property secured by real property, and one half the taxes on all real property, will be due and payable at the office of the City Collector on the first Monday in October, and will be delinquent on the last Monday in November next thereafter, at six o'clock p. m., and that unless paid prior thereto fifteen per cent will be added to the amount thereof, and that if said one half be not paid before the last Monday in April next thereafter, at six o'clock p. m., an additional five per cent will be added thereto; that the remaining one half of the taxes on all real property will be payable on or after the first Monday in January next thereafter and will be delinquent on the last Monday in April next thereafter, at six o'clock p. m., and that unless paid prior thereto five per cent will be added to the amount thereof.

Second—That all taxes may be paid at the time the first installment is due and payable.

SEC. 85. The City Collector must mark the fact and date of payment, or partial payment, as the case may be, in the assessment book opposite the name of the person assessed. He must also give a receipt to the person making the payment.

SEC. 86. On the last Monday in November of each year, at six o'clock p. m., all taxes then unpaid, except the last installment of the real property taxes, are delinquent, and thereafter the Collector must collect an addition of fifteen per cent thereon; *provided*, that if they are not paid before the last Monday in April next succeeding, at six o'clock p. m., he shall also collect an additional five per cent thereon. On the last Monday in April of each year, at six o'clock p. m., all the unpaid portions of the remaining one half of the taxes on real property are delinquent, and thereafter the Collector must collect an addition of five per cent thereon; *provided, however*, that the entire tax on real property may be paid at the time the first installment is due; and *provided further*, that the taxes on all personal property, unsecured by real property, shall be due and payable immediately after the assessment of said personal property is made.

SEC. 87. On the third Monday in December of each year the City Collector must attend at the office of the Auditor with the assessment book, and the Auditor must carefully examine the same, and if satisfied that the statements there appearing of taxes due and unpaid are correct, he must foot up the amount of all taxes so due and unpaid, and must settle with him for the taxes paid, and require from him the Treasurer's receipt therefor.

SEC. 88. On the third Monday in May of each year the Collector must attend at the office of the Auditor, with the assessment book, and must furnish and deliver to the Auditor at said time a complete "delinquent list" of all persons and property then owing taxes, in which list must be set down in numerical or alphabetical order all matters and things contained in the assessment book and relating to delinquent persons or property. The Auditor must carefully compare the "delinquent list" with the assessment book, and if satisfied that it contains a full and true statement of all taxes due and unpaid, he must foot up the amount of taxes so remaining unpaid, and credit the Collector therewith, and must settle with him for the taxes and percentages therein collected since the December settlement, and require from him the Treasurer's receipt therefor. After such settlement with the Collector the Auditor must charge the Collector with the amount of taxes due on the "delinquent list," with five per cent added thereto, and within three days thereafter deliver said "delinquent list," duly certified, to such Collector.

SEC. 89. On or within five days before or after the first Monday of June of each year, the Collector must publish the delinquent list, which must contain the names of the persons and a description of the property delinquent, and the amount of taxes and costs due, opposite each name and description, with the taxes due on personal property added to the taxes on real estate, where the real estate is liable therefor, or the several taxes are due from the same person. The expense of the publication shall be a charge against the city. The Collector must append to and publish with the delinquent list a notice that unless the taxes delinquent, with the costs and percentages, are paid, the real property upon which such taxes are a lien will be sold at public auction, at a time and place designated in the notice. The time of sale must not be less than twenty-one nor more than twenty-eight days from the first publication, and the place of sale must be in front of the County Court-house of Sacramento County. The publication must be made once a week for three successive weeks in some daily newspaper, or supplement thereto, published in the city. A copy of the publication, with the affidavit of the Collector attached thereto that it is a true copy of the same, that the publication was made in a newspaper, or supplement thereto, published in the city, and the date of each appearance, shall be filed with the City Auditor, which affidavit shall be prima facie evidence of all the facts stated therein.

SEC. 90. The City Collector must collect, in addition to the taxes and percentages due on the delinquent list, fifty cents on each tract of land separately assessed, as costs for preparing the list.

SEC. 91. On the day fixed for the sale, or on some subsequent day, to which he may postpone it (of which he must give notice, by at least one publication in a daily newspaper published in this city), the Collector, between the hours of ten o'clock A. M. and three P. M., must sell at public auction the property advertised, commencing at the head of the list, and continuing in the order published until completed. He may postpone the day of commencing the sale, or the sale, from day to day, but the sale must be completed within three weeks from the day first fixed.

SEC. 92. The owner or person in possession of any real estate offered for sale for taxes due thereon, may designate, in writing, to the Collector, prior to the sale, what portion of the property he wishes sold, if less than the whole; but if he does not, then the Collector may designate it; and the person who will take the least quantity of the land, or in case an undivided interest is assessed, the smallest portion of the interest, and pay the taxes, percentages, and costs due, including fifty cents for the duplicate certificate of sale, shall be the purchaser. But in case there is no purchaser, in good faith, for the same, on the first day the property is offered for sale, then, when the property is offered thereafter for sale, and there is no purchaser in good faith for the same, the whole amount of property assessed shall be struck off to the City of Sacramento as the purchaser, and the duplicate certificate delivered to the City Treasurer, and filed by him in his office; and in such case the Collector shall make an entry, "sold to the city," on the assessment book, opposite the tax, and he shall be credited with the amount thereof in his settlement with the Auditor.

SEC. 93. If the purchaser does not pay the taxes, percentages, and costs before ten o'clock A. M. of the following day, the property, on the next sale day, before the regular sale, must be resold for the taxes and costs, and the bid of the person refusing to make payment shall not be received on the sale of any other property on the list.

SEC. 94. Before delivering any certificate of sale the Collector must enter in a book a description of the land sold, the date of sale, purchaser's name and amount paid, and regularly number the descriptions on the margin of the book, and put a corresponding number on each certificate, which book must be delivered to the Auditor. Such book must be open to public inspection, without fee, when not in actual use. After receiving the amount of taxes, percentages, and costs, the Collector must make out and sign, in duplicate, a certificate, dated on the day of sale, stating (when known) the name of the person assessed, a description of the land sold, the amount paid therefor, that it was sold for taxes, giving the amount and year of the assessment, the name of the purchaser, and specifying the time when the purchaser will be entitled to a deed. One copy of such certificate shall be delivered to the purchaser, and the other shall be filed in the office of the City Auditor; and upon the filing of such certificate the lien of the city vests in the purchaser, and is only divested by the payment to him, or to the City Treasurer, for his use, of the purchase money and fifty per cent thereon.

SEC. 95. Redemption of the property sold may be made by the owner or any party in interest within twelve months from the date of the sale. Redemption must be made in gold or silver coin, and when made to the Treasurer, he must credit the amount to the person named in the Collector's certificate, and pay it on demand to him or his assignee.

SEC. 96. On presentation of the receipt of the purchaser, or of the Treasurer for his use, of the total amount of redemption money, the Auditor must mark the word "redeemed," the date and by whom redeemed, on the certificate and in the margin of the book where the entry of the certificate is made.

SEC. 97. If the property is not redeemed, the Collector, or his successor in office, must make to the purchaser, or his assignee, a deed of the property, reciting in the deed substantially the matters contained in the certificate, and that no person has redeemed the property during the time allowed for its redemption. Such deed, duly acknowledged, is prima facie evidence of the regularity of all the proceedings had from the assessment by the Assessor up to and inclusive of the execution of the deed, and that the grantee named in the deed is owner of the property described therein. The deed conveys to the grantee the absolute title to the lands described therein as of the date of the expiration of the period of redemption free of all incumbrances, except the lien for taxes which may have attached subsequent to the sale. If property sold to the City of Sacramento for non-payment of taxes is not redeemed, the Collector, or his successor in office, must make to the city a deed of the property, the same as in the case of other purchasers; in such case the former owner may repurchase such property from the city at any time within three years next after the issuance of the deed, upon paying to the city five times the amount of the purchase price paid by the city therefor, together with any other taxes and assessments unpaid thereon, and in the event of such repurchase, the Mayor shall execute a deed at the expense of the purchaser, conveying to him the interest of the city in and to such property. If the property is not repurchased within three years, it shall, at such time as the Board of Trustees direct, be sold at auction to the highest bidder, after at least ten days' notice by publication in some daily newspaper of the city, and the proceeds of the sale shall belong to the city and be paid into the treasury.

SEC. 98. The City Collector shall, after the first Monday in February in each year, collect the taxes due on personal property, except where real estate is liable therefor, by seizure and sale at public auction of any personal property owned by the delinquent. The sale must be made, after five days' notice, given by publication, or by posting in three public places in the city, and must be of a sufficient amount to pay the taxes, per-

centages, and costs. For seizing or selling personal property, the Collector may charge in each case the sum of three dollars costs. On payment of the price bid, the delivery of the property, with a bill of sale, vests the title in the purchaser. All excess over the taxes, percentages, and costs of the proceeds of any property so sold must be returned to the owner, and until claimed must be deposited in the city treasury for his benefit. The unsold portions of the property seized may be left at the place of sale at the risk of the owner.

SEC. 99. The City Collector must, on the second Monday of July of each year, attend at the office of the City Auditor with the delinquent list, and the Auditor must then carefully compare the list with the assessments of persons and property not marked "paid" on the assessment book, and when taxes have been paid must note the fact in the appropriate column in the assessment book. The Auditor must then administer to the Collector an oath, to be written and subscribed on the delinquent list, that every person and all property assessed on the delinquent list, on which taxes have been paid, has been credited in the list with such payment, and that the taxes not marked "paid" have not been paid, and that the Collector has not been able to discover any property of the persons liable to pay the same out of which to make the collection. The Auditor must then foot up the amount of taxes unpaid, and credit the Collector therewith, and have a final settlement with him, and the delinquent list must remain on file in the Auditor's office. Interest must be collected on all such delinquent taxes at the rate of two per cent per month from the time delinquent until paid.

SEC. 100. Any taxes, percentages, or costs erroneously or illegally collected may, by order of the Board of Trustees, be refunded by the Treasurer.

SEC. 101. The City Assessor, between the first Monday in March and the first Monday in July in each year, must collect the taxes on all personal property. When the owner thereof has no real estate, or when, in his opinion, said taxes are not a lien on real property sufficient to secure the payment, he may enforce such collection by seizure and sale of any personal property owned by the person liable to pay the tax. Such seizure and sale shall be conducted in the same manner as provided to be done by the Collector by section ninety-eight hereof. The Assessor and Collector are governed, as to the amount of taxes so collected on personal property, by the rate of the previous year. When the rate is fixed for the year in which the collection is made, then if a sum in excess of the rate has been collected, the excess shall be repaid by the Treasurer to the person from whom it was collected, and if a sum less than the rate has been collected, the deficiency must be collected as are other taxes on personal property.

SEC. 102. The Assessor must settle with the City Treasurer, and pay into the treasury weekly the personal property taxes collected by him, and the Auditor must, as soon as the assessment book for the year comes into his hands, note opposite the name of each person from whom taxes have been so collected the amount thereof, and as soon as the rate for the year is fixed, he must also note on the assessment book, in connection with the previous entry, the amount of excess or deficiency.

SEC. 103. Omissions, errors, or defects of form in the assessment book, or in the delinquent list, may, with the written consent of the City Attorney, be supplied or corrected by the Assessor at any time prior to the sale for delinquent taxes. In the assessment, advertisement, and sale for taxes, initial letters, abbreviations, and figures may be made use of, and no assessment, or act relating to the assessment or collection of taxes, is illegal on account of informality, nor because the same was not completed within the time designated.

SEC. 104. All taxes assessed before this charter takes effect must be collected at the time provided for, and under the laws in force at the time the assessment was made, and all such taxes shall be valid and collectible the same as if this charter had not been adopted.

SEC. 105. Nothing in this charter shall ever be construed as permitting or authorizing any portion of the taxes levied and collected for the respective special funds, which the Board of Trustees are authorized to establish, to be made use of in payment of any indebtedness of the city which existed prior to January 1, 1888, nor shall the total amount of taxes collected and made use of in any one year in payment of any indebtedness of the city which existed prior to January 1, 1888, ever exceed fifty-five cents on each one hundred dollars upon the assessment book.

SEC. 106. Should the Board of Trustees at any time deem it necessary for the interest and protection of the city at large, or any portion thereof, or the property or health of the citizens thereof, or any other matter or thing, the object of which would be to advance the interest of the city, to contract and create any debts or obligations against the city for materials furnished and labor and services performed, without having the funds in the treasury to pay the same, the said Board may enter into contracts and create debts or obligations, without interest, and are hereby empowered and authorized to levy and collect a special tax, annually, or in one levy, to pay such debts and obligations so created, and provide the mode and manner of their payment; *provided*, that no such debts, obligations, or claims shall be contracted or created against the city, without first having been voted upon by the qualified electors thereof, unless expressly provided by this charter. Notice shall be given of such elections by publication for not less than two weeks theretofore, in some daily newspaper published in the city in which notice the contemplated repairs or improvements, and the cost or estimated cost of the same, and the manner it shall be paid for, shall be distinctly stated. If two thirds of the votes cast at such election be in favor of the proposition named, then the Board shall be authorized to proceed with the work and to create the liability against the city to the

extent so voted for. For all debts and obligations so contracted and created the said Board shall issue warrants therefor, under the seal of the city, and specifying therein the date of the election by which the issuance thereof was authorized, and the total amount of warrants then issued under and by virtue of such authority.

ARTICLE VII.

BONDED INDEBTEDNESS.

SEC. 107. The Board of Trustees may contract bonded indebtedness as follows: Said Board shall, by order duly passed, by yeas and nays, recorded in its journals of proceedings, specify the particular purpose for which the indebtedness is to be created, and the amount of bonds which is proposed to be issued. The Board shall then provide for submitting the question of the issue of said bonds to the qualified electors of the city at a special municipal election, to be called by the Board for that purpose, and it shall be held as nearly as possible in conformity with the general laws of this state. Notice shall be given of such election by publication, for three weeks next prior thereto, in some daily newspaper published in the city, in which notice the amount of such bonds proposed to be issued, the term of years to run, the object for which the indebtedness is to be created, and the rate of interest to be paid, shall be distinctly stated. The ballots shall be printed: "For the issue of bonds—yes;" "For the issue of bonds—no." If two thirds of the electors of the city so voting at such election shall vote in favor of issuing bonds, and not otherwise, the Board may proceed to issue the amount of bonds specified, in manner as follows: Said bonds to be in sums of not less than one hundred dollars, nor more than one thousand dollars each, having not more than forty years to run, and bearing interest at a rate per annum not exceeding six per cent, payable semi-annually, the said bonds to be payable and redeemable at any time at pleasure of the city, which said bonds shall be substantially in the following form:

No. _____.

The City of Sacramento, in the State of California, for value received promises to pay to _____ or order, at the office of the Treasurer of said city, on the first day of _____, in the year _____, or at any time before that date, at the pleasure of the city, the sum of _____ dollars, gold coin of the United States, with interest at the rate of _____ per cent per annum, payable at the office of said Treasurer semi-annually, on the first days of _____ and _____ in each year, on presentation and surrender of the interest coupons hereto attached.

In testimony whereof, the said city, by its Board of Trustees, has caused this bond to be signed by the Mayor of the city, countersigned by the President of the Board of Trustees, and attested by the City Auditor, with the corporate seal of said city hereto attached, this _____ day of _____ in the year _____.

[Corporate seal.]
Attest: _____, City Auditor.

_____, Mayor.
_____, President Board of Trustees.

And the interest coupons shall be in the form following, and signed by the City Auditor:

No. _____.

The Treasurer of the City of Sacramento, California, will pay to the holder hereof, on the _____ day of _____, in the year _____, at his office in said city, the sum of _____ dollars, gold coin, for interest on City Bond No. _____.

_____, City Auditor.

SEC. 108. Whenever bonds issued under this charter shall be duly executed, numbered consecutively, and sealed, they shall be delivered to the City Treasurer and his receipt taken therefor, and he shall stand charged on his official bond with all bonds delivered to him, and the proceeds thereof. The Treasurer shall then proceed to sell said bonds, for not less than par, together with any accumulated interest, under the direction of the Board of Trustees, and for the highest prices; and whenever said bonds, or any portion thereof, are sold, he shall report the fact to the Auditor, stating under oath to whom sold, and for what price, and the Auditor shall at once apportion the moneys arising from such sale to the proper fund in the Treasury, filing a statement of such apportionment with the Treasurer. The Board of Trustees shall have the power, and must create and name the fund or funds of the city into which the moneys arising from the sale of bonds shall be paid. And before or at the time of issuing said bonds, the Board of Trustees shall, by ordinance, provide for the levy and collection of a tax, to be levied and collected each year, at the same time and in the same manner as other city taxes, sufficient to pay the annual interest upon such bonds issued and outstanding, and not less than such proportionate part of the principal thereof as one year's time bears to the whole term for which such bonds are to run; and at or before the date of maturity of the bonds, the whole amount collected therefor shall be sufficient to discharge the whole amount of the principal and interest. And the Board must annually thereafter levy such tax, in sufficient amount to comply with the provisions of this section and the ordinance of the Board aforesaid; and the moneys arising from such levies shall be used for the payment of such bonds and interest coupons, and for no other purpose whatever. Whenever the amount in the hands of the Treasurer belonging to the Bond Fund, after setting aside the sum required to pay the interest maturing before the next

levy, is sufficient to redeem one or more such bonds, he shall publish, once a week for two weeks, in a daily newspaper published in the city, a notice to the effect that he is prepared to pay such bond or bonds (giving the number thereof), and that if same are not presented for redemption within thirty days after the first publication of such notice, the interest on such bonds will cease. He shall at the same time deposit in the Post Office a copy of such notice, inclosed in a sealed envelope, with the postage paid thereon, addressed to such owner or owners, as shown by the records thereof kept in the Treasurer's office. If such bond or bonds are not presented within the time specified in such notice, the interest thereon shall then cease, and the amount due be set aside for the payment of the same whenever presented. All redemptions of bonds shall be made according to priority in order of their issuance, beginning at the first number.

SEC. 109. The Board of Trustees, by a vote of not less than seven members thereof, may, whenever they deem it for the public interest, refund any outstanding bonded indebtedness of the city by the issue of other bonds, in such form and under such conditions as may be prescribed by general laws of the State of California in force at the time of such issue; *provided, however*, that such new bonds shall not bear a greater rate of interest than five per cent per annum.

ARTICLE VIII.

SEC. 110. The government of the common schools of the city shall be vested in a Board of Education, to consist of nine members, to be called School Directors, and who shall receive no compensation. One School Director shall be elected from each ward. Their terms of office shall be four years. Of the members of the Board of Education first elected under this charter, the members from the Second, Fourth, Sixth, and Eighth Wards shall hold their office for four years, and the members from the First, Third, Fifth, Seventh, and Ninth Wards shall hold their office for only two years. At each election thereafter, members of the Board of Education shall be elected to succeed those whose terms are about to expire. No person shall be eligible to the office of School Director, unless he is at the time of his election a qualified elector of the ward from which he is elected.

SEC. 111. The Board may determine the rules of its proceedings, and the yeas and nays shall be taken when demanded by any member and entered on the records of the Board. Its records shall be open to public inspection. The Mayor shall fill all vacancies occurring in the Board until the next regular municipal election. All meetings of the Board shall be public. All elections held by it shall be *viva voce*.

SEC. 112. The powers and duties of the Board of Education are as follows:

There shall be an annual election for teachers, at such time as the Board may determine; *provided, however*, that no election or appointment of any teacher, janitor, or other employé shall constitute a contract, either as to the duration of the office, or as to the amount of salary, or compensation to be paid; but the Board shall always have the power to dismiss any or all teachers, janitors, or other employés, and to alter the amount of salary, or compensation.

Third—To make, establish, and enforce all necessary and proper rules and regulations for the government and progress of the common schools, and for the investigation of charges against any person in the employ of the department, and for carrying into effect the laws relating to education; also, to establish and regulate the grade of schools, and determine what text-books (in addition to those published by the State), course of study, and mode of instruction shall be used in said schools; but any text-book determined upon by the Board shall not be changed within a period of four years after its adoption.

name of the city, conveyances of property belonging to the city and sold by the Board of Education; *provided*, that no real estate shall be bought, sold, or exchanged without the consent of the Board of Trustees, evidenced by ordinance; *and provided further*, that the proceeds of any such sale or exchange of real estate shall be exclusively applied to the purchase of other lots, or the erection of school houses for the use of this department.

Seventh—To appoint School Census Marshals on or before the first day of May of each year, whose duties shall be as prescribed by general law.

Eighth—To sue in the name of the city for any and all property acquired or claimed for the use and benefit of the School Department, and to prosecute and defend all actions at law or in equity, necessary to recover and maintain the full enjoyment and possession of said property, and to require the services of the City Attorney in all such actions.

Ninth—To examine every demand payable out of the School Fund, and for good cause to reject any such demand, or to allow the same in whole or in part, and to compel the attendance of witnesses before the Board, or any committee thereof, in any matter under investigation.

Tenth—To discharge all legal incumbrances now existing, or which may hereafter exist, upon any school property.

Eleventh—To prohibit any child under six years of age from attending the common schools; *provided*, in kindergarten classes children of four years of age may be admitted, and to suspend or expel pupils for misconduct.

Twelfth—To dispose of and sell at public auction, upon not less than five days' notice by publication in a daily newspaper published in said city, such personal property as shall no longer be required by the department. All moneys realized from such sales shall be paid into the treasury to the credit of the School Fund.

Thirteenth—To receive and manage property or money acquired by devise, bequest, or donation in trust for the benefit of any school, educational purpose, or school property.

Fourteenth—To exclude from the schools and school libraries all books, publications, or papers of sectarian, partisan, or denominational character.

Fifteenth—To furnish books for the children of parents unable to furnish them. The books so furnished shall belong to the city, and shall be returned to the Superintendent at the close of each term.

Seventeenth—To make a report whenever required directly to the State Superintendent of Public Instruction of the text-books used in the city schools.

Eighteenth—Each member of the Board shall visit every school in the city at least once in each term, and examine carefully into its management, condition, and wants.

Nineteenth—It shall be the duty of the Board to prescribe a course of study that will fit and prepare the students therein to enter any of the departments of the University of the State of California. Such course shall be known as the High School course.

Twentieth—The Board may provide departments for the training of pupils in the industrial and mechanical arts and domestic and commercial vocations, and shall have power to furnish such departments with necessary tools, apparatus, and appliances.

Twenty-first—And generally to do and perform such other acts as may be required by general law applicable to the city, and as may be necessary and proper to carry into force and effect the powers conferred on said Board, and to increase the efficiency of the common schools in the city.

SEC. 113. The City Auditor and City Treasurer shall keep a City School Fund, into which shall be paid all the moneys appropriated to it under any law providing city school moneys, all moneys received from the State on account of the city's share of any apportionment of the State school moneys, and the city's portion of all county moneys collected or set apart for school purposes; and neither the Board of Trustees nor City Auditor shall allow any claim payable out of the City School Fund until after such claim shall have been audited and allowed by the Board of Education.

SEC. 114. The Board of Education shall annually, on or before the first Monday in August, make and report to the Board of Trustees a statement in detail of the receipts and expenditures for school purposes in the city during the year then last past, and shall at the same time make and furnish a detailed statement of the probable amount of money that will be required during the current year, and the purposes for which it is required, and also an estimate of the amount that will be received by the city from the State and county for school purposes. Upon receiving the estimate of moneys needed as provided herein, the Board of Trustees shall, at the time of levying other city taxes, levy a direct special school tax, which, after making proper allowance for delinquencies, will produce a sum that (taken with the estimated amount to be received from the State and county) will make the amount required by the Board of Education; *provided, however*, that the Board of Education shall not exact a levy to exceed twenty-five cents on the one hundred dollars, except upon affirmative vote of not less than seven members of said Board, and in any event the Board of Education shall not be authorized to exact a greater levy than thirty cents on the one hundred dollars. Nothing herein shall be construed as forbidding the Board of Trustees from levying a tax in excess of thirty cents on the one hundred dollars when in their judgment the same is required for the use of the Common School Department.

SEC. 115. Any member or officer of the Board of Education who shall, while in office, accept any donation or gratuity in money, or of any valuable thing, either directly or

indirectly, from any teacher, or candidate or applicant for a position as teacher, upon any pretense whatever, shall be guilty of a felony.

SEC. 116. Any School Director, officer, or other person connected with the School Department, or drawing a salary from the Board of Education, who shall be interested, either directly or indirectly, in, or who shall gain any advantage or benefit from any contract, payments under which are to be made in whole or in part of the moneys derived from the Common School Fund, or raised by taxation or otherwise for the support of the common schools, shall be guilty of a felony.

SEC. 117. In case of disaster from fire, riot, earthquake, or public enemy, the Board of Education may, with the approval of the Mayor and the Board of Trustees, incur extraordinary expenditures in excess of the annual limit provided by law and in this charter for the repair, construction, and furnishing of school houses; and the Board of Trustees may by ordinance cause to be transferred to the School Fund, from moneys in any other fund not otherwise appropriated, sufficient moneys to liquidate such extraordinary expenditure.

SUPERINTENDENT OF SCHOOLS.

SEC. 118. The Board of Education shall, within ninety days after the organization of the Board, succeeding each municipal election, elect a City Superintendent of Common Schools, who shall be a man of good moral character, not less than thirty years of age, and a practical educator. The term of office of the City Superintendent of Common Schools shall be two years, and until the election and qualification of his successor; *provided, however*, that he may be dismissed and his office declared vacant at any time by an affirmative vote of not less than seven members of the Board of Education. He shall devote his entire time to the duties of his office.

SEC. 119. The City Superintendent of Common Schools shall be the ministerial officer and Secretary of the Board of Education, and may explain his views, and make recommendations upon any subject-matter whatever under discussion or consideration by the Board; he shall keep a true record of the proceedings of the Board, and a correct account of all expenditures allowed by it, and for what purpose, so that he can at any time make an exhibit, in aggregate and detail, of the outlays for each school; he shall be general custodian of all property, books, papers, and documents belonging to the Board, and shall have a general supervision over school houses and school property, and see that they are not wasted, injured, or destroyed; he shall grade the classes in the schools, and classify the pupils as to the grade of the school they shall attend, and, in connection with the teacher, as to which class or classes in such school, and shall issue all necessary permits for such attendance; *provided, however*, that no pupil shall be allowed to attend any public school in the city until the Superintendent shall be first satisfied that such child has been duly vaccinated; he shall from time to time recommend to the Board such alterations, additions, and changes in the grade of schools, course of study, text-books, and such other matters and things as he deems proper; he shall, in June of each year, make to the Board a full and detailed report of the progress of the schools since the last annual report, their present condition, the condition of the houses, lots, and furniture, the number of pupils taught in each—the kindergarten, primary, grammar, and high schools—and the cost per pupil, including all ordinary expenses, the amount paid, respectively, for teachers, rents, repairs, lands, buildings, fuel, furniture, stationery, etc.; he may suspend or expel any pupil for misconduct or violation of rules, reporting such suspension or expulsion to the Board at its next meeting; *provided, however*, any party feeling aggrieved may appeal from the decision of the Superintendent to the Board, which may confirm or reverse his action; he shall have a general supervision and control of the teachers, and shall report to the Board any misconduct, want of ability, negligence or inattention on the part of any of them; and he may suspend any teacher for such want of ability, negligence, inattention, or misconduct, and shall report such suspension to the Board at the next meeting thereof for final action; he shall have power to assign the teachers to such classes as in his judgment shall be to the best interest of the schools; *provided*, that in the high and grammar schools such assignments shall be made with the consent and advice of the Principals of such schools; and *provided*, that by a vote of six members the Board of Education may change any such assignment; he shall see that none but authorized text-books are used, and that teachers and pupils faithfully perform their respective duties; and he shall do and perform such other duties, matters, and things as may be required of or imposed on him by the Board of Education. The Superintendent of Schools shall be allowed a clerk, to be appointed by himself.

SEC. 120. Whenever additional teachers are required to fill vacancies or to take charge of newly established classes, such teachers shall be appointed by the Board for six months, unless such appointment is sooner revoked by the Board. At the expiration of the period of appointment, the Board shall proceed to elect such appointed person or persons to the position, subject to subdivision second of section one hundred and twelve; *provided*, that such teacher presents to the Board a certificate of success, signed by the City Superintendent of Common Schools. But if such appointee fails to present such certificate to the Board, his or her position shall be declared vacant, and a new appointment shall be made in like manner.

SEC. 121. The City Superintendent of Schools, and each member of the Board of Education, shall have power to administer oaths and affirmations in all matters connected with the department.

SEC. 122. The Board of Education shall provide the City Superintendent of Common Schools with a suitable office, which shall be kept open to the public.

ARTICLE IX.

POLICE DEPARTMENT.

SEC. 123. There shall be a Chief of Police, who shall be a qualified elector of the city, not less than twenty-five years of age, and who shall be appointed by the Mayor, by and with the consent of the Board of Trustees, and his term of office shall be two years, and until his successor shall be appointed, confirmed, and qualified.

SEC. 124. The Chief of Police shall have command and control of the police force, subject to the general supervision of the Mayor. He shall have power to suspend any policeman for disobedience of any lawful order, for the violation of the rules of the department, neglect of duty, drunkenness, or misconduct as a policeman; and he shall, upon suspending a policeman, promptly certify the fact, with the cause thereof, to the Mayor, who shall forthwith report the same, in writing, together with the charges preferred against such policeman, to the Board of Trustees, and if such policeman be found guilty by the Board, he shall be dismissed from the police force.

SEC. 125. The Chief of Police shall observe, and cause to be observed and enforced, all laws and ordinances within the city, and shall see that all lawful orders and process of the Board of Trustees, Police Court, and Justices' Courts within the city are promptly executed. For the suppression of any riot, public tumult, disturbance of the peace, unlawful assembly, organized resistance to the laws, or public authorities in the performance of their duties, or in arresting persons for public offenses, he shall have the powers that are or may be hereafter conferred upon Sheriffs by any law, and all his lawful orders shall be promptly executed by the police officers. In addition to the powers and duties herein enumerated, the Chief of Police shall have such other powers, and perform such other duties pertaining to the Police Department, as may from time to time be conferred or imposed upon him by ordinance.

SEC. 126. The Chief of Police shall keep a public office, to be provided by the Board of Trustees, which office shall be kept open, and at which he, or a police officer designated by him, shall be in attendance at all hours, day and night. The Chief of Police shall devote his entire time to the discharge of the duties of his office, and shall not absent himself from the city without urgent necessity, unless in pursuit of persons who have committed public offenses within the limits of the city. If such absence from the city be upon any other than business immediately connected with his office, except on vacation (and then only by written consent of the Mayor filed with the City Clerk), he shall forfeit his salary for the time of such absence, and the proper amount shall be deducted from his next salary warrant by the City Auditor. He shall designate one of the policemen to attend constantly upon the Police Court, and to execute the orders and process thereof, but any policeman shall have authority to execute the orders and process of the Police Court and of the Court of the City Justice of the Peace.

SEC. 127. There shall be a Captain of Police, selected from among the police force by the Mayor, by and with the consent of the Board of Trustees, and who, in the absence of the Chief of Police, shall have command and control of the police force, and who shall perform such other duties and have such other powers pertaining to the Police Department as shall be required of him by the Chief of Police, or from time to time be imposed or conferred on him by ordinance of the Board of Trustees. The term of office of the Captain of Police shall be two years, and until his successor shall be appointed, confirmed, and qualified.

SEC. 128. In addition to the Chief and Captain of Police there shall be a permanent police force, which shall consist of such number of policemen, not less than fifteen and not exceeding one for every one thousand inhabitants, as the Board of Trustees shall from time to time by ordinance authorize to be appointed. The policemen shall be appointed by the Mayor, by and with the consent of the Board of Trustees, and shall hold office during good behavior, unless removed for cause or for the improvement of the public service, as in this charter provided. The Chief of Police shall appoint from the police force a day and night jailer, who shall be termed Sergeants of Police. No person shall be appointed to any position on the police force of the city unless he shall be a man of good moral character and of good repute for honesty and sobriety, a citizen of the United States, and a resident and elector of the city for at least one year next preceding his appointment. Nor shall any person be so appointed who has ever been convicted of a felony, or who is unable to understandingly read and write the English language, or who is deficient in health, strength, or courage, and, except those in service on the police force at the time this charter takes effect, every appointee hereafter shall be not less than twenty-five years or more than forty-five years of age, and must, before being appointed, present to the Mayor a certificate from the City Physician that the applicant is in sound health and free from any physical disability that would incapacitate him for the duties of a policeman.

SEC. 129. Whenever the Board of Trustees shall deem it expedient, a patrol system may be provided for the use of the Police Department, which system shall include horses, wagons, and all electric or other appliances necessary for the operation of such system.

SEC. 130. Except as otherwise in this charter prescribed, the Mayor, in making appointments of members of the police force, shall be guided solely by the fitness of the applicant, and no person shall ever be appointed to or removed from the police force for or on account of partisanship, or for or on account of his political opinions. No member of the Police Department shall take any part whatever in any political caucus

or convention, nor be a member of any political club, or committee, or take any part in any general or primary election, except to vote; and any officer, member, or employé in said department violating any of the provisions of this section shall forfeit his position.

SEC. 131. No member of the police force shall be allowed to receive any money, gratuity, or compensation for any services he may render as an officer, except rewards which have been publicly offered for the apprehension and conviction of criminals, without the written consent of the Mayor first filed with the City Clerk; and any member of the police force who shall violate this provision shall be at once removed from office. The members of the police force shall not follow any other profession, calling, or business, but shall devote their entire time to the performance of their official duties, nor shall they be allowed pay for any period during which they shall absent themselves from public duty, except for the yearly vacation provided for by general law.

SEC. 132. The members of the police force shall promptly and fully obey, enforce, observe, and cause to be obeyed and enforced, all lawful orders of their superiors, and all rules and regulations of the Police Department. They shall be prompt and diligent in the detection of crime, the arrest of public offenders, with or without a warrant, the suppression of all riots, affrays, and disturbances of the peace, in the abatement of public nuisances, and the enforcement of the laws and city ordinances. It shall be the duty of each member of the police force to acquaint himself with the provisions of this charter, with all ordinances of the city, and with all laws of the State defining public offenses and regulating criminal proceedings.

SEC. 133. Whenever the Board of Trustees by resolution shall so direct, there shall be appointed by the Mayor, by and with the consent of the Board of Trustees, two policemen in each ward of the city, who shall be known as extra policemen. Such extra policemen shall be resident electors of the ward for which they are appointed, and be employed therein in some regular and steady occupation. Such extra policemen shall at all times be diligent in preventing and suppressing disturbances of the peace and in arresting public offenders, with or without warrant, and they shall, whenever called upon, aid the Chief and regular police officers in making arrests and quelling disturbances. They shall be under general control of the Chief of Police, and shall report their acts to him, but shall not be assigned to regular service, nor be required to do regular patrol duty. Such extra policemen shall hold office during the pleasure of the Board, and shall each receive at the rate of one hundred dollars a year for their services. No extra policeman shall act as a special policeman, nor shall he be permitted to ask or receive any pay or compensation, from any source, for his services as policeman, other than the pay herein provided for.

SEC. 134. In addition to the regular and extra police force, the Mayor may at times when very large numbers of people, in addition to the permanent inhabitants, congregate in the city, appoint not to exceed fifteen special policemen to serve not to exceed two weeks, who shall receive the same compensation for their services as is paid to regular policemen. The Mayor may also, by and with the consent of the Board of Trustees, upon the petition of any person, firm, or corporation, appoint at any time a special policeman for special service, to be paid for by such person, firm, or corporation; *provided, however*, that the locality where such special policeman is to act shall be described in the warrant of appointment; *and provided further*, that no such appointment shall be made until the Board of Trustees, by affirmative vote of at least six members, authorize the appointment of a special policeman for such locality. The policeman so appointed shall not receive any pay from the city. All special policemen shall possess all the powers and discharge all the duties of regular policemen, and be under the direction and control of the Chief of Police, and be subject to and obey all rules and regulations of the Police Department. The term of office of any special policeman shall not extend beyond one year, nor shall such special policeman continue to act as such for a longer period than one year, unless reappointed.

SEC. 135. The Board of Trustees shall prescribe the badge of office and uniform to be worn by the members of the police force.

ARTICLE X.

No person shall be appointed to any position in the Fire Department unless he be a man of good moral character, and of good repute for honesty and sobriety, a citizen of the United States, and a resident of the city for at least two years next preceding his appointment. Nor shall any person be so appointed who has ever been convicted of a felony, or who is unable to understandingly read and write the English language, or who is deficient in strength, activity, and intrepidity; and, except those in service in the Fire Department at the time this charter takes effect, every appointee hereafter shall be not less than twenty-one years or more than forty years of age, and must, before being appointed, present to the Mayor a certificate from the City

SEC. 138. The said Board shall make all rules and regulations necessary to secure discipline and efficiency in the Fire Department, and any officer, member, or employé in said department guilty of violation of such rules and regulations, neglect of duty, disobedience of orders, absence without leave, or conduct injurious to the public peace or welfare, immoral conduct, or breach of discipline, shall be liable to punishment by reprimand, dismissal from the department, forfeiture of pay, or the withholding thereof, when found guilty of the offense charged, by the Board of Trustees, upon a trial held for that purpose; *provided*, that not more than thirty days' pay shall be forfeited or withheld for one offense; and *provided further*, that by affirmative vote of seven members of the Board of Trustees, any officer, member, or employé of the Fire Department may be dismissed at any time, without trial, when, in the judgment of said Board, the public service or efficiency of the department will be improved thereby.

SEC. 140. No officer, member, or employé in the Fire Department shall take any part whatever in any political caucus or convention, nor be a member of any political club, or committee, or take any part in any general or primary election, except to vote; and any officer, member, or employé in said department violating any of the provisions of this section shall forfeit his position.

SEC. 141. The Chief Engineer shall be the executive officer of the Fire Department, and it shall be his duty and that of the Assistant Chief Engineer to see that the laws, orders, rules, regulations, and ordinances concerning the department are observed and carried into effect, and he shall also attend to such duties as Fire Warden, as may be prescribed by the Board of Trustees, and see that all laws, orders, regulations, and ordinances to secure protection against fire are enforced.

SEC. 142. The Chief Engineer shall be responsible for the discipline of all officers, members, or employés of the Fire Department, and may suspend any officer, member, or employé for incompetency, insubordination, misconduct, or for any violation of the rules and regulations of said department, and shall, upon such suspension, promptly certify the fact, with the cause thereof, in writing, to the Mayor, who shall forthwith, in writing, report the same, together with the charge preferred, to the Board of Trustees for their action.

SEC. 143. The Chief Engineer shall diligently observe the condition and workings of all the apparatus in use by the department, and report thereon, in writing, at least once in each month to the Board of Trustees, and make such recommendations or suggestions relative thereto as may to him seem proper or necessary.

SEC. 144. The Chief Engineer shall make an annual report, in writing, to the Board of Trustees, on or before the first Monday in August of each year, showing in detail the cost of maintenance and operation of the department, with the casualties, fatalities, and conflagrations which have occurred, and a statement of supplies and apparatus received during the year past, and an inventory of all property of whatever kind and nature remaining and belonging to the department, and the condition thereof, together with a list of the probable supplies needed by the department, and an estimate of the amount of money necessary to meet the expenses of the Fire Department during the ensuing year, together with such suggestions and recommendations as may seem to him proper or expedient for the welfare and efficiency of said department.

SEC. 145. The Board of Trustees shall furnish the Chief Engineer with a horse and buggy, and provide for keeping the same.

SEC. 147. The Chief and the Assistant Chief Engineer, while in the discharge of their duties, shall be vested with all the powers of arrest and detention vested in police officers.

SEC. 148. The Chief, or in his absence the Assistant Chief Engineer, may, during a conflagration, cause to be cut down or otherwise removed any building or structure when necessary for the purpose of checking such conflagration.

SEC. 149. Until otherwise provided by the Board of Trustees, there shall be attached to the Fire Department three steam fire engine companies, each to consist of one foreman, one assistant foreman, one engineer, one driver of engine, one driver of hose cart, and eight hosemen; also, one hook and ladder company, to consist of one foreman, one driver, one tillerman, and five hook and ladder men; also, a fire alarm system, to be under the immediate charge of a Superintendent. PRESENTATION OF PETITION— (OUT OF ORDER).

By Senator Goucher, with the request that it be read and printed in full in the Journal, and referred to the Committee on Judiciary.
So ordered.

To the honorable the Senate and Assembly of the State of California, in Legislature assembled:

The undersigned, attorneys at law, practicing in the Superior Court of the county of Fresno, in the State of California, respectfully represent that the business of the Superior Court of said county has so largely increased and is so rapidly increasing that the present Judges of said Court are unable to dispose of its business with promptness; that the business of said Court is largely in arrears, so that the length of time required to get a judgment amounts, in many cases, to almost a denial of justice.

Your petitioners further say that they learn, from a certified statement made by the Clerk of said Court, that on the 31st day of December, 1892, there were 1,416 civil actions then pending in said Court undisposed of, and 135 cases appealed from Justices' Courts. We further learn that at that date there were 446 probate cases and 35 criminal cases undisposed of in said Court.

Your petitioners further represent that in their judgment an additional Judge of said Court is now absolutely necessary to dispose of the cases now awaiting trial, so that the docket may be cleared and cases tried with reasonable promptness.

Wherefore, your petitioners pray that your honorable body will create an additional Judgeship of said Superior Court, to be abolished if at any time it shall become unnecessary.

And your petitioners will ever pray, etc.

(Signed by forty-six attorneys.)

Senator Goucher also presented a certificate from the County Clerk of Fresno County in reference to the above petition, and asked that it be referred to Committee on Judiciary.

So ordered.

SENATE JOINT RESOLUTION No. 4.

Relative to restricting undesirable immigration.

WHEREAS, A period in the history of our country has been reached where a further influx of immigrants is becoming a detriment and a menace to our prosperity and tranquillity; and whereas, it is the wish of the people of the State of California that stringent restriction be placed upon such unlimited and undesirable immigration by the enactment by Congress of needful laws requiring all persons from foreign countries who may wish to become residents or citizens of the United States of America to be the possessor of money or property in the sum of three hundred dollars, the purpose of said qualification of property being for our protection against the further landing on

our shores of hordes of criminals, paupers, and other undesirable classes; and whereas, it is an alleged fact that the custom in foreign countries is to withhold commitments of criminals, that the guilty may absent themselves by opportunities to cross the Atlantic Ocean; that paupers, the aged, maimed, blind, diseased, criminals, and others who have become a public charge, are aided to come to these shores; that we, the representatives of the people of California, object to the making of our country a dumping-ground of this class of people; that Congress should be asked to enact such laws as will in the future prevent any but those who will add to our prosperity, and not be a public charge on our taxpayers; that "self-preservation is the first law of nature," and that a great preponderance of our people will be benefited by the enactment of such a law, and are sorely in need of this relief, to the ends that foreign pauper labor and criminals shall be discouraged from seeking our borders and occupy with us, this our heritage, to the great injury of the present and coming generations; therefore, be it

Resolved by the Senate of the State of California, the Assembly concurring. That we do jointly ask the Congress of these United States to give us such relief as in their judgment seems best.

Resolved. That upon the adoption of the foregoing preamble and resolutions, it shall be the duty of the Governor to immediately transmit a copy of the same to each of our Representatives in Congress, to the presiding officer of each house, and to the President at Washington.

The roll was called, and the resolution adopted by the following vote:

AYES—Messrs. Bailey, Berry, Biggy, Burke, Campbell, Carpenter, Denison, Earl, Everett, Fay, Flint, Ford, Gesford, Hart, McAllister, McGowan, Maher, Mathews, Mitchell, Orr, Ostrom, Ragsdale, Shippee, Simpson, Streeter, Voorheis, Whitehurst, and Wilson—28.
 NOES—Mr. Martin—1.

Senate Joint Resolution No. 8—Requesting Congress to enact a law limiting or prohibiting foreign immigration.

Senator Carpenter moved to amend by inserting in the resolution, in line three of the printed bill, after the word "foreign," the words "pauper or other undesirable."

The roll was called, and the amendment adopted by the following vote:

AYES—Messrs. Arms, Bailey, Berry, Biggy, Burke, Campbell, Carpenter, Denison, Dunn, Fay, Gesford, Goucher, Hart, Maher, Mitchell, Ostrom, Shippee, Simpson, Voorheis, and Williams—20.

NOES—Messrs. Earl, Everett, Flint, Ford, McAllister, McGowan, Mathews, Orr, Seawell, Seymour, Streeter, Whitehurst, and Wilson—13.

SENATE JOINT RESOLUTION No. 8.

Requesting Congress to enact a law limiting or prohibiting foreign immigration.

WHEREAS, We are convinced by facts, the existence of which we deplore, that there has been coming to our country for many years past, and now, from various countries an immigration of the most undesirable class, ignorant of our language and laws, not adapted to our institutions, incompetent to discharge the duties of citizenship, non-assimilative in its character, wholly foreign to every consideration of public good, dangerous to the safety and perpetuity of the Republic, and, in many instances, made up in part of insane, diseased, and criminal persons; and whereas, we deem it wrong, impolitic, and destructive to all those interests which it is the duty and obligation of every loyal American to conserve, that there should exist in our country a class of persons whose cheap labor comes in competition with the labor of our own citizens, native or adopted, thus depriving them of the labor and compensation which they are entitled to by every law of justice and right; and whereas, we believe that the introduction of a class of immigrants like many that we are now receiving, willing and ready to accept a low standard of wages, will have the effect of lowering the wages of labor, lessening the dignity of the American laborer, and by this means not only injuring our citizens, but, as a consequence, threatening the safety of the nation; and whereas, we are persuaded that the time has arrived in our national life that we have sufficient labor in our own country to develop our many resources, and that conditions have so changed that we no longer need immigration to settle upon our vacant public lands, or to supply the labor market; and whereas, we entertain the belief that it is the highest and best policy of this country to preserve the labor of the country for our citizens, native and adopted, now here, and that the condition of our industrial classes would be greatly improved, and a higher standard of wages for labor established, if the competition of cheap labor now being received from abroad and compelling American laborers to submit to the force of a factor in the labor market that naturally lessens their independence, was destroyed; therefore, be it

Resolved by the Senate, the Assembly concurring. That our Senators be requested and our Representatives instructed to frame and enact such law or laws as will successfully restrict or prohibit foreign pauper or other undesirable immigration; and be it further *Resolved*, That the Governor of this State transmit, forthwith, a copy of these resolutions to each of our Senators and Representatives in Congress.

The question then being on the adoption of the resolution as amended.

The roll was called, and the resolution as amended adopted by the following vote:

AYES—Messrs. Arms, Bailey, Berry, Biggy, Broderick, Burke, Campbell, Carpenter, Denison, Dunn, Earl, Everett, Fay, Flint, Ford, Gesford, Goucher, Harp, Hart, McGowan, Maher, Mathews, Mitchell, Orr, Ostrom, Ragsdale, Seawell, Seymour, Shippee, Simpson, Streeter, Voorheis, Whitehurst, Williams, and Wilson—33

NOES—Messrs. Mahoney and Martin—2.

SENATE JOINT RESOLUTION No. 9.

Relative to the establishment of a postal telegraph in connection with the postal service of the United States.

WHEREAS, It is of the utmost importance for the business interests, that the people of the United States should have cheap communication and transportation, instead of being at the mercy of the telegraph companies; therefore, be it

Resolved by the Senate and Assembly of the State of California. That our Senators and Representatives in Congress be requested to use all honorable means to establish a postal telegraph in connection with the postal service of the United States; and be it further

Resolved, That the Governor be requested to forward copies of these resolutions to our Senators and Representatives in Congress, and to the President and Postmaster-General of the United States.

The roll was called, and the resolution adopted by the following vote:

AYES—Messrs. To the honorable the Senate and Assembly of the State of California:

GENTLEMEN: WHEREAS, A proposition is being advanced and a petition circulated for the division of Fresno County and the creation of a new county out of the territory lying north of the San Joaquin River and south of the southern boundaries of Mariposa and Merced Counties, the undersigned, residents and taxpayers of the territory proposed to be segregated, respectfully and earnestly remonstrate against such action, and petition your honorable bodies to refuse and reject the prayer of the petition first aforesaid.

We protest against the creation of the proposed new county for the following and other reasons:

First—The time is not opportune.

Second—The said division would be injurious to all the people now owning property within the territory affected.

Fourth—There are no exigencies that demand its creation.

Fifth—Its creation would cause an extra and unnecessary burden on the taxpayers within the territory affected.

PRESENTATION OF PETITION—(OUT OF ORDER).

Senator Goucher presented the following protest, which, on motion, was ordered printed in the Journal:

To the honorable the members of the Senate and Assembly of the State of California in Legislature assembled:

The undersigned, owners of lands and property of Fresno County, State of California, respectively owning the number of acres of land in such county set opposite our names below, do hereby earnestly object to, and protest against, the creation of a new county, to be known as "Madera County," out of a part of the territory now included within said county of Fresno, and of the territory now included within said county of Fresno, and including the lands and property above mentioned, and to the creation of any new county out of any part of the territory of said Fresno County.

And in support of such objection and protest, the undersigned respectfully urge the following facts and reasons, to wit:

1. That the creation of such new county is not legitimately required or needed by any of the inhabitants or property owners of said Fresno County; on the contrary, that the present county government of said Fresno County is entirely adequate for any legitimate purpose.

2. That in order to support a county government including the territory of said "Madera County," as proposed, the taxes upon the property within such territory must be greatly increased, if not doubled, without receiving or securing any corresponding benefit therefor.

3. That the creation of such new county would take from the owners of lands within the territory to be included therein, the great and substantial advantage now derived from the fact that such lands are included within Fresno County, the climatic and natural advantages of which have been thoroughly advertised, and are well known throughout the United States and Europe, thus giving to the lands therein a value among purchasers abroad which would be taken from them by the creation of such new county.

4. That the creation of said "Madera County" is against the wishes and interests of three fourths of the land and other property interests to be affected thereby, while those in favor of such change are mainly persons owning lands in or near the town of Madera, the proposed county seat of such new county, and others who expect to hold office under the government of said "Madera County."

Signed by Sierra Vista Vineyard Company and others representing 368,444 acres of land.

PETITION FOR THE COUNTY OF KINGS.

To the honorable the Senate and Assembly of the State of California in Legislature Assembled, in 1893:

We, the undersigned, beg leave to represent and petition your honorable body as follows:

1. That we are residents, electors, and taxpayers of the territory hereinafter described.
2. That your honorable body create and establish a county, to be named county of Kings, out of the territory hereinafter described.

3. That the territory hereinafter set forth contains over 7,000 inhabitants and over \$9,000,000 of assessable property, as shown by the assessment roll of the present county of Tulare for the year 1892.

4. That the volume of business transacted in said territory justifies and demands the creation of a new county.

5. That the creation and establishment of said county will leave 17,000 people and \$14,000,000 assessable property in Tulare County. It will thus be seen that every constitutional requirement exists in favor of the creation and establishment of a new county out of the county of Tulare, embracing the following territory, to wit:

Commencing at the point where the fourth standard line intersects the boundary line between Tulare and Fresno Counties, thence east to the northeast corner of Section 1, Township 17 S., R. 22 E., M. D. M.; thence south six miles; thence east three miles; thence south eighteen miles; thence east to the northeast corner of Section 3, Township 21 S., R. 23 E., M. D. M.; thence south to southeast corner of Section 34, Township 21 S., R. 23 E., M. D. And your petitioners will ever pray.

Signed by David Ross and about one thousand others.

SUBSTITUTE FOR SENATE BILL No. 71.

An Act to prevent deception in the manufacture and sale of imitation butter, and to appropriate money for its enforcement.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. That for the purposes of this Act, every article, substance, or compound, other than that produced from pure milk, or cream from the same, made in the semblance of butter, and designed to be used as a substitute for butter made from pure

milk, or cream from the same, is hereby declared to be imitation butter; *provided*, that the use of salt, or harmless coloring matter for coloring the product of pure milk or cream, shall not be construed to render such product an imitation.

SEC. 2. Each person who manufactures imitation butter shall mark, by branding, stamping, and stenciling upon the top and sides of each tub, firkin, box, or other package in which such article shall be kept, and in which it shall be removed from the place where it is produced, in a clear and durable manner, in the English language, the words "imitation butter," in printed letters in plain Roman type, each of which shall not be less than one inch in height by one half of an inch in width.

SEC. 3. No person, by himself or another, shall knowingly ship, consign, or forward by any common carrier, whether public or private, any imitation butter, unless the same be marked as provided by section two of this Act; and no carrier shall knowingly receive, for the purpose of forwarding or transporting, any imitation butter, unless it shall be marked as hereinbefore provided, consigned and by the carrier receipted for as "imitation butter;" *provided*, that this Act shall not apply to any goods in transit between foreign States and across the State of California.

SEC. 4. No person shall knowingly have in his possession or under his control any imitation butter, unless the tub, firkin, box, or other package containing the same be clearly and durably marked, as provided by section two of this Act.

SEC. 5. No person, by himself or another, shall knowingly sell or offer for sale imitation butter under the name of or under the pretense that the same is pure butter; and no person, by himself or another, shall knowingly sell any imitation butter unless he shall have informed the purchaser distinctly, at the time of the sale, that the same is imitation butter, and shall have delivered to the purchaser at the time of the sale a statement clearly printed in the English language, which shall refer to the articles sold, and which shall contain, in prominent and plain Roman type, the words "imitation butter," and shall give the name and place of business of the maker.

SEC. 6. No keeper of a hotel, boarding house, restaurant, or other public place of entertainment, shall knowingly place before any patron for use as food any imitation butter, unless the same be accompanied by a placard containing the words "imitation butter," printed in plain Roman type, and by verbal notification to said patron that such substance is imitation butter.

SEC. 7. No person, by himself or another, shall knowingly peddle, sell, or deliver from any cart, wagon, or other vehicle, upon the public streets or highways, imitation butter, unless said cart, wagon, or other vehicle shall have on both sides the placard, in printed letters of plain Roman type, each of which letters shall be not less than two inches in height by one inch in width, "Imitation Butter."

SEC. 8. No action can be maintained on account of any sale or other contract made in violation of or with intent to violate this Act by or through any person who was knowingly a party to such wrongful sale or other contract.

SEC. 9. Every person having possession or control of any imitation butter, which is not marked as required by the provisions of this Act, shall be presumed to have known during the time of such possession or control that the same was imitation butter.

SEC. 10. No person shall efface, erase, cancel, or remove any mark provided for by this Act with intent to mislead, deceive, or to violate any of the provisions of this Act.

SEC. 11. No butter not made wholly from pure milk or cream, salt, or harmless coloring matter, shall be used in any of the charitable or penal institutions that receive assistance from the State.

SEC. 12. Whoever shall violate any of the provisions or sections of this Act shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be punished for the first offense by a fine of not less than seventy-five dollars nor more than one hundred and fifty dollars, or by imprisonment in the county jail for not exceeding thirty days, and for each subsequent offense by a fine of not less than two hundred and fifty dollars nor more than five hundred dollars, or by imprisonment in the county jail not less than thirty days nor more than six months, or by both such fine and imprisonment, in the discretion of the Court.

SEC. 13. The Governor shall, immediately upon the enactment of this Act, appoint three resident citizens of the State, who shall have practical experience in the manufacture of dairy products, to constitute a State Dairy Bureau, one of whom to serve three years, one for two years, and one for one year from the first day of April, A. D. one thousand eight hundred and ninety-three, or until his successor is appointed and qualified; and on or before the first day of April in each succeeding year, the Governor shall appoint a person, who shall have the aforesaid necessary qualification, to serve as a member of the Dairy Bureau for the next ensuing three years, or until his successor is appointed and qualified. The members of said Bureau shall serve without compensation, and, within twenty days after their appointment, shall take the oath of office as required by the Constitution; and they shall thereupon meet and organize by electing a Chairman and a Treasurer, and shall, by lot or otherwise, determine which of their number shall serve for three years, and which for two years, and which for one year. Any one of them may be removed from office by the Governor for neglect or violation of duty. Any vacancy shall be filled by appointment by the Governor. They shall make biennial reports in detail to the Legislature, not later than the first day of December next preceding each session of the Legislature, of the number of assistants, experts, chemists, agents, and counsel employed, and of their expenses and disbursements, with such other information as shall be for the advantage of the dairy interests in the State, and of all investigations made by them, with all cases prosecuted and the results of

such prosecution. Said report to be published with the report of the State Agricultural Society.

SEC. 14. It shall be the duty of the State Dairy Bureau to secure, so far as possible, the enforcement of this Act. The State Dairy Bureau shall have power to enforce all laws relating to dairy products, and to imitations thereof, and to employ a Secretary at a salary of twelve hundred dollars a year, and such agents, assistants, experts, chemists, or counsel as may from time to time be necessary therefor. The Chairman of the State Dairy Bureau shall have power, in all cases where he shall deem it important for the discharge of the duties of his office, to administer oaths, to issue subpoenas for witnesses, and to examine them under oath, and to enforce their attendance to the same extent and in the same manner as a Justice of the Peace may now do; and such witnesses shall be paid by the Treasurer of the State Dairy Bureau the same fees now allowed in Justice's Court.

SEC. 15. Whoever shall have possession or control of any imitation butter, contrary to the provisions of this Act, shall be construed to have possession of property with intent to use it as a means of committing a public offense, within the meaning of chapter three of title twelve of part two of an Act to establish a Penal Code; *provided*, that it shall be the duty of the officer who serves a search warrant issued for imitation butter, to deliver to the Secretary of the Dairy Bureau, or to any person by such Dairy Bureau authorized in writing to receive the same, a perfect sample of each article seized by virtue of such warrant, for the purpose of having the same analyzed, and forthwith to return to the person from whom it was taken the remainder of each article seized as aforesaid. If any sample be found to be imitation butter, it shall be returned to and retained by the magistrate as and for the purpose contemplated by section fifteen hundred and thirty-six of an Act to establish a Penal Code; but if any sample be found not to be imitation butter, it shall be returned forthwith to the person from whom it was taken.

SEC. 16. It shall be the duty of the District Attorney, upon the application of the Secretary of the Dairy Bureau, to attend to the prosecution, in the name of the State, of any suit brought for the violation of any of the provisions of this Act within his district.

SEC. 17. There is hereby appropriated, for the use of this State Dairy Bureau, out of any money in the State Treasury not otherwise appropriated, the sum of twelve thousand dollars (\$12,000), of which sum not more than two thousand dollars (\$2,000) shall be expended during the unexpired portion of the forty-fourth fiscal year, and not more than five thousand dollars (\$5,000) shall be expended during the forty-fifth fiscal year, and not more than five thousand dollars (\$5,000) shall be expended during the forty-sixth fiscal year. All salaries, fees, costs, and expenses of every kind incurred in the carrying out of the law shall be drawn from the sum so appropriated; and the State Controller shall draw his warrant on the State Treasurer in favor of the Treasurer of the Dairy Bureau for the same.

SEC. 18. All Acts and parts of Acts inconsistent with this Act are hereby repealed.

SEC. 19. This Act shall take effect immediately.

The petition presented by Senator Maher contained two hundred and twelve signatures.

The petition presented by Senator Seawell contained six hundred and four signatures.

Senator Maher also presented the following petition, and asked that it be printed in full in the Journal.

So ordered.

To the Legislature of the State of California:

The California State Branch of the International Bakers and Confectioners' Union of America, composed of delegates from the various bakers' unions of California, in semi-annual convention, assembled in Sacramento on the ninth, tenth, and eleventh days of January, inst., respectfully petition and memorialize your honorable bodies in favor of the passage of the bill providing one day's rest from labor in seven, and present the following reasons therefor:

First—Certain bakers of San Francisco working by night, some of them from five o'clock p. m. to six or seven o'clock the following morning, are compelled to work seven days every week, and only submit thereto through fear of being discharged from their employment, and as this bill does not interfere with the working of any establishment in the State seven days a week, but only guarantees the employé one day's rest in seven, we think it is not too much to ask for the passage of this bill in the interest of over-worked labor.

Second—Twelve years ago, upon petition of all the journeymen and 95 per cent of all the employing bakers of San Francisco, who work by night seven days a week, a law was enacted providing for a day of rest for said bakers, and in spite of the fact that 95 per cent of all said employing bakers desired to cease labor one day in seven, through the machinations of the other 5 per cent the Supreme Court declared the law unconstitutional, on the ground that it was a special law for the bakers alone, and not in the interest of all branches of labor, and consequently the bakers were again doomed to work seven days a week.

Third—In San Francisco nearly all the shops, where the labor of making bread is performed, are situate under the retail stores, are very low, and some of them scarcely above the level of the street sewer. The ventilation is consequently bad at the best, and there are times when all fresh air is excluded from the bake-room during a certain process of the baking. In some cases sewage has been known to exude, making the stench sickening. Underground workshops of necessity must be unhealthy, and to compel men to work seven days a week continuously under such conditions, is something unheard of, even among barbarous nations, and should not be tolerated anywhere, especially under a republican form of government, where the people elect their own representatives to make laws for them.

Fourth—The journeymen bakers of San Francisco have on many occasions tried to come to some agreement with their employers for a day of rest, but have always failed to do so, because a few of the larger employers—who do not labor themselves—refused to grant the boon to their employé; but the great majority of the employers have always been willing and anxious for one day of rest in seven, provided it was made unanimous; and at the present time one hundred and five employers out of about one hundred and thirty have signified, in writing, their assent to adopt a day of rest when the others can be brought into the agreement.

For these reasons, and knowing it to be contrary to good morals and health to be tyrannical and opposed to the welfare of the commonwealth, we respectfully ask your honorable bodies to grant the required relief by enacting the law for a day of rest.

This petition was ordered drawn and presented to your honorable bodies by the above-named Baker's Convention.

[SEAL.]

CHS. ULLRICH, Secretary.

Referred to Committee on County Government and Township Organization.

CORRECTION OF JOURNAL.

Senator Goucher asked that the Journal of yesterday be corrected on page eleven, as follows: That the petitions relating to the passage of a Sunday law be referred to the Committee on Education and Public Morals instead of Committee on Labor and Capital.

So ordered.

Senator Everett asked unanimous consent to withdraw Senate Bill No. 302, and insert a substitute in lieu thereof.

Granted.

The Committee on City, City and County, and Township Governments was instructed to report back at once Senate Bill No. 302.

PETITIONS—(OUT OF ORDER).

By Senator Maher:

To the Senate and Assembly of the State of California:

WHEREAS, During the past month about two hundred Chinese laborers have been discharged from A. L. Tubbs' Cordage Factory at South San Francisco, and an equal number of white boys and girls have been given their places; and whereas, it has been reported that the manufacture of cordage is to be commenced at the Folsom State Prison should the bill asking for one hundred and sixty thousand dollars for a plant be passed, the result of which would bring convict labor in direct competition with free white labor, thereby again throwing out of employment the two hundred boys and girls so recently employed; therefore,

Resolved, That we, the members of Iron Molders Union No. 164, of San Francisco, do most emphatically denounce the repeated attempts of the State Prison Directors to utilize the convict labor of this State in competition with free labor, and particularly do we denounce this last attempt, for if successful it foreshadows the discharge of the boys and girls who so recently replaced the hated Chinese in South San Francisco.

QUESTION OF PRIVILEGE.

Senator Goucher arose to a question of privilege and stated that one Lee had caused to be printed in the "Fresno Expositor" of the thirtieth instant, a communication to the effect that Senator Goucher had been endeavoring to so manage affairs as to prevent any hearing before the Senate Committee on Counties and County Boundaries, of any opposition or proposed amendment to the bill providing for the creation of Madera County.

Senator Goucher pronounced this communication absolutely false, and alleged that he had asked the Chairman of the Senate committee, and the committee itself, in regular meeting, to give both sides of the Madera County proposition a full hearing, and to afford both sides ample time in which to present their arguments, petitions, and data.

Senator Goucher, in conclusion, invited the Senate committee and its members to verify the foregoing statements made by him.

Senators Denison, Voorheis, Mathews, Hart, Flint, Orr, and McAllister, of the Committee on Counties and County Boundaries, each affirmed the statement of Senator Goucher.

SACRAMENTO, February 2, 1893.

To the Senate of the State of California:

MR. PRESIDENT: Your committee, to whom was referred Senate Bill No. 120, for the purpose of rendering an opinion upon its constitutionality, have had the same under consideration, and respectfully report as follows:

Section 34, Article IV, of the Constitution, provides: "No bill making an appropriation of money, except a general appropriation bill, shall contain more than one item of appropriation, and that for one single and certain purpose, to be therein expressed."

An appropriation is defined by Webster as follows: "An appropriation is the act of setting apart or assigning to a particular use or person in exclusion of all others; an application to a special use or purpose, as of money to carry out some public object."

In the case of *Proll vs. Dunn*, 80 Cal. 222, the Court had under consideration the above constitutional rule, and was engaged in construing a statute that appropriated one certain sum for an express purpose. It will be noted that the Act decided to be in accordance with this provision of the Constitution in the case cited, appropriated, in effect, part of the money for the support and maintenance of the Mining Bureau, and part for geological work in the field. (See Statutes 1889, page 149.)

The Court in deciding the case says: "This Act does not conflict with, nor fall short of, the requirements of either of these constitutional provisions."

In *Murray vs. Colgan*, 94 Cal. 435, is the only authoritative decision construing Section 34, Article IV, of the Constitution, that I have been able to find in this State. In that case, the Act of March 31, 1891 (Statutes 1891, page 283), "An Act to encourage the cultivation of ramie in the State of California," was clearly in violation of this constitutional requirement; for in that Act there was, first, an appropriation of ten thousand dollars to encourage the cultivation of ramie in the State of California; second, an appropriation of two thousand four hundred dollars to pay the salary of the person to be appointed Superintendent of Ramie Culture during a specified time.

There can be no question whatever but that the Act contains two items of appropriation, and as the Constitution limits such measure to one item of appropriation, the measure was plainly unconstitutional.

But the requirement and direction of the Constitution in this respect does not stop with its mandatory decree that but one item of appropriation shall be in all bills appropriating money, except the general appropriation bill. Another restriction is engrafted, and that is expressed by the language of the Constitution in the following words: "And that for one single and certain purpose."

It will be thus seen that the Constitution provides that the one item of appropriation shall be for a single purpose. In other words, a dual purpose is prohibited, probably because the framers of the Constitution, having in view the procedure in legislative bodies, desired that legislators should have the fullest liberty of expressing upon a single object, without being hampered and embarrassed by a purpose legislatively attached to one more popular, and more likely to meet general favor. It was thus

thought that if items of appropriation were confined to one single purpose, the spectacle would be prevented of one meritorious appropriation carrying a fraudulent one through the ways of legislative life. No intelligent observer of modern legislation will deny the absolute safety of its policy, nor question its efficacy for purposes of good. Its remedial and salutary effects are a commendable and reliable safeguard, not only to those whose duty it is to pass in judgment upon legislative enactments, but to the citizen and taxpayer, who is thus made thoroughly acquainted, by succinct expression, with the object of the law.

Not only must the purpose of the law be "single," but it must be "certain."

The Act decided to be unconstitutional in *Murray vs. Colgan* seemed to possess the exceptional fatality of directly contravening the three positive requirements of the section. We have already observed how it conflicted with the provision of the State Constitution relative to the number of items of appropriation. It will be next seen that it contains at least two purposes: one, the encouragement of ramie culture in the State of California, and the other the appointment of an additional State officer. Nor was the purpose certain, for the law in question appropriated the money "either for the purchase of ramie roots for free distribution to farmers, or, in the payment of a bounty for merchantable ramie fiber." The specific language quoted left it a matter of conjecture whether the money appropriated was intended to buy ramie roots, to be distributed to the farmers, and thus encourage the planting of this article, or whether the State, or the officers charged with the carrying into effect the provisions of the bill, would not make this free distribution, but would hold themselves out as encouraging the industry of its growth by the payment of a bounty. Two distinct means are provided by the law by which it is intended to encourage the growth of ramie; and money appropriated to carry out both cannot be said to be appropriated for a single and certain purpose.

The question for the determination of this committee is, "Whether the bill referred to—Senate Bill No. 120—tested by the rules laid down in *Murray vs. Colgan*, and the rule of construction adopted in reference to that part of the Constitution, is framed within the Constitution?" It is not pretended that the bill trenches upon any other constitutional ground, nor have any directions of the Constitution been pointed out to us, except the one quoted, that would destroy the legality of the measure formulated as it is.

In view of the rules clearly established by the decision cited, and upon reason, the bill is not in conflict with the Constitution. A brief inspection of its provisions shows that it appropriates one item, to wit: two hundred and sixty-one thousand four hundred and fifty dollars. Like the Act of appropriation in *Proll vs. Dunn*, *supra*, the sum appropriated is confined to one single item. Unlike the Act of appropriation in *Murray vs. Colgan*, *supra*, it is not divided into two separate sums. The disposition of part of the appropriation for a part of the work, follows the plan adopted in the Act construed in *Proll vs. Dunn*. Such course was passed without question in that case, and it seems, for the most cogent reasons, that a Legislature, exercising its judgment in the appropriation of the public money for a beneficial purpose, may say to what extent the expenditure may proceed, or upon what part of a given work or structure the money shall be expended. The Act appropriates the money; in other words, sets it apart for a specific use or purpose. The manner of expenditure is a secondary matter—a direction to the person whose duty it shall be to carry into effect the object of the appropriation.

Is the purpose of the bill "certain" within the meaning of the Constitution? It seems that its certainty of purpose cannot admit of doubt, for it leaves no discretion to be exercised, no judgment to be influenced, and no option to be invoked by any person; nor does its operation depend upon the happening of any event or contingency. Its certain purpose is to appropriate money for the construction of the buildings mentioned in the Act.

Conceding that the bill is valid and in harmony with the Constitution, upon the propositions already argued, the argument more seriously directing attention was whether or not the bill possessed that singleness of purpose essential to bring it to the constitutional standard. It must be confessed that the first impression of the bill led to the opinion that it is fatally defective in this structural requirement, but closer inspection and more careful consideration readily dispels that idea, and convinces that this erroneous impression of the bill was created by the bill providing in detail for the work for which the money is to be appropriated. It requires no argument to demonstrate that the details, not incongruous, but similar in nature, in the aggregate form one harmonious purpose, thus giving to the bill that "single purpose" imperatively demanded by the Constitution.

The work contemplated by the bill, and for which the money is to be appropriated, is to be done at one place, under one management, and has in view one object and purpose—the proper care of the insane. All its details are part of one single enterprise and undertaking; their relations are in strictest harmony; their characters are the same; they blend in legal symmetry under the touch of general unity; and, thus construed, the bill is not subject to the criticism that it violates the Constitution in its lack of a "single purpose."

From the foregoing, the committee decides that Senate Bill No. 120 is drawn in accordance with Section 34, Article IV, of the Constitution, and that so far as its constitutionality is involved it should not be denied passage.

McGOWAN, Chairman.

COMMUNICATION.

SAN FRANCISCO, February 1, 1893.

To the honorable the President of the Senate:

DEAR SIR: The Anti-Japanese League instructed me to call the attention of the Legislature to the alarming increase in the immigration of Japanese slave laborers. The Japs are being brought here to take the places of the Chinese, who are shut out by our laws. They are as undesirable as are the Chinese. They belong to the same race (Mongolian), and as such cannot become citizens of this great republic. These alien interlopers come to disrupt and disorganize our domestic labor market, and to be educated in our public schools at the expense of our citizens. We are taxed heavy enough now to educate our own children, without adding to our burden the education of the golden youth of Japan. We want the same laws that shut out the Chinese to be so amended as to apply to the Japanese. We respectfully request you to lay this matter before the honorable body over which you preside, and urge upon its members the necessity of their passing a resolution demanding that Congress pass the required legislation.

In the event of your needing any more light on this, to us, most important of all questions, my services and those of the Executive Committee are at your disposal.

Your obedient servant,

DENIS KEARNEY,

President of the Anti-Japanese League, 361 First Street, San Francisco.

EXCUSED.

Master Martin, a Page of the Senate, was excused from attendance for the day, on account of sickness.

LEAVE OF ABSENCE.

PRESENTATION OF PETITIONS.

The following petition was presented by Senator Campbell:

COTTONWOOD, CAL., February 1, 1893.

Hon. R. H. CAMPBELL:

DEAR SIR: We beg to state to you that on this evening a meeting of citizens was held in the Congregational Church, at which seventy-four persons were present. At this meeting the following resolution was adopted by a unanimous vote:

Resolved, That we request our representatives in the Legislature to support the measure now before it, "To provide a day of rest for laborers," Senate Bill No. 72 and Assembly Bill No. 190.

J. E. MCGARREY,
J. A. JONES,
MARION GRIFFIN,
THEO. F. BROADHURST,
A. SCHUMAN,

Committee.

The following petition was presented by Senator Ford, and referred to Committee on Roads and Highways:

To the members of the Senate and Assembly of the State of California:

We, the undersigned, members of the Board of Supervisors of Plumas County, California, most respectfully petition the Legislature of the State of California, now in session, to so amend section two thousand six hundred and forty-five of the Political Code, subdivision five, that the Road Commissioners, in their respective districts, may be allowed as compensation for the services they are required by law to render, wages at the rate of three dollars per day for each day the whole whereof is employed by them in performing their duties as such Road Commissioners, the whole of said wages so allowed not to exceed in any one year the sum of three hundred dollars, and in support of said petition recite the following facts:

First—As Road Commissioners, we must, in case contracts are let, see to it that the roads are kept in good repair. This will necessarily consume much of our time, if said duties are properly performed and the contractors held to strict performance of their contracts.

Second—In the event that no bids are received or accepted, the Road Commissioners must personally manage the roads, direct the men employed, purchase necessary material, and in order to properly perform said duties must be on the roads and with the men employed during the working hours of each day when the roads are being repaired.

Third—That under the present law, Road Commissioners are allowed but twenty cents per mile, in going only, for the performance of said duties. It needs no argument to demonstrate that such compensation is grossly inadequate.

Fourth—Such change in said section will not increase the amount to be received by Road Commissioners, but will only change the mode of computing and measuring the compensation.

Fifth—Under said law, if so amended, Road Commissioners may and will perform labor upon said roads which will benefit the county and save daily the wages of one man, while under the present system Road Commissioners can only earn money when they are traveling over the roads, and will have to keep moving to pay their actual expenses while examining the roads, and cannot, in case no contract is let, be with the men when working on the road, unless at great expense and loss of time to themselves without compensation therefor.

Respectfully,

P. M. CATE,
ANDREW MILLER,
ALEXANDER MCINTOSH,
D. ROBERTSON.

Members of the Board of Supervisors of Plumas County.

PRESENTATION OF PETITIONS.

The following petition was presented by Senator Seawell, and referred to Committee on State Prisons and Prison Buildings:

To the Legislature of the State of California:

We, the undersigned, hop growers of Mendocino County, do most respectfully urge the passage of Senate Bill No. 175, introduced by Mr. Williams.

The measure is one of great importance to us as hop growers.

The cost of twine has been heretofore so great as to be the principal obstacle in the production of hops in this State. We believe the prices we have been compelled to pay have been about double the cost of production. The same thing may be said of all other articles to be manufactured at the establishment proposed to be erected.

The location proposed is very eligible, the power abundant and cheap, and we believe cordage of all kinds can be manufactured there at less expense than any other place in the State. Again, it will open up an industry to the farmers of the State, who will go into the business of producing jute, flax, hemp, and other raw material to be manufactured there.

Wherefore, we earnestly urge the passage of the bill.

This granted and we will ever pray.

Signed by R. McGarvey and twenty-one others.

The following petition was presented by Senator Ostrom, and referred to Committee on Agriculture, Horticulture, Viniculture, and Viticulture:

To the honorable the Senate and Assembly of the State of California:

The undersigned, citizens of your State, believing that in the matter of succession to community property, on the death of either husband or wife, both spouses should have the same rights, respectfully petition your honorable bodies that an Act be passed substantially as follows:

An Act to amend the Civil Code in relation to community property, and to the succession thereto in case of the death of either spouse.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section one thousand four hundred and one of the Civil Code is hereby amended to read as follows:

Section 1401. Upon the death of the husband or wife the entire community property, without administration, belongs to the survivor.

SEC. 2. Section one thousand four hundred and two of the Civil Code is hereby repealed.

Signed by R. R. Stevenson, and one hundred and forty-nine others.

REPORT OF JOINT COMMITTEE ON CLAIMS.

To the Senate and Assembly:

The Committees on Claims of the Senate and Assembly held several joint sessions for the purpose of considering Senate Bill No. 101 and Assembly Bill No. 52, providing for the relief of D. Jordan. The claim had been investigated, as a claim, at the twenty-seventh, twenty-eighth, and twenty-ninth sessions, all of which Legislatures had passed bills providing for Mr. Jordan's relief. Owing to various causes the respective Governors had refused to sign the bills so passed. The matter was finally laid before the State Board of Examiners, who approved the claim for \$79,000, which did not include any interest charge.

For the purpose of direct information your joint committee acted independently of all previous investigations and conclusions, and subpoenaed every competent witness available for the purpose of taking testimony. Those subpoenaed were ex-Prison Directors James A. Johnson and Thos. Beck; ex-Superintendent of Construction for the State James W. Duncan; ex-Foreman of the Work Daniel McHenry; Hon. A. P. Catlin, Hon. M. D. Boruck, and Hon. L. B. Adams.

Mr. Jordan's claim is based on the proposition that he completed one half of the Folsom Branch Prison under the regular contract, did a certain amount of extra work under a supplementary contract, and turned over to the State a plant of certain value; also, for \$11,819 34 for profits on completed work.

The testimony of Messrs. Johnson, Beck, Duncan, and McHenry was to the effect that Jordan had completed "from one third to more than one half of the work;" that he had worked nine months on the contract, and the State had carried it to completion in the six months following Jordan's retirement. There was also testimony establishing that Jordan had done extra work, the value of which was not definitely established, and that the State acquired possession of Jordan's plant, an inventory of which was filed with the joint committee. Mr. Beck testified that to his personal knowledge Jordan refused to sell his contract for \$20,000, which was corroborative of Mr. Jordan's testimony.

Judge Catlin read from an appendix to the Journal of the twenty-third session a report attacking the validity and justice of Jordan's claim. The report in question was not signed by any member of the Senate or Assembly investigating committee at that time, and therefore the statements it contained were not authenticated. That appendix does contain a report, signed by all the members of the committee, wherein a majority affirm that Jordan was badly and unfairly treated, and finally driven out of his contract by virtue of an unreasonable requisition made upon him, at the instance of the supervising architect, who had power to order the same, and a non-compliance with which would work a forfeiture of the contract. Compliance with the requisition in question was alleged by Jordan to have been a physical impossibility, and as an evidence of its unreasonableness the joint committee was cited to the fact that the requisition called for one million bricks; whereas, only about ten thousand bricks were called for by the plans and specifications, or used in the construction of the prison. At the time of that investigation Jordan had no claim before the Legislature, for the reason, as he alleged, that he intended to sue the State.

From all the testimony adduced, the joint committee, after considering the matter at three sessions, extending over a period of more than twenty days, decided to report against several items in Mr. Jordan's claim, and reduced the same from \$79,000 to

\$53,000, a cutting down of \$26,000 from the State Board of Examiners' figures, as approved. The bill is reported back, with the recommendation that it do pass as amended.

Chairman Senate Committee on Claims.

REPORT OF SELECT JOINT COMMITTEE—(OUT OF ORDER).

The following report of joint committee was submitted:

MR. PRESIDENT: The joint committee of the Senate and Assembly, appointed to draft suitable resolutions in memory of Hon. E. B. Price, respectfully submit the following:

Resolved by the Senate and the Assembly of the State of California, That in the death of the Hon. E. B. Price, late a member of this Legislature, the people of the State of California have lost a diligent, faithful, and patriotic public servant—a citizen who in public, as well as in private life, buried self far out of sight and wrought for the good of others. No taint of gain ever touched his hand, no surrender of principle ever marred the colors of the banner he bore. The great purpose of his life was just planned out, but he was stricken down in the midst of duty before his ambitions could be realized or the aspirations of his life fulfilled.

Resolved, That his career furnishes a shining example of one who, choosing his life work, loved it with an unwavering love, believed in it with an unalterable and tireless devotion, and attained to eminence before he had rounded two score years.

Resolved, That to the bereaved family of the deceased we tender our deep and heartfelt sympathies.

Resolved, That copies of these resolutions be transmitted to his family and be entered in full in the Journals of the Senate and Assembly.

REPORT OF STANDING COMMITTEE—(OUT OF ORDER).

ON CORPORATIONS.

MR. PRESIDENT: Your Committee on Corporations, having had under consideration Assembly Bill No. 10, "An Act in relation to reassessment of property, and the equalization of the same in cases where a former assessment is invalid or void, and in relation to collection of taxes on said reassessments," and having agreed to report to the Senate a substitute bill, and recommend that such substitute do pass, submit the following report:

The committee in the investigation of said bill has taken a large amount of testimony of witnesses subpoenaed by the committee, and has had before it documentary evidence from different departments of the State Government, including the special report of the Attorney-General of the State of California on railroad tax cases and railroad taxation, dated January 17, 1893, and from such testimony, and the judicial records and decisions of this State and of the United States, find the following facts:

That since the adoption of the new Constitution there has been a difference of opinion between the owners of certain railroad properties assessed by the State Board of Equalization and certain officials of the State of California as to the proper method of executing the provisions of the Constitution of the State of California, pertaining to the assessment and collection of taxes upon railroads operated in more than one county.

That for the years 1880, 1881, 1882, 1883, 1884, 1885, 1886, and 1887 a great number of suits were brought by the State against said railroads for the collection of taxes levied upon the various assessments of those years, and that the litigation has been extended and expensive. That in such litigation, up to the year 1885, the railroads either paid in full or a portion of the taxes, or made tenders in Court of a considerable part of the taxes claimed.

That the result of such litigation was that the assessments for said years prior to 1885 were judicially determined to be invalid; the said payments and tenders were accepted by the State and the money paid into the treasury.

That said judgments and orders rendered in said causes have become final and conclusive upon all the parties.

Under an Act of the Legislature, approved April 23, 1880, authorizing any county, or city and county, where a tax was delinquent, to sue in its own name for the recovery thereof, whether the same be for county, or for city and county, and State purposes or taxes, or either of them, sixty-three actions were commenced by the District Attorneys of the respective counties of the State in the Superior Courts, for the recovery of the delinquent taxes alleged to be due from the Southern Pacific Railroad Company and the Central Pacific Railroad Company, under assessments made by the State Board of Equalization upon their respective franchises, roadways, roadbeds, rails, and rolling stock, for the years 1880, 1881, and 1882. The fences of the railroad companies were estimated as a part of the property, and were assessed as such by said State Board of Equalization. All these cases were subsequently transferred to the Circuit Court of the United States, and came on regularly for trial in that Court, and the parties waiving a jury, each and all of them were submitted to the Court for decision.

On the twenty-eighth day of February, 1884, the Court ordered that judgment be entered in favor of the defendants in all the actions; but before judgment was so entered, on February 29, 1884, a stipulation was presented to the Court, signed by the attorney for the defendants, and by the Attorney-General of the State for the plaintiffs, agreeing that notwithstanding the decision of the Court, judgment should be entered in favor of the plaintiff in the respective actions for the face of the taxes; and the Circuit Court thereupon vacated the order theretofore entered for judgment in favor of the defendants, and made and entered judgment in favor of the plaintiffs in said actions, for the face of the taxes, and apportioned the amounts of the respective sums between the State and the respective counties. The amount of the judgments thus rendered and entered by the Circuit Court was one hundred and forty thousand six hundred and eighty-five dollars and twenty cents, being the balance then remaining due and unpaid on the face of the taxes, and was subsequently wholly paid to the Attorney-General of the State by the defendants.

It was also stipulated that test cases should be taken to the Supreme Court of the United States, and that the action of the Circuit Court in rendering the judgments aforesaid for the face of the taxes should, in no way, prejudice the right of the State to recover penalties, interest, and attorneys' fees.

Under and in accordance with the last-named stipulation, three cases were taken by writ of error to the Supreme Court, viz.: Santa Clara County vs. The Southern Pacific Railroad Company, California vs. The Central Pacific Railroad Company, and California vs. The Southern Pacific Railroad Company. In the action by Santa Clara County the amount claimed was thirteen thousand three hundred and sixty dollars and fifteen cents, for the fiscal year 1882. In the other case against the same company, the amount claimed was five thousand and twenty-nine dollars and twenty-seven cents, for the fiscal year 1881. In the action against the Central Pacific Railroad Company, twenty-five thousand nine hundred and fifty dollars and fifty cents was claimed for the fiscal year 1881. In all the cases judgment was asked for a penalty of five per cent, interest at two per cent a month, and attorneys' fees. The case was argued and decided at the October term, 1885, of the Supreme Court of the United States. In the opinion, the Court says:

"The case as presented to the Court below was therefore one in which the plaintiff sought judgment for the entire tax arising upon the assessment of different kinds of property as a unit. Such assessment included property not legally assessable by the State Board; and a part of the tax assessed against the latter property not being separable from the other part; upon such an issue the law, we think, is for the defendant. An assessment of that kind is invalid, and will not support an action for the recovery of the entire tax so levied. It results that the Court below might have given judgment in each case for the defendant, upon the ground that the assessment, which was the foundation of the action, included property of material value which the State Board was without jurisdiction to assess, and the tax levied upon which cannot, from the records, be separated from that imposed upon other property embraced in the same assessment. As the judgment can be sustained upon this ground, it is not necessary to consider any other questions raised by the pleadings and the facts found by the Court. It follows that there is no occasion to determine under what circumstances the plaintiffs would be entitled to judgment against a delinquent taxpayer for penalties, interest, or attorneys' fees; for, if the plaintiffs are not entitled to judgment for the taxes arising out of the assessment in question, no liability for penalties, interest, or attorneys' fees could result from a refusal or failure to pay such taxes. Judgment affirmed." (118 U. S. Reports, p. 417.)

As to the liability of companies for penalties, interest, and attorneys' fees, in case of invalid assessment, the point is directly made and decided in the case of *San Bernardino County vs. Southern Pacific Railroad*, 118 U. S. Reports, p. 417, in which the Court said:

"Of course no penalties for not paying an illegal tax, and no attorneys' fees charged for an attempt to collect them, could be recovered; and for a like reason, the interest of two per cent a month claimed could not be demanded."

That decision disposed of all the cases brought by the respective counties or the State against the Pacific Railroad Companies for the years 1880, 1881, and 1882.

There were also pending, on the twenty-ninth day of September, 1881, in the Circuit Court of the United States for California, six certain other cases prosecuted by the People of the State of California against the railroad corporations for the collection of delinquent taxes for the fiscal year 1883. Each of said cases was originally commenced in one of the superior courts of the State by attorneys employed for that purpose by the State Controller, and were subsequently transferred, on motion of the defendants therein, to the Circuit Court; and in that Court, on the twenty-ninth day of September, 1884, an order was made and entered in one of said last named six cases, that the defendant corporations having tendered in their answers, on the ninth day of November, 1883, and offered to pay the sum of three hundred and thirty-three thousand three hundred and seventy-seven dollars and ten cents; that said defendants in their several answers having averred that they had brought the said sum into Court, and offered the same to the plaintiff, and subjected the same to such orders or judgments as the Court might make in the premises; that upon motion of attorneys for plaintiff, it was ordered by the Court that the defendant, within five days from the date of said order, make such tender good, by paying to E. C. Marshall, Attorney-General of the State, the sum of three hundred and thirty-three thousand three hundred and seventy-seven dollars and ten cents, to be by said Marshall paid into the State Treasury of California for the benefit of said State and the counties respectively entitled thereto. And it was further ordered that neither the payment nor the receipt of said sum should prejudice or affect any right of either party to maintain or defend as to the balance claimed in the complaint.

The amount thus ordered to be paid by the Circuit Court amounted to sixty per cent of the face of the taxes, and was paid to the Attorney-General by the defendant corporations in the actions within the five days mentioned in the order.

On the sixteenth day of September, 1885, in the Circuit Court of the United States for the State of California, five certain other cases were commenced, removed, and prosecuted as were the six cases last referred to, and in which similar proceedings were had, except that the amount ordered to be paid to the Attorney-General by the respective defendants, and which was so paid, was the sum of three hundred and twenty-nine thousand five hundred and twenty dollars and sixty-three cents, and was fifty per cent of the face of the taxes. The Circuit Court rendered judgment for the defendants in all of the cases, and the State took the cases to the Supreme Court.

Numbers 660 and 1,157 on the docket of the Supreme Court are the cases in which the tenders were made and accepted by the State, for the taxes of 1883 and 1884. (127 U. S. Reports, p. 1.)

The Circuit Court found in cases Nos. 660 and 1,157, and others, that an assessment made by the State Board of Equalization for the years 1883 and 1884 included the full value of all the franchises and corporate powers held and exercised by the defendants. Mr. Justice Bradley, speaking for the Court, says:

"Assuming, then, that the Central Pacific Railroad Company has received all the important franchises referred to, by grant of the United States, the question arises whether they are legitimate subjects of taxation by the State. They were granted to the company for national purposes, to subserve national ends. It seems very clear that the State of California can neither take them away, nor destroy, nor prejudice them, nor cripple them by onerous burdens. Can it tax them? It may undoubtedly tax outside, visible property of the company situated within the State. That is a different thing. But may it tax franchises which are a grant of the United States? In our judgment it cannot." (127 U. S. Reports, p. 40.)

In brief, the Court decides that both the Central Pacific and the Southern Pacific held franchises from the Federal Government, which franchises were not subjects of taxation by the State of California.

The opinion concludes as follows:

"It follows in each one of the cases now before us that the assessment made by the State Board of Equalization comprised the value of the franchises, or property which the Board was prohibited by the Constitution of the State and of the United States from including therein, and that these values are so blended with the other items on which the assessment is based that they cannot be separated therefrom. The assessments are therefore void. This renders it unnecessary to express any opinion on the application of the Fourteenth Amendment, as the result would not be different whatever view we might take of that subject. The judgments in all the cases are affirmed."

As a matter of law, your committee are of the opinion, from the adjudications in these several cases, that as to the taxes of 1880, 1881, and 1882, judgments having been entered for the face of the taxes, and paid, and the Supreme Court of the United States having decided that the assessments were void, the State has no claim for taxes, penalties, interest, or attorneys' fees, either in law or equity, for said years, or any standing upon which to reassess said properties for said years.

Your committee are further of the opinion, as a matter of law, that as to the taxes for 1883 and 1884, suits having been brought, the causes removed to the Circuit Court, and tenders having been made of a part of the amount claimed, by the defendants, those tenders paid into the said Court upon its order, and having been accepted by the State, the judgments in said causes having been rendered in favor of the defendants and against the State, and upon appeal to the Supreme Court of the United States those judgments having been affirmed, the State has now no claim, either in law or equity, for the taxes, penalties, interest, or attorneys' fees against the defendants for the years 1883 and 1884, or any standing upon which to reassess said properties for said years.

Suits were brought in the Superior Courts of the State by the People of the State on the relation of the State Controller, against the Central and Southern Pacific Companies to recover the taxes of 1885. The cases were transferred to the United States Circuit Court for the Ninth District, and judgments were rendered therein against the State in all the cases. The judgments in those cases are final, or have been taken to the Supreme Court by writ of error, and affirmed.

That, in the opinion of your committee, to pass a law attempting to reassess said properties and collect the taxes thereon for any period of time prior to the year 1885, would place the State of California in the attitude of being in conflict with the judgments, orders, and decisions of the Courts of the United States, and would result in nothing except extended litigation exceedingly expensive to the State, without adding anything to the revenues of the State.

Your committee further find that for the years 1885, 1886, and 1887 the Central and Southern Pacific Companies paid nothing on account of State and county taxes assessed by the State Board of Equalization against them, except forty-nine thousand dollars, the taxes for the three years upon three small railroads of their system, which, as to such roads, was payment in full.

That a suit was brought by the proper authorities in the Superior Court of the City and County of San Francisco, for the taxes claimed to be due from such companies for the year 1886. The case was appealed to the Supreme Court, and that Court held that the scheme for the assessment, levy, and collection of taxes on roads situated in more than one county, prescribed by sections three thousand six hundred and sixty-five to three thousand six hundred and seventy, inclusive, of the Political Code, was unconstitutional, as being special legislation, not authorized by section twenty-five of article four of the Constitution.

The Court, speaking by Mr. Justice Fox, said:

"This legislation also provides a mode of collection differing from that found in the general law on the subject; not necessary for the purpose of carrying into effect any of the provisions of article thirteen of the Constitution, and 'special' because not applicable to all property, or even to railroad property generally, but only to such railroad property as is situated or operated in two or more counties. For this reason it is in direct conflict with, and is specially forbidden, by subdivision ten of section twenty-five of article four of the Constitution. It is, therefore, void, and furnishes no cause of action upon which suit can be maintained under it." (The People vs. Central Pacific Railroad Company, 83 Cal., p. 393.)

The same laws were in force in the years 1885, 1886, and 1887, and still remain, and in the principal respect, declared by said Court to be invalid, have not been altered by subsequent legislation.

That there is, therefore, now no means provided by law for the enforcement of the claim of the State for taxes claimed upon said properties for the year 1885, or any subsequent year.

That from the evidence before the committee, it appears, that upon the advice of the then Attorney-General and other counsel employed by the State, the assessment of said properties for said three years, as to each of said properties, was an assessment in gross, fixing the value in a single item for the franchise, roadway, roadbed, rails, and rolling stock of each of said roads.

That included in said assessment of the Central Pacific Railroad and Southern Pacific Railroad was an estimated value of the Federal franchise, an element of value, which, as has been before shown, is not subject to taxation. That, therefore, the entire

REPORT OF JOINT COMMITTEE.

To the Senate and Assembly of the State of California:

The Governor's message suggests that the Legislature investigate the question of the fitness of a blind man to hold and administer the office of Superintendent of the Industrial Home for the Adult Blind, a State institution located in Alameda County, and by law placed under the control of a Board of five Directors, appointed by the Governor, and to serve during his pleasure. An investigation of the question submitted should not be had at all, unless it can be conclusive of some issue, and productive of some authoritative result. At the outset, the committee of investigation considers the conclusion, and the nature and force of the results. As a proposition of law, if the Legislature should act by bill, inhibiting a blind man, and excluding him from that position, such Act would be null. Men are not to be lawfully excluded from any civil trust or employment of a public nature because of physical defects. Such exclusion is of necessity aimed at a class, and any individual therein can secure an adjudication by showing that men of that class have performed, and do perform satisfactorily, the duties and functions of the trust and employment covered by the inhibition. Upon such showing, which can be easily made in the case of blind men, respecting their success as teachers of letters and mathematics, music, and the handicrafts, as administrative officers of public institutions like this, and as executives in high public trusts in this country and in Europe, the Courts would say that the law cannot close any avenue against the blind in which it is proved that they can successfully administer a public office or a civil trust. It is plain, therefore, that if this committee and this Legislature reached a judgment adverse to the blind, as a class, such judgment could not be reflected in the law.

This brings your committee to narrow its view from the inspection of a class to consideration of the fitness of the individual incumbent of the superintendency of the Industrial Home for the Adult Blind of this State.

It appears from the reference to the subject in the Governor's message, that there is a difference of opinion in the Board of Directors upon the propriety of superintendency by a blind man, a majority of the Directors favoring a blind man in that place, and a minority opposing it. We are again in doubt about the right of authoritative interference by the Legislature in a matter so clearly belonging to executive jurisdiction.

As legislation against a class to exclude it from public employment would be void, would legislation against a specified member of the class be of effect? We think it would be ineffective. If we should specialize such legislation to the incumbent Superintendent, and by name exclude him from the position he holds, such would be regarded as invading the constitutional authority of the executive, and would be void.

The inquiry made by this committee has developed some facts which belong to the public, and their enlargement as a contribution to the general knowledge upon subjects affecting an eleemosynary institution, and the interests of a defective class, deprived of one of the capital senses, will no doubt arrest the attention of the thoughtful, and contribute to the welfare of the unfortunate.

In the division of the Board of Directors upon the employment of a blind Superintendent, we find that the Directors longest in service and most familiar with the institution and its needs, constitute the majority and favor the blind Superintendent, who has had charge of the Home since 1888.

We find that the two minority members were not familiar with such institutions, and had never visited this one, nor made any study of the ways of the blind, nor gained familiarity with the history of the training of the blind in letters and handicrafts, previous to their appointment. We find that they were prepossessed against a blind Superintendent, and at the outset offered such prepossession in opposition to the experience of the majority members, and regardless of the facts of record in the institution.

We find that the President of the Board, belonging to the majority, has brought to bear, in discharging his duties, a lifetime of personal experience with the blind, and years of study of their means of self-support and the methods of administering institutions in which the blind handicrafts are taught. We find that the other members of the majority have for years devoted their time and thought to this institution, and are thoroughly familiar with its changes of policy, and actuated, apparently, entirely by a desire to increase its usefulness to its intended beneficiaries. Without making any invidious comparison between the minority and majority, we state the facts which seem to demonstrate that the judgment of the majority is entitled to at least respectful examination.

Finding that this country has the greatest institutions of this character for the blind, we find, also, that, as a rule, they have been founded by blind men, and their high advancement has been reached and maintained under the superintendency of blind men. This is true of the leading institutions in New York and Pennsylvania, both of which were, in the beginning, private foundations left to develop naturally on the line of greatest benefit to the blind.

We believe that California is the first State in the Union to officially recognize the experience and facts furnished in the record of these institutions that were private and not public in their origin, and, though both New York and Pennsylvania have admitted the beneficially public nature of the work done in the private foundations in those States, by making stated financial contributions to them from the public funds, the States have left their management in the hands of blind Superintendents. California is,

we believe, the first to put a blind officer at the head of a purely public institution. The fitness of the selection can be judged only by the records of the institution itself. The opinions of people who know the blind only by the general sympathy felt for the defective classes, a sentiment that may not be any safe guide at all in providing for them, are of no value in reaching a determination. Nor are the opinions of those who have lost sight in adult age to be at all followed. It is a fact that the greater the age at loss of sight, the more certain is the unfortunate of the incapacity of the blind. Such blind people, having had years of eye sight, and all of its advantages, in the pursuit of a vocation, upon losing it treat the loss as they would that of an arm or leg, which cannot grow again, and which cannot be substituted by any of the remaining members.

The difference between the loss of a leg and that of the eyes is that the loss of a leg is a physical loss only, while that of the eyes is the loss of one of the capital senses, leaving the others unimpaired to replace it. This faculty of replacement and adaptation declines with age, and in that decline lies the need of these institutions for the adult blind, who find themselves helpless and unable to turn to a vocation for support without this assistance. It is true that in some cases the aged blind do acquire confidence and a manifest self-reliance and undiminished capacity, but these cases are exceptional.

With those who lose their sight in infancy or youth, or are blind congenitally, the case is entirely different. The sense of sight was in their possession so short a time that they relied on it but little. They miss it briefly, and what it revealed to them remains as a nebulous memory, not even to be mourned over. The other senses gain acuteness; palpitation becomes capable of the most delicate discriminations; they read with the ends of their fingers, and practically see through a consensus of their remaining senses, which, when brought together in the place vacated by sight, seem almost to add a sixth to the list of senses. It is from the ranks of such blind men that the teachers and superintendents of these institutions are drawn, and we find no case in which they have failed of success.

So much by way of explanation of the fact that in the California institution, and in others, are found many blind men who lost their sight in adult age, who do not believe that a blind man can superintend such an institution. To them the loss of sight is not merely the loss of a sense, it is an impairment of their use of hand and foot, a limitation physical in its nature upon all their activities. Feeling their own incapacity they project to all who are sightless a generalization that is entirely without warrant, though natural and innocent in its origin.

In the California institution a majority of the inmates lost their sight at an age when it meant impoverishment by destroying their power as producing and self-sustaining members of the community, and in their helplessness the State comes to their relief. They are in the institution because they cannot wholly help themselves; because they are incapable of usefully and independently managing their own affairs. They are to be slowly and patiently led to overcome their helplessness and made partially, at least, self-supporting. They feel that fate has foreclosed on them, and the darkness that is around them is peopled by visions of complaint and discontent. Feeling their own weakness, incapacity, dependence, and unhappiness, they cannot conceive contentment, strength, capacity, and happiness in any other blind. Now, the verdict of experience is that when these disabled, discontented, unhappy blind are placed in an institution superintended by a man with eyesight, they remain helpless and dependent, for he has no relation to them but the sympathetic, when the proper relation should be practical and sympathetic also. A self-reliant, self-supporting, independent blind man only can combine the two, therefore blind men only have brought such institutions to the standard of complete success.

With this statement of what occurs to us as the principles involved, we pass to the actual condition of things at the California Industrial Home for the Adult Blind, as shown by the record of that institution from its inception. It was opened for the reception of inmates and the beginning of operations in November, 1885. For the space of thirty-three months thereafter it was in charge of Superintendents with full sight. In August, 1888, it was put under the superintendency of the present incumbent, Mr. Joseph Sanders, who has been blind from early childhood, and is a graduate of the leading industrial school of this kind in the world, that has always been superintended by a blind man.

Your committee, pursuant to the resolution under which this investigation was holden, examined sixty-two witnesses, of whom a large portion were inmates of the institution whose management is questioned. All sources of information which could in any degree reflect any light upon the subject embraced in the resolution, were sought and examined in the prosecution of our inquiries. We are persuaded that local political conditions at Oakland, the site of the Home for the Adult Blind, had much to do in stimulating the discontent which we found among the inmates at the time of our visit to the institution. It appears that at a late primary election held in Oakland one of the Trustees was a candidate for office. While it does not appear that he personally solicited the votes of the inmates of the Home, it does appear that he was voted for by the inmates with remarkable unanimity, and without respect to the party affiliations of those who exercise the right of suffrage. Conditions suggest the fact that the beneficiary of the direct assistance of the inmates of the Home would, as a matter of gratitude at least, lend a willing ear to the complaints of those who are seeking to destroy the discipline, break down the regulations, and defy the authority of those in management at the Home.

The witnesses Tuck, Coogan, Nelson, and Taylor are gentlemen of a high degree of intelligence, and appear to be acting in concert to overthrow the management. Mr. Tuck was formerly an inmate, but is now expelled. It appears in the testimony of Senator Earl and Assemblyman Dodge that two of the inmates, Messrs. Tuck and Nelson, called upon these two gentlemen, who were then candidates for the respective offices of Senator and Assemblyman, and stated to each of them that they were a committee from the Home of the Adult Blind, that there were forty-five votes at the Home, and that it would be to the interest of these two candidates to visit the Home. We are overwhelmed with the conviction that the purpose of these two gentlemen so visiting these candidates at that time, was for the purpose of securing a promise to change the management of the Home, and that it was an implied threat to unite the vote of the inmates of the Home against them if they refused to make such promise.

Much of the testimony given by the inmates was in relation to the food. Upon this subject there is much conflict of evidence. We are of the opinion from all the evidence that the food has been usually, but not uniformly, good and wholesome. Occasionally, without fault of the management, it has been bad. This might occur, as you are aware, in the best regulated families. In institutions of this character, through the avarice and cupidity of those who contract to furnish provisions to public institutions, it is impossible to absolutely protect the State and the beneficiaries of such institutions from temporary impositions of designing contractors. It appears, however, in this case, that when the attention of the Superintendent was called to the defective character of the food, that he endeavored at once to remove the cause of rational objection.

The evidence is somewhat replete with complaints by inmates that an offensive system of espionage is maintained by the Superintendent. Your committee reports that the evidence on this point is wholly insufficient to support such accusation; that the discipline is mild, and yet the rules and regulations appear to be enforced with firmness.

There were charges of favoritism made. As to this charge your committee is of the opinion that men who become blind at adult age are exceedingly sensitive and are often very morose. As was well remarked by one blind witness, their condition seems to intensify fault-finding, and it was a matter of observation with your committee that as a class they are more captious and discontented than seeing people.

We are of the opinion that opportunities are accorded some in the business of broom making that are not accorded to others, but as far as we prosecuted our inquiries in this matter, it appears that all assignments of duty and allotments of work were made by the Superintendent upon a basis of adaptation. You are aware that some of the inmates are better workmen than others. Those who are the most active and learn the quickest have the best opportunities. This is so of seeing people as well as with blind people. If an increase in the industrial character of the institution is to be considered as an element in ascertaining its efficiency, and is in line with the purpose for which this beneficent institution is established, then we say that the evidence shows that the output has greatly increased under a blind Superintendent, and that under such Superintendent the increase in wages per hand, in income, and shop force has very largely increased, as will appear on page one hundred and seven of the testimony taken in this investigation.

From a personal inspection of the grounds we find them well kept, and the buildings thereon neat and orderly maintained.

The property upon which the Home is situated was purchased originally for the sum of \$26,000. It is now worth more than double that amount.

The chief trouble in arriving at a conclusion by your committee, was the practical unanimity of the female inmates against the management. One or two of them seems to have given the superintendency of such institution some thought and investigation. It is, however, our opinion, taking this class of testimony, which was largely directed to the incompetency of the Superintendent on account of blindness, and the character of the food, that it is wholly insufficient to justify a finding that the Superintendent is incompetent or the food unwholesome, except at times, and then merely temporarily, as hereinbefore indicated.

CONCLUSION.

Your committee therefore recommend:

First—That the present management be retained.

Second—We commend to the Governor, through the Legislature, the reappointment of Mr. Greenhood to succeed himself as Trustee.

Third—We advise this Legislature to so amend the law governing the Home that only three Trustees residing in Alameda County shall be appointed on the Board, and that the other two shall be citizens of the State, residing in other counties than Alameda.

We beg to close this report with the following statement, made by the President of the Board of Trustees before your committee: "It should be a matter of pride rather than the subject of contention in California, that this State has availed itself first of all in the Union of the results of a century of experience, by putting a blind man at the head of a purely State institution. The record made here by a blind Superintendent goes out to inspire the blind and give them hope of a career in every nation where effort is made to better their condition."

We sincerely hope that the self-sacrificing efforts made by those who projected this institution, and who have devoted their time to its management, shall not, on account of any slight and inconsequential disagreement among those in control, be unavailing,

but that all activities which can promote the charitable and beneficent purpose for which the institution was established may be evoked, and that the success of this institution may continue to be the pride of our great commonwealth.

J. H. SEAWELL,
Chairman of Senate Committee.

W. P. MATHEWS,
Chairman of Assembly Committee.

REPORT OF SPECIAL COMMITTEE.

Senator McGowan, of the committee to which was referred Assembly Concurrent Resolution No. 7, relative to investigating the Railroad Commissioners, presented the following report, and asked that the same be printed in the Journal.

So ordered.

SENATE CHAMBER, SACRAMENTO, February 16, 1893.

MR. PRESIDENT: Your special committee to which was referred Assembly Concurrent Resolution No. 7, relative to investigating the Railroad Commissioners, and also the resolution of Senate, directing your committee to conduct said investigation, have had the same under consideration, and respectfully report as follows:

I.

In pursuance of the authority conferred upon said committee, your committee caused to be issued the subpoena of your honorable body directed to the persons named in said Assembly resolution as State Railroad Commissioners, and the said subpoena was regularly served upon each of said Commissioners.

II.

That on the eighth day of February, 1893, the following-named persons, to wit: William Beckman, James W. Rea, and J. M. Litchfield, Railroad Commissioners, as aforesaid, appeared before your committee, and then and there, in obedience to the direction of said subpoena, offered testimony to show cause why they should not be removed from the office of State Railroad Commissioners, upon the grounds set forth in said Assembly resolution as amended by the Judiciary Committee of the Senate.

III.

And each of said Commissioners having appeared before said committee and fully testified in his behalf, your committee having heard all the evidence and the showing of said Commissioners, find from said evidence and said showing as the facts herein, the following:

(a) That we find said James W. Rea is and was incompetent to discharge the duties of the office of State Railroad Commissioner, and that he is now and was guilty of dereliction of duty as such Commissioner; and we further find that the evidence fully sustains the allegations of said resolution, that said James W. Rea was and is guilty of dereliction of duty as such Commissioner, as defined by the Constitution.

(b) We further find, because of a misconception and misunderstanding of the duties of said office and want of knowledge upon the business to be regulated by said Commission, the said J. M. Litchfield was and is incompetent, although he has, no doubt, been desirous of doing his duty in said office, and that the charge of said resolution as to the incompetency of said J. M. Litchfield is fully sustained by the evidence herein.

(c) We further find that said William Beckman, Commissioner as aforesaid, made an honest effort to acquaint himself with the duties of said office, and that he was actuated by good intentions, but because of his failure to make any effort to investigate the general rates of freights and fares of transportation companies in this State, that he made no attempt to compel transportation companies to adopt and keep a set of accounts in accordance with the power given said Commissioner by the Constitution, and that said Beckman declared in the thirteenth annual report of such Commission that his duties as such Commissioner were solely of a judicial nature, which declaration we hold to be at variance with the Constitution. We further find that the charge of incompetency in said resolution against said William Beckman is fully sustained by the evidence herein.

From the foregoing the committee finds as a

CONCLUSION.

That said James W. Rea, J. M. Litchfield, and William Beckman, Commissioners as aforesaid, and each of them, should be removed from the office of Commissioners as aforesaid.

FRANK MCGOWAN, Chairman.

PRESENTATION OF PETITIONS.

To the Senate and Assembly of the State of California, in session at Sacramento, 1893:

We, the undersigned, citizens of the State of California, twenty-one years of age and over, most earnestly petition your honorable body to enact a law forbidding all Sunday traffic and work, as well as all coarse and noisy amusements on that day of the week, making suitable exception for works of necessity and mercy, and for private work by those who religiously and regularly observe another day of the week by abstaining from labor and business on the same.

Signed H. J. Crist and eighteen others.

Referred to Committee on Education and Public Morals.

Senator Ostrom presented the following petition:

MARYSVILLE, February 15, 1893.

To the honorable members of the Senate and Assembly of the State of California:

GENTLEMEN: The undersigned petitioners very respectfully represent that the provisions of the bill of Assemblyman Emeric, intended as protection for game in this State, are such as should not become a law. Particularly do we protest against the provision therein contained, which provides that a license tax may be imposed by Boards of Supervisors on persons who may desire to hunt game in a lawful manner. We also represent to your honorable body that there should be an open season of at least three months in each year in which deer may be killed in the manner provided by law, and that in our judgment, July, August, and September should be the months in which deer may be killed.

Signed by T. J. Sherwood, ex-Fish Commissioner of California, and one hundred others

Referred to Committee on Forestry, Yosemite Valley and Mariposa Big Tree Grove, and Fish and Game.

Senator Gesford presented the following petition:

To the honorable the Legislature of the State of California:

We, the undersigned, citizens of Lake County, do respectfully represent: That Clear Lake is a sheet of water entirely situated within the territorial limits of Lake County; that its outlet is Cache Creek, which is wholly innavigable, running through a cañon until it enters the Sacramento Valley, where it enters the Sacramento River at a swamp; that the said lake does not connect with any other navigable water; that said lake is wholly useless and worthless to any other community than the people of Lake County; that it is of no value whatever to the State; that the State has never, and never can, derive any benefit from it, and that it never can in any manner be a source of revenue to the State; that said lake is the property of the State of California; that it frequently overflows the land bordering on it during freshets in the winter season, doing great damage to the surrounding neighborhood, and materially damaging the property of citizens and highways of the county; that said outlet, Cache Creek, can be deepened, widened, and straightened so as to increase the capacity of the channel sufficiently to carry off the surplus water during times of freshets, and thereby prevent the damage occasioned by the lake overflowing the adjoining lands; that if the said county owned said lake it could excavate the channel of Cache Creek and straighten it, to the great advantage of the property and people of the county by preventing the water from overflowing the adjoining land.

Wherefore, we pray that your honorable body will pass an Act donating said lake to the county of Lake, and in duty bound we will ever pray, etc.

Signed by W. E. Greene and seventy-nine others.

Referred to Committee on Judiciary.

REPORT OF SPECIAL COMMITTEE.

Senator Goucher, of the committee to which was referred Assembly Concurrent Resolution No. 7, relative to investigating the Railroad Commissioners, presented the following report, and asked that the same be printed in the Journal.

So ordered.

MR. PRESIDENT: I have not signed either of the reports that have been presented by the special committee appointed to investigate the affairs of the Railroad Commission. In the first place, I positively assert that I do not know anything in regard to the details necessary to prepare a proper schedule of freights by which the railroads of the State shall be governed, and I do not believe a single one of my colleagues on the committee occupy any different position in that regard. To arrive at a just conclusion in regard to a matter of that kind requires the study of a lifetime, and the man to properly handle the intricacies of the situation must have received his education in railroad matters, so to speak, from the ground up. It requires great intelligence, years of practice, a thorough association with the multifarious demands which an enterprise of that nature entails, and no man, unless he possesses the proper qualifications to enable him to deal justly with the people in connection with those duties which are imposed upon a Railroad Commission, should undertake to judge as between the people and those Commissioners.

The report of a majority of my colleagues is to the effect that one of the Commissioners has been adjudged to be derelict in duty and incompetent, while the other two are condemned for incompetency. Incompetency is a question as to the degree of one's ability to perform any duty. Incompetency may arise from inability to perform, not from any laches on the part of the Commissioner, but from the difficulty of meeting surrounding circumstances; and right here I desire to say one of the Commissioners has been adjudged derelict in his duty and incompetent to perform it properly, and yet this same Commissioner has been in office six years—for four years he performed the duties of a Railroad Commissioner, representing the people of a very large district of the State, who, if he has been guilty of marked dereliction of duty and given evidence of gross incompetency, never would have reelected him to the same position, which they did two years ago, and by a most decided majority. They had four years of time in which to experience the justice or injustice of his action as Railroad Commissioner, and that they were entirely satisfied that he was just and upright in the performance of his duty, his reelection is in evidence.

Besides that incompetency which springs from lack of ability, there is another kind of incompetency, which may arise from restraints or improper influences resting upon the public officer; but no evidence has been adduced tending to show anything corrupt among the Commissioners. There may be a belief, wide spread, to the effect that such influences are upon them, or upon some of them, but neither this committee nor the Senate can be justified in pronouncing such incompetency on mere suspicions or beliefs not founded upon testimony, and hence I dismiss from further consideration this branch of the investigation. As to whether the Commissioners exercise their full powers under the Constitution, is probably a matter of discussion, but I do not believe the Commissioners have exhausted their powers, yet the same complaint doubtless applies to nearly all public officers.

In dealing with a matter of such vast importance to the people of the State, my judgment is, that experts on the proposition advanced, should be the ones to make inquiry as to the details leading up to a proper conclusion. I cannot consent to condemn them, and deprive them of their official position upon what has been adduced by the special committee appointed by the Senate to investigate the Railroad Commissioners. Without a more explicit and decided presentation of facts, I must dissent, and emphatically so, from the report presented by a majority of my colleagues on the committee, and therefore, I recommend that the resolution be not adopted, and that the question be relegated to the people at the next election.

GEO. G. GOUCHER,
Of Special Committee.

CASE OF URGENCY—SECOND READING OF BILL.

Substitute for Senate Bills Nos. 291, 183, and 123—An Act to provide for laying out, opening, extending, widening, straightening, or closing up, in whole or in part, any street, square, lane, alley, court, or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose.

The following committee substitute, previously submitted, was adopted:

SUBSTITUTE FOR SENATE BILLS Nos. 291, 183, 123.

An Act to provide for laying out, opening, extending, widening, straightening, or closing up, in whole or in part, any street, square, lane, alley, court, or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. *Be it enacted:* Whenever the public interest or convenience may require, the City Council of any municipality shall have full power to order, and upon the petition of the owners of a majority of the frontage to be taken for said purpose, shall order the opening, extending, widening, straightening, or closing up, in whole or in part, of any street, square, lane, alley, court, or place within the bounds of such city, and shall condemn and acquire any and all land necessary or convenient for that purpose.

SEC. 2. Before ordering any work to be done, or improvement made, which is authorized by section one of this Act, the City Council shall pass a resolution declaring the intention to do so, describing the work or improvement, and the land deemed necessary to be taken therefor, and specifying the exterior boundaries of the district of land to be affected or benefited by said work or improvement, and be assessed to pay the damages, cost, and expenses thereof.

SEC. 3. The Street Superintendent shall then cause to be conspicuously posted along the line of said contemplated work or improvement, and not more than three hundred feet in distance apart, but not less than three in all, notices of the passage of said resolution. Said notice shall be headed, "Notice of Public Work," in letters not less than one inch in length, shall be in legible characters, state the fact of passage of the resolution, its date, and, briefly, the work of improvement proposed, and refer to the resolution for further particulars. He shall also cause a notice similar in substance to be published for a period of ten days in one or more daily newspapers published and

circulated in said city, and designated by said City Council; or, if there is no daily newspaper so published and circulated in said city, then by four successive insertions in a weekly or semi-weekly newspaper so published, circulated, and designated.

Sec. 4. Any person through whose lands said proposed street extension runs, or who will be damaged or affected by said proposed work, may, within ten days after the first publication of said notice, file with the Clerk of the City Council his written objections thereto, stating in what manner and to what extent he will be damaged, which objection shall be delivered to the Clerk of the City Council, who shall indorse thereon the date of its reception by him, and at the next meeting of the City Council after the expiration of said ten days, lay said objections before said City Council, which shall fix a time for hearing said objections, not less than one week thereafter. The City Clerk shall thereupon notify the persons making such objections by depositing a notice thereof in the Post Office of said city, postage prepaid, addressed to such objector.

Sec. 5. At the time specified, or to which the hearing may be adjourned, the City Council shall hear the objections filed, and if the owners of a majority of the frontage on the portion of the street to be extended and widened, as said owners appear on the last preceding annual assessment roll for State and county taxes, object, in writing, to said proposed opening, extending, and widening, straightening, or closing up of said street, said City Council shall sustain said objections, and all proceedings therefor shall be stopped for the period of twelve months. If the owners of a majority of the frontage on said street do not object, in writing, thereto, within the time specified in this Act, the City Council shall be deemed to have acquired jurisdiction to order any of the work to be done or improvements to be made which is authorized by section one of this Act.

Sec. 6. Having acquired jurisdiction, as provided in the preceding section, the City Council shall order said work to be done, and unless the proposed work is for closing up, and it appears that no assessment is necessary, shall notify the Assessor, City Engineer, and Superintendent of Streets, who shall constitute a Board of Commissioners in that regard, who shall have full supervision of the proposed work or improvement until the completion thereof in compliance with this statute. For their services they shall each receive, as compensation, five dollars for every day of actual service. Such extension shall not exceed two months at one time, nor shall the term of office of said Commissioners continue for longer than one year. Such compensation shall be added to and be chargeable as a part of the expenses of the work or improvement. Each of said Commissioners shall file with the Clerk of the City Council an affidavit and a bond to the State of California, in the sum of five thousand dollars, to faithfully perform the duties of his office. The City Council may at any time remove any or all of said Commissioners for cause, upon reasonable notice and hearing, and may fill any vacancies occurring among them for any cause. At the end of the terms of said Commissioners they shall hand over all unfinished business to the City Council, who shall complete the same. In all municipalities where there is a Board of Public Works, such Board shall constitute the Board of Commissioners in this section provided for, and shall perform the duties of such Commissioners, and their salaries as members of the Board of Public Works shall be in full compensation for such services. It shall be the official duty of the City Attorney to render said Commissioners all necessary legal services.

Sec. 7. Said Commissioners shall have an office assigned to them by the City Council, in the City Hall, and shall have power to employ a Secretary, at a salary not to exceed one hundred and fifty dollars per month, and such other clerical assistance as shall be provided them by the City Council, the salaries and fees of whom shall be established and fixed by said City Council.

Sec. 8. All such charges and expenses shall be deemed as expenses of said work of improvement, and be a charge only upon the funds devoted to the particular work or improvement, as provided hereinafter. All payments, as well for the land and improvements taken or damaged, and for the charges and expenses, shall be paid by the City Treasurer, upon warrants drawn upon said fund from time to time, signed by said Commissioners, or a majority of them. All such warrants shall state whether they are issued for land or improvements taken or damaged, or for charges and expenses, and that the demand is only payable out of the money in said fund, and in no event shall the city be liable for the failure to collect any assessment made by virtue hereof, nor shall said warrant be payable out of any other fund, nor a claim against the city, except for one half of the expenses of said improvements, as hereinafter provided.

Sec. 9. Said Commissioners shall proceed to view the lands described in the resolution of intention, and may examine witnesses on oath, to be administered by any one of them. Having viewed the land to be taken and the improvements affected, and considered the testimony presented, they shall proceed with all diligence to determine the value of the land and the damage to improvement and property affected, and also the amount of the expenses incident to said work or improvement, and having determined the same, shall proceed to assess the same upon the lands fronting on said extension or widening, to the amount of fifty per cent of the total expense attending said improvement, herein provided.

Sec. 10. Said Commissioners having made their assessment of benefits and damage shall, with all diligence, make a written report thereof to the City Council, and shall accompany their report with a plat showing the land taken, or about to be taken, for the work or improvement, and the lands assessed, showing the relative location of each district, block, lot, or portion of lot, and its dimensions, so far as the Commissioners can reasonably ascertain the same. Each block and lot, or portion of lot, taken or assessed, shall be designated and described in said plat by an appropriate number, and

a reference to it by such descriptive number shall be a sufficient description of it in any suit entered to condemn and in all respects. When the report and plat are approved by the City Council, a copy of said plat, appropriately designated, shall be filed by the Clerk thereof in the office of the Recorder of the county.

Sec. 11. Said report shall specify each lot, subdivision, or piece of property taken or injured by the widening or other improvement, or assessed therefor, together with the name of the owner, or claimant thereof, or persons interested therein as lessees, incumbancers, or otherwise, so far as the same are known to such Commissioners, and the particulars of their interests, so far as the same can be ascertained, and the amount of value or damage, or the amount assessed, as the case may be.

Sec. 12. If in any case the Commissioners find conflicting claims of title exist, or shall be in ignorance or doubt as to the ownership of any lot of land, or of any improvements thereon, or any interest therein, it shall be set down as belonging to unknown owners. Error in the designation of the owner or owners of any land or improvements, or of the particulars of their interest, shall not affect the validity of the assessment or the condemnation of the property to be taken.

Sec. 13. Said report and plat shall be filed in the Clerk's office of the City Council, and thereupon the Clerk of said City Council shall give notice of such filing by publication for at least ten days in one or more daily newspapers published and circulated in said city; or if there be no daily newspaper, by three successive insertions in a weekly or semi-weekly newspaper so published and circulated. Said notice shall also require all persons interested to show cause, if any, why such report should not be confirmed, before the City Council, on or before a day fixed by the Clerk thereof, and stated in said notice, which day shall not be less than thirty days from the first publication thereof.

Sec. 14. All objections shall be in writing, and filed with the Clerk of the City Council, who shall, at the next meeting after the day fixed in the notice to show cause, lay the said objections, if any, before the City Council, which shall fix a time for hearing the same, of which the Clerk shall notify the objectors in the same manner as objectors to the original resolution of intention at the time set, or at such other time as the hearing may be adjourned to. The City Council shall hear such objections and pass upon the same; and at such time, or if there be no objections at the first meeting after the day set in such order to show cause, or such other time as may be fixed, shall proceed to pass upon such report, and may confirm, correct, or modify, or may sustain the objections thereto and order the Commissioners to make a new report, assessment, and plat, which in either case shall be filed, and notice given and hearing had, as in the case of the original report; but no report, or plat, or assessment shall be filed by said Commissioners after the expiration of ten months after their appointments.

Sec. 15. The Clerk of said City Council shall forward to the Street Superintendent of the city a certified copy of the report, assessment, and plat, as finally confirmed and adopted by the City Council. Such certified copy shall thereupon be the assessment roll, and thirty days after such filing shall become a lien on the property assessed therein, for its proportion of the costs of said improvement, as hereinbefore provided.

Sec. 16. The Superintendent of Streets shall thereupon give notice of publication for ten days in two daily newspapers published and circulated in said city and county, or by two successive insertions in a weekly or semi-weekly newspaper so published and circulated, that he has received said assessment roll, and that all sums levied and assessed in said assessment roll are due and payable immediately, and that the payment of said sums is to be made to him within thirty days from the date of the first publication of said notice. Said notice shall also contain a statement that all assessments not paid before the expiration of said thirty days will be declared to be delinquent, and that thereafter the sum of five per cent upon the amount of each delinquent assessment, together with the cost of advertising each delinquent assessment, will be added thereto. When payment of any assessment is made to said Superintendent of Streets, he shall write the word "paid" and the date of payment opposite the respective assessments so paid, and the names of persons by or for whom said assessment is paid, and shall, if so required, give a receipt therefor. On the expiration of said thirty days, all assessments then unpaid shall be and become delinquent, and said Superintendent of Streets shall certify such fact at the foot of said assessment roll, and shall add five per cent to the amount of each assessment so delinquent. The said Superintendent of Streets shall, within five days from the date of said delinquency, proceed to advertise and collect the various sums delinquent and the whole thereof, including the cost of advertising, which last shall not exceed the sum of fifty cents for each lot, piece, or parcel of land separately assessed, by the sale of the assessed property in the same manner as is or may be provided for the collection of State and county taxes; and after the date of said delinquency, and before the time of said sale herein provided for, no assessment shall be received unless at the same time the five per cent added thereto, as aforesaid, together with the cost of advertising then already incurred, shall be paid therewith. Said list of delinquent assessments shall be published daily for five days in one or more daily newspapers published and circulated in such city, or by at least one insertion in a weekly newspaper so published and circulated, before the day of sale of such delinquent assessment. Said time of sale must not be less than seven days from the date of the first publication of said delinquent assessment list, and the place must be in or in front of the office of said Superintendent of Streets. All property sold shall be subject to redemption in the same time and manner as in sales for delinquent State and county taxes; and the Superintendent of Streets may collect for each certificate fifty cents, and

for each deed one dollar. All provisions of the law in reference to the sale and redemption of property for delinquent State and county taxes in force at any given time shall also then, so far as the same are not in conflict with the provisions of this Act, be applicable to the sale and redemption of property for delinquent assessments hereunder, including the issuance of certificates and the execution of deeds. The deed of the Street Superintendent made after such sales, in case of failure to redeem, shall be prima facie evidence of the regularity of all proceedings hereunder and of title in the grantee. It shall be conclusive evidence of the necessity of taking or damaging the lands taken or damaged, and of the correctness of the compensation awarded therefor. The Superintendent of Streets shall from time to time pay over to the City Treasurer all moneys collected by him on account of any such assessments. The City Treasurer shall, upon receipt thereof, place the same in a separate fund, designating such fund by the name of the street, square, lane, alley, court, or place for the widening, opening, or other improvement of which the assessment was made. Payments shall be made from said fund to the parties entitled thereto, upon warrants signed by the Commissioners, or a majority of them.

SEC. 17. When sufficient money is in the hands of the City Treasurer, in the fund devoted to the proposed work or improvement, to pay for the land or improvements taken or damaged, and when in the discretion of the Commissioners, or a majority of them, the time shall have come to make payments, it shall be the duty of the Commissioners to notify the owner, possessor, or occupant of any land or improvements thereon to whom damages shall have been awarded, that a warrant has been drawn for the payment of the same, and that he can receive such warrant at the office of such Commissioners, upon tendering a conveyance of any property to be taken; such a notification, except in the case of unknown owners, to be made by depositing a notice, postage paid, in the Post Office, addressed to his last known place of abode or residence. If, at the expiration of thirty days after the deposit of such notice, he should not have applied for such warrant and tendered a conveyance of the land to be taken, the warrant so drawn shall be deposited with the City Treasurer, and shall be delivered to such owner, possessor, or occupant upon tendering a conveyance as aforesaid, unless judgment of condemnation shall be had, when the same shall be canceled.

SEC. 18. If any owner of land to be taken neglects or refuses to accept the warrant drawn in his favor, as aforesaid, or objects to the report as to the necessity of taking his land, the Commissioners, with the approval of the City Council, may cause proceedings to be taken for the condemnation thereof, as provided by law under the right of eminent domain. The complaint may aver that it is necessary for the city to take or damage and condemn the said lands, or an easement therein, as the case may be, without setting forth the proceedings herein provided for, and the resolution and ordinance ordering said work to be done shall be conclusive evidence of such necessity. Such proceedings shall be brought in the name of the municipality, and have precedence, so far as the business of the Court will permit; and any judgment for damages therein rendered shall be payable out of such portion of the special fund as may remain in the treasury, so far as the same can be applied. At any time after trial and judgment entered, or preceding an appeal, the Court may order the City Treasurer to set apart in the City Treasury a sufficient sum from the fund appropriated to the particular improvement to answer the judgment and all damages, and thereupon may authorize and order the municipality to enter upon the land and proceed with the proposed work and improvement. In case of a deficiency in said fund to pay the whole of said judgment and damages, the City Council shall order the balance thereof to be paid out of the General Fund of the treasury.

SEC. 19. The Treasurer shall pay such warrants out of the appropriate fund, and not otherwise, in the order of their presentation; *provided*, that warrants for land or improvements taken or damaged shall have priority over warrants for charges and expenses, and the Treasurer shall see that sufficient money is and remains in the fund to pay all warrants of the first class before paying any of the second.

SEC. 20. If any title attempted to be acquired by virtue of this Act shall be found to be defective from any cause, the City Council may again institute proceedings to acquire the land as in this Act provided, or otherwise, or may authorize the Commissioners to purchase the same, and include the cost thereof in a supplementary assessment, as provided in the last section.

SEC. 21. Whenever, under the provisions of this Act, the Commissioners appointed for the extending or widening of any street shall have filed their report, assessment, and plat, and the same shall have been finally confirmed and filed in the office of the Superintendent of Streets, it shall be the duty of the City Council, at the time of making the annual levy of taxes for city and county purposes, to add to said tax levy an amount sufficient to raise a sum equal to the amount assessed by said Commissioners, which shall be assessed for all the taxable property in said municipality, and be included in and form a part of the next general assessment roll of said city, or city and county, and with like effect in all respects as if the same formed a part of the city, State, and county taxes, and shall be collected as a part thereof, and shall be placed in a fund to be designated "The ——— Street Improvement Fund" (naming the street to be improved), and shall be applied to the payment of the expenses of extending, opening, and widening of streets, in the same manner as the money raised by the assessments on lands fronting on said extensions, as hereinbefore designed; *provided*, that no part of said fund so raised by taxation shall be used for any purposes other than the one provided for in this Act, nor shall any portion thereof be paid out for any purpose until at least ninety

per cent of the assessment levied by said Commissioners for the improvement of any particular street shall have been paid into the City Treasury.

SEC. 22. 1. The words "work" and "improvement," as used in this Act, shall include all work mentioned in section one of this Act.

2. In case there is no daily or weekly or semi-weekly newspaper printed and circulated in the city, then such notices as are herein required to be published in a newspaper shall be posted and kept posted for the length of time required herein for the publication of the same in a weekly newspaper, in three of the most public places in such city. Proof of the publication or posting of any notice provided for herein shall be made by affidavit of the owner, publisher, or clerk of the newspaper, or of the poster of the notice.

3. The word "municipality" and the word "city" shall be understood and so construed as to include all corporations heretofore organized and now existing, or hereafter organized, for municipal purposes.

4. The terms "Street Superintendent" and "Superintendent of Streets," as used in this Act, shall be understood and so construed as to include, and are hereby declared to include, any person or officer whose duty it is, under the law, to have the care or charge of the streets, or the improvement thereof, in any city. In all those cities where there is no Street Superintendent or Superintendent of Streets, the City Council thereof is hereby authorized and empowered to appoint a suitable person to discharge the duties herein laid down as those of Street Superintendent or Superintendent of Streets, and all the provisions hereof applicable to the Street Superintendent or Superintendent of Streets shall apply to such persons so appointed.

5. The term "City Council" is hereby declared to include any body or board which, under the law, is the legislative department of the government of any city.

6. The terms "Clerk" and "City Clerk," as used in this Act, are hereby declared to include any person or officer who shall be Clerk of said City Council.

7. The term "Treasurer" or "City Treasurer," as used in this Act, shall include any person or officer who shall have charge, and make payment of the city funds.

SEC. 23. The Act approved March sixth, eighteen hundred and eighty-nine, entitled "An Act for opening, widening, and extending streets," etc., is hereby repealed, and all the proceedings thereunder are hereby declared to be void and of no effect. Except, however, that in case more than one half of the lands in any report and plat proposed to be taken for said streets shall have been deeded to the city, at the date of the passage of this Act, then said improvements shall not be affected by this Act; but in all other cases the assessments, plats, and reports filed by said Commissioners are declared to be null and void, and all laws authorizing their collection are hereby repealed, and all the moneys collected under the provisions of said Act shall be refunded to the persons from whom the same were collected, in the same manner as taxes which have been twice collected, and the said Commissioners are hereby removed from office; *provided, however,* that in case of the lands necessary to widen or open any street, there shall have been actually purchased and conveyed to the municipality, under the provisions of said Act of March sixth, eighteen hundred and eighty-nine, more than one half of all the land necessary for said improvements, as shown by the report and plat on file, then said streets and the improvement thereof shall not be affected by this Act, but the same shall be completed as commenced.

SEC. 24. This Act shall be liberally construed to promote the objects thereof.

This Act shall take effect and be in force from the time of its passage.

AMENDMENTS.

Senator Earl moved to amend the substitute bill as follows:

Amend by striking out section one and inserting the following:

QUESTION OF PRIVILEGE.

Senator Goucher arose to a question of privilege, and stated that on a previous day, on the floor of this Senate, he had disproved the charges made against him by one Charles A. Lee; that he was so clearly proven to have published falsehoods, he has since then evidenced that he bore the Senator extreme ill-will; and that he, said Lee, was now in the lobby of the Senate acting in a threatening manner, and that on account of the respect he had for the Senate as a body, he moved that said Lee be denied the privilege of the floor of the Senate and lobby.

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 15, 1893. }

To the Senate of the State of California:

I have the honor to inform your honorable body that I have approved Senate Bill No. 24.

H. H. MARKHAM, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 16, 1893. }

To the Senate of the State of California:

I desire to call your attention to some measures which I think deserve your prompt and careful attention. To the present time bills have been introduced in the Legislature calling for appropriations which, including the General Appropriation Bill, will amount to sixteen million dollars. It is my desire that every just claim against the State and every appropriation for necessary expenses in conducting the State institutions should be allowed. The experience of the Board of Examiners and other State officials in dealing with the various unliquidated claims against the State has convinced every one of them of the pressing necessity of legislation to carry into effect the provisions of section six of article twenty of the Constitution, relative to suits against the State. It is a well-known fact that the time of past Legislatures and of the Board of Examiners has been very largely consumed in the examination of doubtful claims against the State, many of which involve difficult questions of law and fact. The report of the Board of Examiners, laid before you at this session, shows that a very large number of claims have been examined by the Board, and as to many of them it had been unable either to approve or reject, it being impossible to make such a thorough examination as would result in exact justice to the claimant and at the same time protect the interest of the State. I see no reason why claims against the State should stand upon any different footing, at least as to the manner of examination and adjustment, from claims against private individuals. The State ought always to be willing, and it is manifestly to her interest, that such claims should be passed upon by the ordinary process of law. In fact, the exemption of the State from suit, though generally regarded as a privilege, is in my judgment decidedly injurious to her interests in many respects, especially the right to plead the statute of limitations. As the law now stands, claims which would be regarded as state if presented to a private individual, may and constantly are presented over and over again to the Legislature.

At different times the Legislature has passed Acts authorizing individuals to sue the State. If the principle in those Acts is good, it ought to be extended so as to apply to all cases which may be brought within its scope.

My attention has been called to Senate Bill No. 401 and Assembly Bill No. 374, which authorize suits against the State for all claims not allowed by the Board of Examiners. I have carefully examined these bills, and am of the opinion that if made law, the interests of all legitimate claimants will be thereby promoted, and the true interests of the State thoroughly guarded.

DEFICIENCIES.

It is customary to insert a clause in the General Appropriation Bill whereby officers and employes of the State are prohibited from creating a deficiency in excess of the appropriation, except in cases of actual necessity, and only then upon the unanimous consent first obtained of the Board of Examiners. It has been found to work most admirably and in the interest of the State so far as it applies. But there should be a general law to the same intent. An inspection of the file shows that Senate Bill No. 502 and Assembly Bill No. 550 have been introduced and are intended to cover this point. The State needs all the protection that such a law affords, and I urge the passage of the measures mentioned above.

EXEMPTION FROM EXAMINATION.

My attention has been called to the fact that many bills have been introduced making appropriations for various purposes, exempting the same from the provisions of section six hundred and seventy-two of the Political Code, which means that immediately upon the passage of these bills by the Legislature, the State Controller shall draw his warrant for the amount therein named, and the State Treasurer shall pay the same, and that they shall not pass the scrutiny of the Board of Examiners, the same as provided by law in all other cases. I look upon this principle as an exceedingly vicious one, and recommend to your honorable bodies that no appropriation having this clause in the bill should receive your sanction.

COYOTES.

At the last session of the Legislature a law was passed providing for the payment of the sum of five dollars out of the State Treasury for each coyote destroyed. No one at that time had an idea that it would prove such a burden upon the taxpayers of the State. The last quarterly report of the State Controller shows that there have been paid out during that quarter over fifty thousand dollars for coyote scalps. It is fair to presume that during the next two fiscal years the State will be called upon to pay out over four hundred thousand dollars, and the amount may reach half a million, for this purpose. I recommended in my message to your honorable bodies that the law be repealed, and Senate Bill No. 77 and Assembly Bill No. 87 have been introduced by some of your honorable members looking to such repeal.

In this connection, I desire to say that as I consider the fifty-cent limit still binding upon me, I most earnestly recommend that you consider the amount that will necessarily be paid out in pursuance of the provisions of this law, if permitted to stand, as a part of the necessary expenses of the State, and that the amount above named be considered in excess of the appropriations which you are called upon to make. I am convinced that the State has paid and will continue to pay for scalps taken without this State. If a bounty is to be paid, it should be largely reduced in amount and greater safeguards thrown around the proofs required as a guard against the possibility of fraud. The Board of Examiners is helpless. If a claim presented is correct in form, it must be allowed, for all evidence is destroyed before the claim is presented to the Board.

PUBLIC BUILDING IN SAN FRANCISCO.

Senate Bill No. 5 has already passed the Senate, and is now before the Assembly. This bill authorizes the appropriation of three hundred thousand dollars for the erection of a public building in San Francisco for the accommodation of the various State officers and employes located in that city. The idea of concentrating these officers in some one building is certainly worthy of favorable consideration; first, on account of the convenience to the people of the State, as it is almost impossible for any one not very familiar with San Francisco to expect to find all of them in much short of a week's time. Again, the rent for this purpose is simply enormous, as it amounts to over two thousand dollars per month. If the State is to pay twenty-four thousand dollars a year for rent, it becomes a grave question whether it is an economical proposition or not, especially as it is presumed that all State officers should be at the State Capitol, where abundant room could easily be supplied. But as a matter of convenience and economy there should be some relief in some direction. It has occurred to me that with a moderate appropriation good and sufficient accommodations could be provided in the new building now being erected by the Board of State Harbor Commissioners. The location is central, convenient, and eminently proper. One hundred thousand dollars ought to be sufficient to provide accommodations for every purpose, with the possible exception of that of the Supreme Court of the State, the location of which ought probably to remain nearer the new City Hall. I ask your very careful consideration of this proposition.

In view of the fact that at least eleven million dollars will be required for the maintenance of the various State offices and institutions during the next two years, and that at least eight hundred thousand dollars will be required to put the several uncompleted public institutions in condition for successful operation, and especially in view of the enormous amount of appropriations asked for, I do most earnestly urge that appropriations for the absolute necessities of the State should be first considered and allowed before those of a general character.

EARL, Chairman.

ON PUBLIC PRINTING.

SENATE CHAMBER, SACRAMENTO, February 17, 1893.

MR. PRESIDENT: Your Committee on Public Printing, to whom was referred the memorial from the Federated Trades Council of Sacramento—have had the same under consideration, and respectfully report the same back, and submit the following report:

We have made a full and careful examination of the facts presented in said statement, and find that the offer made by the Commercial Publishing Company of San Francisco to do the State printing for the low figure of fifty thousand dollars is not only an utter impossibility, but, as we believe, a fraud, patent upon its face.

It is the unanimous expression of your committee that we have implicit confidence in the present management of the State Printing Office in all its departments.

That the utmost economy is practiced in all the details pertaining to the public printing, and we are thoroughly convinced that the work is now being done 50 per cent cheaper than when done by public contract, and in a much more artistic manner.

Further, we conclude that the intention of the bid of the Commercial Publishing Company is to disorganize the State Printing Office, and is an underhanded thrust for the purpose of stopping the publication of the State school books, thereby attempting to crush out a laudable governmental enterprise, established by the will of the people expressed at the polls.

Your committee denounces this method of attack as unwarranted and unworthy of consideration by the Senate.

We further earnestly submit for your consideration the great importance of encouraging and maintaining the State Printing Office, economically conducted, as an institution that reflects great credit upon California, the benefits of which are many and far extending to our people.

MINORITY REPORT OF COMMITTEE ON CORPORATIONS.

So ordered.

IN SENATE—MINORITY REPORT OF COMMITTEE ON CORPORATIONS.

SENATE CHAMBER, SACRAMENTO, February 18, 1893.

MR. PRESIDENT: The minority of your Committee on Corporations, having under consideration Assembly Bill No. 10—An Act in relation to reassessment of property, and the equalization of the same in cases where a former assessment is invalid or void, and in relation to collection of taxes on said reassessments—dissent from the recommendation and the report of the majority of said committee submitted in Senate February 14, 1893, and submit the following report, and present herewith a substitute attached hereto, and marked "Exhibit A," and recommend that such substitute do pass:

We dissent from the statement of facts and conclusions of law contained in said majority report, and respectfully represent that in the investigation before said committee relative to the subject of delinquent taxes due from railroads, the delinquent railroad companies were represented by counsel, and the evidence taken was that of witnesses produced by such counsel. The State was not represented by any of its officers, and no testimony was offered on behalf of the State.

It was sought upon the cross-examination of certain witnesses to show that the findings in many of the tax suits tried in the United States Circuit Court, some of which were afterwards taken to the United States Supreme Court on writs of error, were false and erroneous, but the Chairman refused to admit such evidence, upon the ground that the judgment upon which the findings were based were conclusive, and that it was not competent to go behind the record to prove such record to be false and erroneous, and yet the Chairman did permit the record of the State Board of Equalization to be attacked by the very witnesses sought to be cross-examined, in an attempt to show that a Federal franchise had been assessed to the Central and Southern Pacific Railroad Companies for each year prior to 1888.

The one record was certainly as entitled to credit as the other. The Constitution and laws of the State prescribed the things which the State Board of Equalization shall assess, and the assessment rolls or books certified by the Chairman and Clerk of the Board show that the Board assessed the things specified in the law, and none other. The testimony before the committee did not show that any member of the Board at any time ever proposed to assess a Federal franchise, or did in fact assess such a franchise. But it is assumed that as the Board assessed a *franchise*, there being a State and Federal franchise, that of necessity both were included, yet the record is that a *franchise*—not franchises—was assessed. Every presumption of law is in favor of the validity of the act of an officer acting within the scope of the authority conferred by law, and in this matter the presumption is supported by the written record of the proceedings of the Board making the assessments. In the Superior Court of San Francisco, on February 3, 1893, a decision was rendered by Judge Hebbard in favor of the State and against the Central and Southern Pacific system of railroads, in the suit to collect the taxes due for the year 1887 upon the assessments for that year made by the State Board of Equalization.

Judgment was given for the taxes, costs, penalties, interest, and attorneys' fees, aggregating about \$996,500. Testimony similar to that introduced before the committee was introduced in Judge Hebbard's Court, and in the opinion filed the Court says:

"The evidence introduced by defendants in support of the allegation of their affirmative defense, that a Federal franchise was included in the assessment of 1887, was objected to by the plaintiff as incompetent."

It consisted mainly of the testimony of Mr. Morehouse, of the State Board of Equalization for that year.

Mr. Morehouse testified that the Federal franchise was included in the assessments against the Central and Southern Pacific Companies for the year 1887.

Defendants also introduced certain documentary evidence to show that the assessments for the succeeding year, 1888, were much lower than in 1887, and that the State franchise was particularly specified and described therein, as a circumstance corroborating the statement of Mr. Morehouse, to the introduction of which plaintiff also objected.

In rebuttal of this evidence, plaintiff placed upon the witness stand two other members of the Board for the year 1887, Mr. Wilcoxon and Mr. Dunn.

Mr. Wilcoxon was not quite positive in his testimony, but his best recollection was that the Federal franchise was not included by the Board in making the assessment for 1887.

Mr. Dunn testified positively that such franchise was not included in the assessment for that year. No other members of the Board were called, and, as far as parole evidence is concerned, the burden of proof being on the defendants, the *fact* must be found against them.

Further in rebuttal, plaintiff proved by the sworn statement of defendants, furnished by themselves and filed in the office of the State Board of Equalization in 1887, under Section 3664 of the Political Code, that the assessment, as made by the Board for that year, and contained in the "Duplicate Record of Assessment of Railways," is in the exact language not only of Section 10, Article XIII, of the State Constitution, but also in the exact language of their sworn statement, to wit:

"The value of the franchise and entire roadway, roadbed, and rails within this State is," etc.

Plaintiff also proved, by similar sworn statements of defendants for 1888, relied upon by them as a circumstance proving their allegations, that the taxes for 1887 were therein claimed by them as a *liability*, and *actually deducted as expenses paid* from the earnings of the roads for 1887, as though the taxes had actually been paid; manifestly in order that the balance thereby diminished might result in a lower assessment upon them.

It would seem, therefore, that the assessment being made upon their own theory, in their own language, and in the language of the Constitution and of the Code, and a year later the taxes thereon recorded and sworn to by them as a liability, that the defendants are now estopped to deny the sufficiency and validity of those assessments under the authority of *People vs. Flood*, 64 Cal. 504; *Cadwalader vs. Nash*, 75 Cal. 43; *Dear vs. Varnum*, 80 Cal. 86.

The defendants are especially estopped to deny the sufficiency of the assessments, for they have failed, utterly, to show that the assessments, as made, are excessive, and not in just proportion to the real value of the property.

There is ambiguity, either patent or latent, upon the face of the "Duplicate Record." The word "franchise" is in the singular number, and described to be "within this State."

The presumption is that the State Board performed its duty under the law, not that it deliberately acted in violation of law, and as the evidence shows that the decision of our Circuit Court declaring the assessment of a Federal franchise was known by the members of the Board prior to the making of these assessments, in 1887, it is to be presumed that they acted in accordance with the decision.

But if the parole evidence offered did not weigh in plaintiff's favor, and if by a preponderance of such evidence defendants could have shown that the State Board intended to, and did include, a Federal franchise in the assessment, I think the Court would have to disregard it as incompetent.

The effect of such parole evidence would be to contradict the record, which cannot be done.

The best and only evidence of the acts and intentions of deliberative bodies must be drawn from the record of its intentions.

"From both standpoints of facts and of law, the findings must be that a Federal franchise was not included in these assessments."

Here, then, is a finding based upon substantially the same evidence that was produced before this committee, holding that the Federal franchise was not included in the assessments for the year 1887, as found and reported by the majority of this committee.

It is not astonishing at all, to one who has examined the records of the tax cases in the Circuit Court, to understand the ease with which the attorneys for the railroads were enabled to secure findings that the Federal franchise, fences, and steamboats were included in the assessments made for the years 1883 and 1884, taken up to the Supreme Court of the United States.

The testimony taken before the Assembly Judiciary Committee of 1889, at pages 66, 69, and 191 of the printed report (statement of Mr. Dunn, and testimony of Mr. Baggett and Judge Sawyer), prove that the cases for the taxes of 1883 and 1884 were never actually tried, but were submitted on a stipulation signed by Attorney-General Marshall and Creed Haymond, that all the cases should be submitted on the testimony in the Santa Clara case, in which were findings that the Federal franchise and fences were included in the assessments. Judge Sawyer stated (page 191 of same report) that the cases for the taxes of 1885 were submitted on the same testimony, viz., the testimony in the Santa Clara case. As the Santa Clara case was decided by the United States Supreme Court on May 10, 1886, and this stipulation was made after that decision, it resulted that the State's attorneys consented to findings which were in all respects similar to those in the Santa Clara case, and sufficient to preclude recovery by the State.

The assessments for the years 1880, 1881, and 1882 were made by the Board of Equalization that retired in January, 1883, yet the assessments for 1883, 1884, and 1885 were found to include the Federal franchise, fences, and steamboats, based on testimony given in the Santa Clara case, in relation to the assessments of 1880, 1881, and 1882, by persons who had nothing whatever to do with making the assessments for 1883, 1884, and 1885, which testimony was wholly inapplicable to show what kinds of property were assessed by their successors in office, during the years 1883, 1884, and 1885. The 1887 cases recently tried and decided by Judge Hebbard are the only tax suits in which the issue as to whether the Federal franchise was really assessed or not, was ever actually and fairly contested and tried.

We think that the Hebbard decision is conclusive on the point. Suits involving taxes for the years up to and including 1884 have been decided by the United States Supreme Court adversely to the State. In the cases for the taxes of the year 1885 judgments were rendered against the State, and they were not removed from the Circuit Court, but were by stipulation made to abide by the decision in the 1883 and 1884 cases decided in 127 U. S. Reports. The majority find as a matter of law that the State has no claim for any of the taxes prior to the year 1885, and no standing upon which to reassess the proper-

ties of the delinquent railroads for the years prior to 1885, and state that in their opinion "to pass a law attempting to reassess said properties and collect the taxes thereon for any period of time prior to the year 1885, would place the State of California in the attitude of being in conflict with the judgments, orders, and decisions of the Courts of the United States, and would result in nothing except extended litigation, exceedingly expensive to the State, without adding anything to the revenues of the State."

We are unable to see the soundness or consistency of this opinion, in view of the fact that judgments have been entered against the State in the suits brought for the taxes of the year 1885, and such judgments have become final under the stipulation by which they were made to abide the decision in the 1883 and 1884 suits, and consequently a law attempting to reassess and levy taxes for the year 1885 would, if the position of the majority of the committee be correct, be as much "in conflict with the judgments, orders, and decisions of the Courts of the United States," as would be a law attempting to reassess property and levy taxes for the years 1880 to 1884, inclusive.

It is also stated in the majority report that the provisions of the Political Code, relative to the *assessment, levy, and collection of taxes*, were declared unconstitutional in the action of the People vs. Central Pacific Railroad Company, 83 Cal., p. 393. This statement is erroneous. The Court in that case did not find the laws with reference to the method of assessment or the levy of taxes unconstitutional. It was the method of collection by which railroads were required to pay all the State and county taxes to the State Treasurer, at the Capitol; that was declared unconstitutional as being special legislation, and not the method of assessment and levy of taxes. Again, the decision by Judge Hebbard above referred to, establishes the fact that the taxes can be legally collected. Therefore, the finding in the majority report that "the entire assessment of said railroads for the said three years, 1885, 1886, and 1887, is, in the judgment of your committee, invalid and void, and that no tax upon said properties for said years can be collected by law until said properties shall have been reassessed and taxes levied in accordance with the Constitution of the State and of the United States," is not justified in law or in fact.

We are of the opinion that the people of the State will not be satisfied with any compromise of this matter, but, on the contrary, demand of their representatives in this Legislature the passage of a law that will compel the delinquent railroad companies to make full payment of their just and fair proportion of the burdens of government. The delinquent railroad companies have, during all these years, received the equal protection of the laws of the State in respect to their rights and property, without contributing to the necessary cost and expense of maintaining and executing the law, thereby increasing the burdens of the remaining taxpayers of the State.

Want of good faith and sincerity of purpose in their professions, expressive of a desire for a settlement of this question, have marked the course of these companies throughout the conduct of this litigation. The commentary of Judge Hebbard on this point, in his decision in the 1887 cases, is as follows:

"In conclusion, it may be said that none of the questions involved in these actions are novel. They have all been passed upon either directly or indirectly by the Courts of the various States, and of the United States. There is little in the contentions of defendants, as herein made, to commend them to the favorable consideration of a Court of justice.

"They had abundant opportunity to show good faith in the matter of these taxes, either under Section 3665 of the Political Code, by appearing before the Board of Equalization to have the assessments corrected in any particular illegal or unjust to them, or under Section 3669, Political Code, by payment of, and suit to recover back said taxes, neither of which opportunities were availed of by defendants as far as this Court is informed. But instead, they come into Court, offering to pay no portion of their taxes, valid or invalid, resisting the payment of every cent thereof, and seek to avoid liability by technical defenses, which are not sustained, either in fact or in law."

As further evidence of the want of good faith, the San Pablo and Tulare case now on appeal to the Supreme Court of the United States as the result of an agreement arrived at between the Assembly Judiciary Committee of 1889 and the chief counsel of these companies, has not been heard or determined by that Court because of the opposition of the attorneys for the railroad against the protest of the State. This case at the time the agreement was made, was expected to result in a complete settlement of this controversy. The majority of the Judiciary Committee, in their report to the Assembly, March 14, 1889, said: "We are now able to say that, as a result of the inquiry into which this committee has entered, a stipulation has now been entered into and signed between the Attorney-General and the chief counsel of the Southern Pacific Railroad Company, whereby it is agreed to submit to the Supreme Court of the United States, on *agreed findings*, the Tulare and San Pablo case, which involves alone the question of the constitutionality under the fourteenth amendment to the Constitution of the United States, of the system of taxation under our present Constitution. And that your committee believe that a decision in this case will determine the Federal questions at issue between the State of California and the railroad companies."

The substitute bill presented with the majority report provides for the discontinuance of the action of the People of the State of California vs. San Pablo and Tulare Railroad Company, now on the docket of the Supreme Court of the United States, and in our opinion that case should not be discontinued, but on the contrary every effort should be made to induce the Supreme Court to take up and decide the constitutional questions presented in the record. The said substitute bill presented by the majority of the committee would also suspend and abate the actions just decided by Judge Hebbard. We

are of the opinion that the Legislature is not prepared to adopt so foolhardy a proposition. As before stated, the judgments in these actions are for about the sum of \$966,500, all of which sum, except about \$64,000 allowed as attorneys' fees, will, if the judgments be affirmed, as is confidently predicted by the State's attorneys, find its way into the State and county treasuries.

A proper reassessment bill in our judgment, should embrace the entire period since the adoption of the present Constitution in 1879, and we present herewith such a bill, and recommend its adoption as a substitute for Assembly Bill No. 10, and in lieu of the substitute reported and recommended by the majority of this committee.

J. H. SEAWELL.

Exhibit "A."

An Act in relation to reassessment of property, and the equalization of the same, in cases where a former assessment is invalid or void, and in relation to levy and collection of taxes on said reassessments.

The assessment and equalized assessment of such property shall be entered on the several assessment rolls or books in the same manner that assessments of such property are required by law to be entered for the year or years during which such reassessments shall be made. All property authorized to be reassessed by this Act shall be reassessed and equalized by proper officers and Boards at the value and upon the estate and to the person or corporation to whom or to which such property ought for each of such years to have been assessed, under such rules of notice and at the times and in the modes as are prescribed for the assessment and equalization of like classes of property; and the assessment and equalization thereof, and the levy and collection of taxes thereunder, shall be made by the proper officers at the time, upon like notice and in the manner now or hereafter provided by law for making assessments and equalizing the same, and for the levy and collection of taxes on like classes of property, and if the taxes so relieved shall become delinquent, there shall be added thereto and the amount thereof the same percentage as a penalty for such delinquency as is added to other delinquent taxes on like classes of property, and such delinquent taxes and penalties added thereto shall be collected by the proper officers in the manner now or hereafter provided by law for the collection of delinquent taxes and penalties upon like classes of property; the collectors of such taxes to allow as credits thereon all payments heretofore made on the tax as first levied.

SEC. 4. There shall be no limitations as to the time in which actions for the collections of taxes levied under this Act may be commenced, and all the provisions of law now or hereafter provided in respect to assessments, equalization, levy, and collection of taxes shall, where applicable, apply to reassessments, equalization, and relieves and collections of taxes made under the provisions of this Act.

PRESENTATION OF PETITIONS.

Senator Broderick presented the following petition, with the request that it be printed in the Journal.

So ordered.

To the honorable Senate and House of Representatives of the Legislature of the State of California:

GENTLEMEN: The undersigned, citizens of San Francisco, respectfully show to your honorable body that under the present law for the opening and extending of streets in municipalities, the most oppressive and unjust action has been taken.

The following assessments have been levied on our property, for proposed street extensions, within the last year, and an attempt will soon be made to collect them if immediate relief is not rendered by your honorable body, to wit:

| | |
|---|--------------|
| Sixteenth Street Commission | \$343,000 00 |
| Nineteenth to Twenty-third Streets Commission | 160,000 00 |
| Market Street Commission | 400,000 00 |
| Howard Street Commission | 182,000 00 |
| Post Street Commission | 128,000 00 |
| Potrero Avenue Commission | 243,000 00 |
| Twenty-fifth Avenue, New Street, and Twenty-seventh Avenue Commission | 34,000 00 |

The assessment of this vast sum has no element of right or justice, and is as much a pillage as the plundering of a bank by burglars, or the looting of a train by a band of armed robbers.

We have examined the routes of these proposed street extensions, and find it is the unanimous demand of all the property on these projected extensions that further proceedings under the present law be stopped, not only on account of unequal and oppressive assessments, but also of the practical impossibility to open streets on these projected lines.

We therefore respectfully ask your honorable body to immediately repeal the present iniquitous law under which these oppressive impositions have been made, and pass the Act hereto appended, to the end that our property may be saved from confiscation.

Signed by William Thackeray, and two hundred and forty others.

Assembly Bill No. 185 re-referred to Committee on County Government and Township Organization.

The following minority report on Assembly Concurrent Resolution No. 7 was presented and ordered printed in the Journal:

MINORITY REPORT OF COMMITTEE TO WHICH WAS REFERRED ASSEMBLY CONCURRENT RESOLUTION No. 7, RELATIVE TO INVESTIGATING THE RAILROAD COMMISSIONERS.

SENATE CHAMBER, SACRAMENTO, February 20, 1893.

MR. PRESIDENT: The undersigned, members of your special committee, to which was referred Assembly Concurrent Resolution No. 7, relative to investigating Railroad Commissioners, and also the resolution of the Senate directing your committee to conduct said investigation, respectfully submit the following report, therein dissenting from the majority of such committee:

1. The only charge against said Railroad Commissioners contained in said Assembly Concurrent Resolution No. 7, is as follows:

"WHEREAS, It is the duty of said Railroad Commissioners, namely, William Beckman, J. M. Litchfield, and J. W. Rea, and has been their duty ever since their said election to such office, to establish rates of charges for the transportation of passengers and freight by railroad or other transportation companies; and whereas, the said Railroad Commissioners have utterly failed and neglected to establish such rates of charges for the transportation of passengers and freight by railroads or other transportation companies, and have been and are guilty of dereliction of duty; now, therefore, be it

"Resolved, That their office be declared vacant," etc.

By resolution of Senator McGowan, duly adopted by the Senate on February 3d, and by the amendment thereto offered by Senator Earl, it was resolved "that the said Commissioners show cause, if any they have, why they and each of them should not be removed from said office of State Railroad Commissioners, for the reasons and upon the grounds set forth in said resolution as amended."

The only charge contained in said resolution against said Commissioners was the failure of said Commissioners to establish rates of charges for the transportation of passengers and freight by railroad and other transportation companies, and that they have been and are guilty of dereliction of duty.

We respectfully submit that the said special committee was called upon only to report upon the charge of dereliction of duty in not establishing rates of freights and fares, and that that being the only matter committed to them by the resolution of the Senate, that any finding by such committee upon any other matter was gratuitous, and without any authority from the Senate.

2. The majority of said special committee have not found or reported to this Senate any fact whatever to support their assumed conclusion that the said Railroad Commissioners, or any of them, have been derelict in the discharge of their duties, or are incompetent, and in our judgment there is nothing in the evidence taken before said committee to warrant any such finding or conclusion.

The facts shown before the committee are as follows:

That the said three Railroad Commissioners were elected in the year 1890 by large majorities, the aggregate of their majorities being greater than that of the Governor, Lieutenant-Governor, Controller, Treasurer, Clerk of the Supreme Court, Board of Equalization, and Congressmen elected at the same election. The majority obtained by each of these gentlemen was nearly equal to the entire vote received by any member of the present Legislature. The necessary foundation of republican government is the result of the ballot. Whoever seeks to destroy that, even though he be a legislator, commits an offense greater than treason in its far-reaching evils. That in our judgment whenever it is sought to set aside the will of the people of the State as expressed at the ballot-box, in the choice of its officers, the evidence to sustain such action on the part of other officers of the people, elected by the very same people, should be sustained by the clearest and most convincing proof. That in our judgment not only is the proof not clear and convincing that these men have been either derelict or incompetent in the discharge of their duties, but that in fact there is no evidence whatever before the committee that they have been either derelict or incompetent.

3. With regard to the action of the present Railroad Commissioners concerning rates of freight and fares, we find the fact to be that prior to their election, and by their predecessors in office, a full and complete schedule of rates of freights and fares had been adopted by the State Board of Railroad Commissioners. That at the time the present term of the present incumbents began, said schedule of rates of freights and fares was in full force and effect, and ever since has so remained in full force and effect, except as modified by the present incumbents of said office.

The evidence further shows that no evidence has ever been offered, nor has any witness ever offered himself to testify before the present Board of Railroad Commissioners, or before this committee, that any rates charged for freights or fares are in excess of those which ought to be charged, or would give to the owners of such railroad companies any exorbitant or unreasonable profits.

The evidence further shows that since the term of the present incumbents began, that all complaints against any transportation company made to said Board of Railroad Commissioners, or any of its members, have been considered and acted upon.

That the method of such procedure has been that when any person, or persons, complained of any rates, that a member, or members, of said Board consulted the proper officers of the transportation company complained against, and sought to adjust the matter without taking any other form of proceeding; that generally the result of such consultations has been an adjustment of the matter complained of to the entire satisfaction of the complaining parties.

That in all instances when an adjustment could not be made in said manner to the satisfaction of the complaining parties, they have had a hearing before the Board, and in every instance but one a judgment or order has been rendered by said Board against the transportation companies.

That for the purpose of ascertaining if there were any complaints, or cause of complaints, with regard to the rates of freights or fares charged by transportation companies, the said Railroad Commissioners have held meetings in the principal localities of the State, which meetings had been previously publicly advertised, where they have cheerfully received and carefully considered all complaints made concerning, or objections to, the existing rates of freights and fares.

It appeared in evidence before this committee upon questions asked by the Chairman, that the said Railroad Commissioners had not fixed rates of freights and fares upon stage lines within the State. If this be the basis upon which the majority of the committee reported that the said Commissioners have been derelict, and are incompetent (and from the form of the report of the majority of the committee, we are unable to determine whether it is or not), then we respectfully submit that there is no evidence before the committee, nor have we any information through the public press, or from any other source, that there is any complaint, or cause of complaint, on that score.

Some evidence was taken before the committee with regard to bookkeeping, and the evidence clearly establishes that there has been established by the Railroad Commission of California a system of bookkeeping to be followed by the railroads of the State, and that such system has been accepted and followed by such railroad companies, except as to the inter-state roads, for which the Interstate Commerce Board has established a system of bookkeeping, which has been pursued as to such roads.

If it be claimed that every new Board coming into office should adopt a new system of bookkeeping for railroad companies, we respectfully submit that such claim is without merit, until it appears that the previous method adopted is not a correct and reasonable system. If it be claimed that every time a new Railroad Commissioner is elected, that an entirely new schedule of freights and fares should be adopted, without

reference to whether the schedule previously adopted by the Board of Railroad Commissioners, and then in force, is just and reasonable enough, we submit that such contention is without foundation in reason or good government.

Finally, we submit as our conclusions that the present members of the State Board of Railroad Commissioners are reasonably competent for the offices which they fill; that they have been reasonably diligent, intelligent, and successful in the discharge of their duties, and that in the evidence taken before the committee there is nothing tending in any degree to establish that the said Commissioners, or either of them, have been derelict in, or are incompetent for, the discharge of the duties of the offices which they hold.

We therefore recommend that Assembly Concurrent Resolution No. 7 be not concurred in.

E. C. SEYMOUR.
